English Coffee.

An extract from the London Chronicle proves that the English can take a joke in a sportsmanlike way.

The American opinion of coffee as understood in the English home is not high, and how the coffee of the English lodgings is esteemed may be understood from the following traveler's tale:

It was his first morning in London "apartments," and his landlady came up with the breakfast, and as she set down his coffee cup she opened a slight conversation.

"It looks like rain," she said.

"It does," agreed the American, "and it doesn't even smell unlike it."

LAFEAU BILL IS BURIED FOR GOOD

Proposed Change in Size of Apple Boxes Has Small Chance.

Hawley Keeps Watch and Should it Appear Before Congress Again It Will Be Riddled With Adverse Facts—Measure Was a Blow at Western Fruit Growers.

Washington, Jan. 18.—The Lafaean apple-packing bill, intended to drive Oregon and other western apples out of eastern markets, lies dormant in the house committee on agriculture, and thus far there has been no indication that it is to be pressed for consideration. The bill is not a new one. In one form or another it has been introduced in several successive congresses, but never yet has it received consideration at the hands of any committee to which it has been referred. If Mr. Lafaean has any intention of urging its consideration this session, he has given no intimation of his purpose to the chairman of the committee on agriculture, and without request from him the committee will take no notice of his bill.

The Lafaean bill in its present shape seemingly stands no chance of passage. The radical and revolutionary character of its requirements and the manifest object sought to be attained are sufficient to guarantee a fight against it in committee, and it is doubtful if the bill could be reported to the house, but should it be reported it would only be after the bill had been materially amended, so as to remove the more objectionable features. But more than this, it is seriously questioned whether congress will feel disposed to enter upon the regulation of the size and contents of packages in which foodstuffs are shipped in interstate commerce. Such legislation was not attempted under the pure food law, and it is not believed that congress at this late day will set a precedent such as would be established by the passage of the Lafaean bill.

Representative Lafaean introduced his bill in the last congress, and referred to the committee on interstate and foreign commerce and there died without ever being considered. In the special session last spring he reintroduced it, and on January 5, introduced it with some changes. The latest bill, so far as the western apple country is concerned, is quite as objectionable as any of its predecessors, for it provides that boxes in which apples are packed for shipment out of the state in which they are grown must have a capacity of not less than 2342 cubic inches, the figures named in previous bills. But in addition to defining the capacity of apples boxes, the new bill fixes the standard capacity of apple baskets and barrels, the former to be of the same capacity as boxes, 2342 inches, and the barrels to be of the following dimensions: "Length of stave, 28 1/2 inches; diameter of head, 17 1/2 inches; distance between heads, 26 inches; circumference of bulge, 64 inches."

The objectionable feature of the bill, so far as the western apple growers are concerned, is the requirement of head for boxes. Mr. Lafaean, for some reason, has arbitrarily chosen a box containing 2342 cubic inches, the Winchester standard in the United States, contains 3154 cubic inches. Therefore the Lafaean box calls for 192 cubic inches in excess of a bushel. Why such a figure should have been adopted is a mystery to the members of the committee. Mr. Lafaean has never offered any explanation, yet he apparently is the only man in congress interested in this bill.

Chairman Scott of the committee has assured Mr. Hawley he will do nothing with the bill unless urged to do so by its author. Mr. Hawley, it is understood, Mr. Hawley will be notified in time to enable representatives of the western apple growers to come to Washington and present their protests to the committee. But until Mr. Lafaean demands such action, it is unnecessary for such representatives to make the trip to Washington or to demand hearing.

SHASTA TIMBER IS SOLD.

Forest Service Bureau Approves Sale of 14,000,000 Feet.

Dansuir, Cal., Jan. 18.—The bureau of forest service of the department of agriculture has approved the sale of 14,000,000 feet of standing timber in the Shasta national forest reserve.

The sale was made for \$31,000 to the Castle Lake Lumber company of Castella, and consists of 1,000,000 feet of yellow pine at \$3 per thousand feet, sugar pine at \$4 per thousand feet, and Douglas fir at \$1.50 per thousand feet.

The object of the sale is to remove the dead, dying and matured timber in the reserve, leaving sufficient standing timber to reproduce a supply of the particular kind most desired.

Tourist Rates to Stand.

Chicago, Jan. 18.—A special committee appointed for the purpose of considering reduced rates for 1910 held a meeting today and decided to report in favor of retaining the same rates for homeseekers and tourists as prevailed during 1909. It was unable to arrive at an agreement regarding reduced rates for other purposes. The Trans-continental Passenger association meets January 28 and will then consider the question of reduced rates. The committee will attend that meeting, and following it, will formulate a report to be made to western lines.

OHIO FLOOD THREATENED.

Louisville, Ky., Jan. 18.—Fleeing property valued nearly \$2,000,000 is in jeopardy. People in the low-lying suburb of Shipping Port are beginning to abandon their homes, and damage to business houses adjacent to Louisville's wharf territory is threatened by the swelling waters of the Ohio tonight. Rivermen say that the ice gorges has held on until the ice is grown rotten all the way through, and that there is great danger that it will go out with a rush.

