KNOX SAYS JAPAN LEFT DOOR OPEN

Secretary of State Declares Treaty With China No Menace.

Japan's Working of Manchuria Mines Not a Monopoly and America Has Equal Chance With Other Nations—Favorable Open to Anyone Who Finds Minerals.

Washington, Nov. 16.—Recent treaties entered into by China and Japan as to the operation of coal mines along the South Manchurian railway and the Antung-Mukden railway do not create monopolies, and hence are not violations of the "open door" or the "equal opportunities" principles, to the objection of which all leading powers are pledged.

This is the conclusion reached by the state department after a long and careful investigation of the question involved.

The department today issued the following statement:

"In view of the widespread publicity of the statement that the recent Chinese-Japanese agreement relating to Manchuria created for Chinese and Japanese subjects a monopoly to carry on mining operations along the South Manchurian railway and the Antung-Mukden railway, which would exclude Americans from an extensive field of industrial enterprise, inquiry has been made of the two signatory powers and official assurance has been received from each to the effect that no such exclusive claim to mining rights was intended by the agreement, and that if minerals are found by Americans and others within the designated territories, no objection will be made to their working mines under concessions granted by China—the whole scope and purpose of the agreement being that any operation by Chinese and Japanese subjects of the mines within the territory mentioned should be joint as between themselves.

LOEB CREDITS ROOSEVELT.

Collector Says Ex-President Influenced Present Action.

New York, Nov. 16.—While the legal machinery of the government moves slowly, the air of uncertainty surrounding the so-called sugar fraud cases is interpreted to foreshadow an inquiry which may rank with the insurance upheaval of 1905.

Boston and Philadelphia were brought within the scope of the investigation today with the report that the government would attempt to obtain back duties on sugar in those cities, while investigation went on in New York with repeated rumors of reaching "men higher up."

Henry L. Stimson, special attorney for the government in the cases, declined to discuss this phase of the matter.

William Loeb, Jr., collector of the port, also was inclined to be reticent, but he repeated that it was through the influence of Theodore Roosevelt that the indictment and prosecution of sugar frauds was undertaken. According to Mr. Loeb, he had talked over the matter with Mr. Roosevelt before he took charge of the customs house here.

HOPE IS ABANDONED.

Rescuers Forced to Give Up Work in Illinois Mine.

Cherry, Ill., Nov. 16.—The 300 or more miners entombed in the St. Paul mine by last Saturday's catastrophe are dead. Some of the bodies lie buried beneath thousands of tons of earth which caved in upon them. This will never be recovered.

Rescue work is temporarily abandoned. Renewed fires in the mine made further descents impossible. Fans employed in an effort to carry fresh air to the imprisoned men enlivened the flames. Soon the heat and smoke became so dense it was necessary again to seal up the mouth of the hoisting shaft, and tonight the entombed men are locked in a death dungeon. Steam and chemicals producing carbonic acid gas will be forced through pipes to the bottom of the mine tomorrow. These will have a tendency to choke out the flames.

Three hundred coffins have been ordered—half to arrive Tuesday and half on Wednesday.

Reform Begins in India.

Simla, British India, Nov. 16.—The plan for the reform of the British administration in India, which was outlined by Lord Morley, secretary of state for India, in the house of lords last December, designed to give India an embryo constitution admitting the natives to an important share in the legislation of the country, went into effect today. This began a new and striking epoch in the history of British India. Under the program all religious and special interests may elect representatives to the viceroys and provincial councils.

Haskell Must Face Jury.

Chickasaw, Okla., Nov. 16.—Federal Judge John A. Marshall, of Utah, overruled today the demurrer to indictments filed by Governor Charles N. Haskell and five other prominent Oklahomans, charging them with fraudulently obtaining from the government title to a number of town lots in Muskogee, Okla. The defendants' trial is set for Saturday next, at Chickasaw. The five co-defendants of Governor Haskell are W. T. Eaton, W. T. Hutchins and F. B. Severs.

King May Step Down.

London, Nov. 16.—The abdication of King Leopold of Belgium is momentarily expected, according to a correspondent of Reynolds's Newspaper at Brussels. His dispatches declare that the king has been warned that serious consequences will follow if he refuses to renounce the throne. It is understood that the anti-Leopold party is negotiating with Prince Albert, heir to the throne, to persuade him to succeed his father.

Moors Send Submission.

Madrid, Nov. 16.—An official dispatch from Nador, Morocco, says Moorish tribesmen have sent their submission to General Marina, commander of the Spanish forces.

FORTHCOMING MESSAGE.

President Taft Will Ask for Epoch-Making Changes.

Washington, Nov. 16.—The chief subjects to be discussed by President Taft in his forthcoming message to congress are not secrets since the regent tour of the president. He has indicated pretty clearly in his speeches what they will be, and has mapped out a program more ambitious and more extensive than any Mr. Roosevelt himself ever attempted. Mr. Taft proposes to submit the whole program to congress at one time—to ask in a single message for the enactment of laws that will, if they are passed, mark the coming session of congress as truly epoch-making.

