FULL INQUIRY FOR BALLINGER

Washington, Dec. 21.—President Taft today yielded to the demands of both Secretary Ballinger and his critics for a public investigation of the whole subject matter underlying the so-called Ballinger-Pinchot controversy.

Mr. Ballinger this afternoon served upon the president virtually an ultimatum to the effect that such an investigation was indeed the price of his remaining in the cabinet. He made it clear that he was no longer willing to sit silent and wait for the thing "to blow over."

Mr. Taft, it is said, reluctantly admitted the disappointment of his hope that the country at large would accept as final his own vindication of Mr. Ballinger in his dismissal of charges brought against the secretary of the interior by I. R. Glavin, special agent of the land office, and his conclusion that the investigation defianced by both sides was inevitable.

Mr. Ballinger's attitude has the support of the leading Republicans in congress—senators and congressmen—who feel that, entirely apart from the merits of the controversy itself, a festering sore of this character must poison the whole system of the party in power, and that it is high time to resort to the lance.

These leaders, determined that a cleansing of this wound is necessary, have not hesitated to go to the White House and impress their views upon Mr. Taft. Conference of a confidential character, in which members of both houses of congress and the president himself have participated, have been held in the last few days. The ultimatum today, when Mr. Ballinger, Attorney General Wickesham and Postmaster General Hitchcock met in Mr. Wickesham's office and proceeded thence to the White House, where the matter was laid before the president.

The president was given to understand that Mr. Ballinger's demand carried with it the indorsement of both Mr. Wickesham and Mr. Hitchcock. It is known tonight that he has the sympathy also of other members of the cabinet.

Mr. Ballinger told the president, it is said, that the situation had become intolerable to him, and that, though the constant charges against him had come from irresponsible persons, he would not longer sit idly by, and, in justice to himself, he felt compelled to insist upon an investigation.

STATISTICS IN GRAIN YIELD.

Oregon, Washington and Idaho Have Wheat Crops of Enormous Size.

Washington, Dec. 21.—The department of agriculture today made public its statistics of the winter and spring wheat crop of various states for the past year. This report shows that 11,235,000 bushels of winter wheat were produced in Oregon, an average of 21 bushels to the acre. The total farm value of the crop of December 1 was \$10,449,000, or 93 cents per bushel. The spring wheat crop of Oregon is given at 5,142,000 bushels, or 18.7 bushels to the acre. Its value December 1 was \$4,829,000, or 93 cents per bushel.

The winter wheat crop of Washington was reported as 20,124,000 bushels, worth \$18,715,000. This is a production of 25.8 bushels per acre, valued at 93 cents per bushel. Washington's spring wheat crop is 4,550,000 bushels, valued at \$4,560,000, being 20.6 bushels per acre, and the same value as winter wheat.

The Idaho winter wheat crop was 9,135,000 bushels, valued at \$7,947,000. The yield was 29 bushels per acre, and the value as below that of other states, being only 85 cents per bushel. Spring wheat in Idaho was reported at 5,330,000 bushels, which at 87 cents per bushel, represented a farm value of \$4,637,000. The yield per acre is 26 bushels.

One Miner Is Found Alive.

Marquette, Mich., Dec. 21.—Two of the first men who were entombed in the Neganee mine a week ago today were reached tonight. Frank Condello was found alive, and Peter Mandi dead. Condello had been entombed 600 feet beneath the surface since a week ago today, along with three other men. The other men have not yet been reached. Condello was buried in a space only a few feet square, and was without food. He had plenty of water, however, and when taken out he was able to walk with one man supporting him.

Food Supply Destroyed.

Downieville, Cal., Dec. 21.—The greater part of the old mining town of Port Wine, in the northern part of Sierra county, was destroyed by fire Wednesday afternoon. The fire started in a saloon, and as there is no water system in the town and a stiff north wind was blowing, the whole western and southern part of the town was quickly in flames. The amount of loss has been estimated at \$30,000, and there was no insurance on any of the property or the winter food supply that was lost.

Big Strike Is Delayed.

New York, Dec. 21.—Although it had been expected demands for increases in pay would be filed by representatives of 75,000 trainmen with the chief officials of eastern railroads today, no notice of such demands had been served on the companies by the brotherhoods in question. In well-informed railroad quarters it was learned there had been no reason to expect the presentation of the demands before the middle of the week.

Wrights Voted Medals.

Paris, Dec. 21.—The Academy of Science announced today that gold medals for aeronautic achievements would be awarded to Wilbur and Orville Wright, Bleriot, Farman, Count de Lambert, Latham, Santos Dumont, de la Vaulx, Voisin and Count Zeppelin.

Flax Reaches Record Price.

Minneapolis, Dec. 20.—Flax went to \$2 a bushel on the grain market here today, a record price. According to the government's estimate, the crop of the United States is 25,000,000 bushels of this grain this year.

ROADS BESH BY TROUBLE.

Worst Winter in Years Causes Many Weeks and Delays.

Chicago, Dec. 20.—Railroads in the West, northwest, and in the central states are experiencing the greatest difficulty of years in operating their trains. Conditions which exist now have not been equalled during any winter for the past decade.

The troubles of the operating men seem prevalent everywhere. In Chicago passenger trains from all directions arrive from five hours to one-half day late, and in a few instances trains became so late they were abandoned before reaching the terminal.

To make matters worse, the difficult operating conditions which have arisen have been accompanied by a long series of wrecks on the various railroads, which have resulted in arousing apprehension everywhere. For most of these wrecks the sudden cold snap is being held responsible by the railroad men, as the marked drop in temperature causes the rails to become brittle.