More Tins of Opium Found.

San Francisco, Jan. 18.—Further search of the steamship Siberia by the customs officials today revealed 79 additional tins of opium secreted in various parts of the vessel. Including today's find, nearly \$8000 worth of opium has been found on the Siberia since she came into this port several days ago.

VENTURA'S CREW SAVED.

Steamer Fairhaven Rescues All on Board in Nick of Time.

San Francisco, Jan. 18.—Captain Paul Rappmundt, his wife and 3-month-old child, his 16-year-old son, Paul Rappmundt, Jr., and the entire crew of seven of the wrecked schooner San Buena Ventura, have been saved from the sea. They arrived in San Francisco harbor tonight on the steamer Fairhaven, and the first news of them received since their vessel drifted ashore Friday at the mouth of Rogue river came from the Fairhaven's signal flag as the steamer steered in through the Golden Gate.

The party was taken from the sinking, water-logged lumber schooner after three days of hardship and suffering. They had about despaired of their chances of escaping death in the ocean, when the Fairhaven hove in sight just before dusk Friday afternoon, and the rescue was accomplished despite the heavy sea that was running.

First Mate Erickson, of the San Buena Ventura, was seriously injured on Wednesday afternoon, when the cargo of lumber shifted. Three of his ribs were fractured, and it is probable that he is internally injured. J. Coslovoy, one of the seamen, sustained an injury of the right hand. These were the only casualties.

When the Fairhaven sighted the disabled schooner Captain Paulson sent Second Mate Johann Silversten and four men to the rescue in a lifeboat. After an exciting battle with the heavy sea the small boat reached the side of the doomed vessel.

Mrs. Rappmundt and her son were taken into the lifeboat. Then Mate Erickson was lifted over the side. One by one the members of the crew, nearly exhausted after their many hours at the pumps, deserted the wrecked craft; but Captain Rappmundt refused to leave the ship.

"She'll stay afloat for a week yet, and I'll stay aboard," he shouted to his men. They pleaded with him in vain, and it was not until Mrs. Rappmundt threatened to leap into the sea with her three-month-old baby in her arms that the ship's master finally yielded.

CHINA LIVES UP TO TREATY.

Throws Open Two Cities, Regardless of Japan's Protests.

Pekin, Jan. 18.—China has opened Hun Chun and Lungchin-sun, in Chientao, Manchuria, to international trade, notwithstanding the fact that an agreement has not been reached with Japan regarding the matter of tariffs to be collected on the Korean-Manchurian border.

The question of tariffs will come up for settlement soon.

By the terms of an agreement between China and Japan, signed September 4, 1909, among other things the Chinese government designated the boundary line between China and Korea and several towns in Chientao, which were to be opened to the residence and trade of foreigners. Among these towns are Hun Chun and Lungchin-sun.

Various discussions in carrying out the terms of the agreement have arisen, such as the immigration of Koreans into Chientao. By the terms of the agreement, China was to have suzerainty over the Koreans there, of whom there are about 70,000. Japan felt her control of Korea was in a measure threatened by the question of tariffs. So the opening of the designated towns, promised by January 1, was delayed. Both nations recognize, however, that sooner or later in the course of progress these towns must be opened, and China's present declaration is not thought to portend any serious clash with Japan.

The opening of the towns of Hun Chun to foreign commerce is apparent when it is understood that the town is nine miles northeast of the Korean boundary, 35 miles above the mouth of the Yumen river, and less than 100 miles from Vladivostok.

STOVAINE BRINGS DEATH.

Doctor Says New Anesthetic Kills Chicago Patient.

Chicago, Jan. 18.—Stovaine, according to a coroner's physician, Dr. Warren M. Hunter, caused the death of John Rohby at the county hospital last Thursday.

Rohby was operated on for a fractured knee cap, and died an hour after he was taken off the operating table. Dr. Hunter has made a post-mortem examination of the body, and an expert probably will be held tomorrow.

"Death was caused by stovaine and external violence," said Dr. Hunter. "The fractured knee cap forms all the external violence marks that the body showed, and that in itself would not cause death of course."

Dr. Hunter referred to the new anesthetic recently demonstrated in Chicago by Dr. Thomas Jonnesco, as "a medical gold brick."

Man Dies by Blast Route.

New London, Conn., Jan. 18.—Placing three sticks of dynamite in the front of his shirt, William A. Bennett lighted the fuse and was blown to death today. Bennett, on returning from work Friday, handed his wife a bouquet of flowers, with the remark: "You will know what to do with them between now and Monday." Then he demanded money. On being refused he drew a revolver and fired at her, the bullet striking a corset steel, glancing off. He was arrested.

Cable Breaks; No News.

North Sydney, N. S., Jan. 18.—As a result of the breaking of the cable that connects the Magdalen Islands with the mainland at Bay St. Lawrence, the islands are completely cut off from all communication, either by cable or otherwise, until the opening of navigation in the spring.