Most of the bills he proposes to have introduced affect corporations in one way or another, and the most important of them promise to arouse fully as much opposition as anything that developed in the fight over the rate bill three years ago.

Mr. Taft will propose to congress important legislation upon at least ten subjects. Each is a matter which will provoke discussion and arouse opposition in congress, especially in the senate, so that from the present point of view the program is for a long and acrimonious session. The chief subjects on which the president will recommend legislation are:

1. Supervision of the issue of stocks and bonds by interstate corporations.
2. Readjustment of the duties and powers of the Interstate Commerce Commission.
3. Expansion of the duties of the trust and holding companies.
4. Creation of a new bureau in the department of justice to deal with violations of law by interstate carriers.
5. Establishment of a so-called "railroad trust."
6. Amendment of the Sherman anti-trust law.
7. Creation of a postal savings bank.
8. Ship subsidies.
9. Amendment of the procedure regarding the granting of injunctions.
10. Conservation of natural resources.

KNIFE FOR RUEF.

Former Boss of San Francisco May Lose Sight and Hearing.

San Francisco, Nov. 16.—Abe Ruef, former boss of San Francisco, who was absolute dictator of the city for five years, is threatened with total blindness and deafness. An operation on his eyes will be performed next Wednesday and on the success of this will depend the effort to save his hearing.

Ruef has been in the county jail for more than a year, pending appeal of his case to the higher court. He was sentenced to four years imprisonment by Superior Judge Lanyon after having been convicted of bribing one of the "hoodling" board of supervisors in the overhead trolley franchise case.

Ruef in talking about his case, attributes his affliction to lack of air. He said:

"I have been advised that an operation is imperative and have determined to submit to it. I have also been informed my affliction results from lack of air. There is a growth in my nose that is said to also affect my sight and hearing. Since I have been out here it has been impossible for me to get any fresh air except by walking, and that only for a short distance."

WAR CLOUD CLEARS.

Canada Will Not Be Called Upon to Build Navy.

Ottawa, Ont., Nov. 16.—The reported momentous arrangement between the cabinets of the British and German empires has brightened the prospects of the Canadian navy. The proposed loan of about \$25,000,000 to start the building of war craft will not now be made to the Dominion government.

News from inside sources is that official reaction has been received that an understanding has been reached between England and Germany that may result in a period being set to their rivalry in naval construction. As the chief of the project is the Canadian navy was to aid the mother country in the event of hostilities, which were believed to be threatened by Germany, the rumored arrangement between the governments in London and Berlin clears up the situation and renders unnecessary the heavy expenditure for war vessels by Canada. Present indications are, therefore, that the acquisition of two fast vessels of moderate size and cost, torpedo craft predominates.

Cook's Photos Assailed.

New York, Nov. 15.—Professor Herschel C. Parker, of Columbia University, who was a member of Dr. Cook's Mount McKinley party, in a lecture before the Patria club of New York, declared that after a thorough consideration of the evidence, he was convinced that Dr. Cook did not get within 10 miles of the peak. "The photographs which Dr. Cook claims are of the summit," he said, "were taken from Brown Ridge, 20 miles away. I know positively that they are not pictures of the main peak."

Smoke Victim Packs Gun.

Chicago, Nov. 12.—The war between officials of the Chicago and Oak Park railway and smokers, who have been arrested for smoking in cars, goes merrily on. A militant suburbanite was arraigned in court charged with disorderly conduct, because he boarded a "converted" smoker with a revolver in a holster strapped to his waist. The case was continued. Meanwhile the smokers discussed the possibility of compelling the railroad company to raise tracks in Oak Park, where they are on the surface or reinstate the banished smoking cars.

Freed, He Sues Heney.

San Francisco, Nov. 15.—A. R. McKinley, one of the United Railways detectives, who was arrested several months ago on a charge of stealing documents from the office of District Attorney Langdon, entered suit today against Rudolph Spreckels, William J. Burns, Francis J. Heney, Harry Wilbur and "John Doe." Burns for \$50,000 damages for conspiracy to frame imprisonment. The charge against McKinley was dismissed last week.

Carlisle Seriously Ill.

New York, Nov. 16.—John C. Carlisle, who was secretary of the Carthage, Mo., school, was reported today as resting more comfortably at St. Vincent's hospital, where he lies seriously ill with acute intestinal trouble.

Old Favorites

Rock of Ages, cleft for me.

Thoughtlessly the maiden sung.
Fell the words uncalled for.
From the girl's, glistening tongue:
Sang as little children sing:
Sang as sing the birds in June;
Fell the words as light leaves down
On the current of the tune—
"Rock of Ages, cleft for me,
Let me hide myself in Thee."