Within the territory limits of Chicago the operation of trains is made exceedingly difficult by reason of the cold and the smoke. Early in the morning suburban trains are compelled to crawl into the stations, the engine crews unable to see the signals at times on account of the heavy fog and smoke.

Throughout the west, freight traffic is more or less paralyzed. In an effort to get passenger trains over the road the operating men have been compelled to sidetrack freight everywhere for a long time. The result is that the sidings are full of delayed freight and the terminal yards are congested to an equal degree.

In many sections the sudden extreme cold has been followed by a heavy fall of snow which has drifted and blocked traffic in many places for hours. In Chicago the operating men on the various roads have been working day and night in the hope of clearing up the lines and getting traffic moving normally.

Passenger trains cannot get out of Chicago on time, because of the non-arrival of Pullman equipment, which is in use on delayed trains.

It is said that all of the greatest causes of delay is the difficulty of steaming engines during severe cold. Another cause is the difficulty of operating cold chutes, trains often being delayed from 20 minutes to one-half hour in securing coal or water.

BIG WEDDING CAKE FOR KING.

Monarch of Tonga, in New Zealand, Orders 500-Pounder.

Cape Town, Dec. 20.—By command of King George of Tonga, a baker of Auckland, New Zealand, has designed and built a cake for the coming nuptials of that potentate. In its splendor and imposing proportions the cake, to quote the baker, "has never had an equal in the annals of Australasian confectionery."

It weighs 500 pounds and stands eight feet high. Decorating various panels are the Tongan coat of arms, the Tongan royal crown and the initials of the king and his bride.

Curiously enough, the lady's initials are concealed from the gaze of the crowd who admire the cake in the baker's shop window. The identity of the future queen is in fact a mystery, and one of the conditions imposed on the baker was to complete the secrecy regarding her initials. It is understood that there has been some competition among the ladies of the Tonga court for the kindly bridegroom, and that in order to defer the disappointment of the unsuccessful ones till the last possible moment his majesty will not reveal the name of the bride until the day of the ceremony.

CANNOT SHUT OUT THE STORK.

Chicago Landlords Lose Test Case in Court.

Chicago, Dec. 20.—Hard-hearted Illinois landlords and flat agents must not shoo the stork away from their premises. The stork, in fact, today, and was upheld. This holds ill for landlords who refuse apartments to parents, actual or prospective.

Rolla R. Longenecker, father of a boy of 5 and a girl of 3, brought suit against W. L. Boylston, an owner, and Robert F. Schenck, an agent, for refusing to renew his lease. They made it clear that the reason was that he had children. Longenecker, who is a lawyer and son of the famous lawyer and the name of the protection of the law passed last winter covering such cases, and Municipal Judge Himes decided that children and their parents, under the constitution, are entitled to life and reasonable liberty.

Bank Guaranty Attacked.

Oklahoma City, Okla., Dec. 20.—Restraint orders against State Bank Commissioner Young were asked in a suit argued in the district court today. The United States Fidelity & Guaranty company and the Southern Surety company, sureties for the state school land trust, asked the protection of a trust deposited with the Columbia Bank & Trust company, asked the court to prevent the bank commissioner from making the state guaranty fund and state banks preferred creditors in closing up the bank's affairs. Judge Clark reserved decision.

Wire Used to Bring Aid.

Fort Wayne, Ind., Dec. 20.—Bound and gagged last night by two robbers, who fled after obtaining a small sum of money, Boyd Coates, agent of the Grand Rapids & Indiana railroad at Hunterton, near here, managed to crawl to a telegraph key and ask the dispatcher at Fort Wayne to send aid. While the robbers were breaking in the door, Coates threw the railroad's cash and his watch into the waste basket, and this property was saved. The robbers rifled his pockets and then tied him up.

Road Boosts Dry Farms.

Albuquerque, N. M., Dec. 20.—It is announced today by the immigration department of the Santa Fe railroad that \$25,000 or more will be spent by the railroad to demonstrate the final practicality of dry farming in the wastes of New Mexico. Hard working homesteaders in all parts of the territory will be supplied with the necessary funds and implements. Professor J. D. Tinsley, of the New Mexico agricultural college, has resigned in order to take charge of the work.

Flax Reaches Record Price.

Minneapolis, Dec. 20.—Flax went to \$2 a bushel on the grain market here today, a record price. According to the government's estimate, the crop of the United States is 25,000,000 bushels of this grain this year.

Too Much to Lose.

Manager of Touring Company—Here, buck up, Miss De Vere; else we shall lose the train.

Leading Lady—But I've lost my reticule and my jewel case with my diamonds in it.

"The melancholy days have come"—So sang the weary bard; He'd just been raking autumn leaves Again from his back yard.—Chicago Tribune.

For Old People.

After reaching the age of forty the human system gradually declines. The accumulated poisons in the blood cause rheumatic pains in the joints, muscles and back. These warnings should be promptly relieved and serious illness avoided by using the following prescription which shows wonderful results even after the first few doses and it will eventually restore physical vigor: Yucca once-compound syrup of Sarsaparilla; one ounce Toris compound; half pint of high grade whiskey. This to be mixed and used in tablespoonful doses before each meal and at bedtime. The bottle to be well shaken each time. Any druggist has these ingredients or he will get them from his wholesale house.

Effect of Envy.

If envy, like anger, did not burn itself in its own fire, and consume and destroy those persons it possesses before it destroys those it wishes worst to, it would set the whole world on fire, and leave the most excellent persons the most miserable.—Lord Clarendon.