"Let me hide myself in Thee!"
Fell her soul no need to hide—
Sweet the song as song could be.
And she had no thought beside:
All the words unheeding:
Fell from lips untouched by care,
Dreaming not that each might be
On some other lip a prayer—
"Rock of Ages, cleft for me,
Let me hide myself in Thee."

"Rock of Ages, cleft for me!"
"Twas a woman sung them now,
Pleadingly and prayerfully:
Every word her heart did know:
Rose the song as storm-tossed bird
Beats with weary wing the air;
Every note with sorrow stirred—
"Every" again a prayer:
"Rock of Ages, cleft for me,
Let me hide myself in Thee."

"Rock of Ages, cleft for me!"
"Life grown aged sung the hymn,
Trustingly and tenderly:
Voice grown weak and eyes grown dim,
"Let me hide myself in Thee!"
"Trembling through the voice, and
low,
Ran the sweet strain peacefully,
Like a river in its flow,
Sung as only they can sing,
Who life's thorny path have press-
ed;

Sung as only they can sing
Who behold the promised rest—
"Rock of Ages, cleft for me,
Let me hide myself in Thee."

"Rock of Ages, cleft for me!"
Sung about the coffin lid;
Underneath all restfully,
All life's joys and sorrows hid,
Nevermore, O storm-tossed soul!
Nevermore from wind or tide,
Nevermore from billows' roll,
Will thou need thyself to hide!
"Rock of Ages, cleft for me,
Let me hide myself in Thee."

Could the sightless, sunken eyes,
Closed beneath the soft grey hair,
Could the mute and stiffened lips
Move again in pleading prayer;
Could the voice again in song
Reach us from the gates of gold,
Still, I think, would be the song
Sweeter than in days of old:
"Rock of Ages, cleft for me,
Let me hide myself in Thee."
—Ella Maude Moore.

To Cellar.
Drink to me only with thine eyes,
And I will pledge with mine;
Or leave a kiss but in the cup
And I'll not look for wine.
The thirst that from the soul doth rise
Doth ask a drink divine;
But might I of Jove's nectar sup,
I would not change for thine.

I sent thee late a rosy wreath,
Not so much honoring thee
As giving it a hope that there
It could not wither'd be;
But thou thereon didst only breathe,
And sent'st it back to me;
Since when it grows, and smells, I swear,
Not of itself but thee!

Ben Jonson.

Singy Men Take Heed!
Crosby had always been inclined to conservatism in household expenses, especially in the matter of his wife's dress bills. His wife went so far as to say that he was penurious.

She had been in need of a new box for a long time, and after she hinted that her happiness would never be quite complete till she had one, he at last consented to make the purchase. He went into a store and picked out two, one of which was a cheap imitation affair, and the other a fine expensive one. Taking them to his office before going home, he changed the price marks, the expensive tag on the cheap box and vice versa.

His wife examined them for a long time very seriously indeed, and then said: "Now, dear, the expensive box is a beauty, and it is very good of you to allow me my choice. Some women would take it without a word; but really I don't think we can afford the more costly one, and besides, dear, I think the cheap one is the more stylish, too. Why, Crosby, dear, what's the matter? Are you ill?"

But dear old Crosby had made his getaway into the night where he could kick himself as hard as he felt he deserved. But what he would like to know is this: Did his wife happen on the more expensive box by pure accident, or—

Signal Flags.

Signaling by flags, as the term is now universally understood, was invented in the year 1854 by Surgeon Myer of the United States army. Before Surgeon Myer's invention the only flag signaling was by color; but, realizing the inadequacy of such a mode of conveying information, Dr. Myer studied out the system of "wig-wagging," or talking, by making motions with the flag, a sort of deaf and dumb telegraph, which has since been adopted by pretty nearly all the nations of the world.—New York American.

The Naked Truth.

There is an ancient fable which tells us that on a summer afternoon Truth and Falshood set out to bathe together. They found a crystal spring. They bathed in the cool, fresh water, and Falshood, emerging first, clothed herself in the garments of Truth and went her way. But Truth, unwilling to put on the garb of Falshood, departed naked. And to this day Falshood wears Truth's fair white robes, so that many persons mistake her for Truth's very self, but poor Truth still goes naked.

A Satisfactory Toothache.

A lad who had just had a tooth extracted requested the privilege of taking it home with him. "I want to put some sugar on it," he said, "and watch it ache."—Success Magazine.

A Fevish Plait.

The learned writers for the press are very, very good at proving how we waste on dress or furbelows or food.

Each writer new who makes his bow With other sagacious views To show unhappy mortals how They may economize.

They tell us of the thrifty French, Who all excesses shun. But I'm not anxious to retrench; It isn't any fun. I'm weary of this endless song; I wish some seer wise Would show us how to get along And not economize.
