Racy Metaphor.
The Archbishop of Canterbury is a great example of a ready wit, according to the Pathfinder. He was going with a number of clergymen in to a luncheon, after some ecclesiastical function one day, when some dignitary observed:

"Now to put a bridle on our appetites!"

Quick as lightning the archbishop retorted, "Say, rather, now to put a bit between our teeth."

Not So Badly Off.
"Kitty, think of the poor reindeer in the frozen north. They have to paw through the snow and ice to reach their food, and then have nothing to eat but moss."

"Why, mamma, I just love Iceland moss!"

This Calls for Sympathy.
"Yes, it's pretty hard luck to find your cool bin empty during a cold snap and be unable to replenish it except at exorbitant prices. To keep my house half way warm yesterday cost me \$3."

"Great Scott! What extortion!"

"No, it wasn't exactly that. It was even worse. There was no fuel in the house, and I had to burn the children's Christmas trees."

Not Very Cool.
She—My dear, baseball is a very cool game for the spectators, isn't it?
He—On the contrary, it is an unusually heated one.

She—But the papers speak of the thousands of fans—aren't they electric ones?—Baltimore American.

Hood's Sarsaparilla

Makes the blood of the right quality and quantity—normal in red and white corpuscles and all other constituents. It builds up the whole system.

The word "Vermont" on a can of maple syrup has always raised that brand about one hundred per cent in the estimation of the buyer. A few years ago, however, a method was discovered of imparting this same delicious flavor to preparations without the use of real maple syrup. This flavoring extract is called Mapleine.

If a dish of syrup made with mapleine and the real Green Mountain kind is placed before a Vermont, he would not be able to tell the difference between the two. This is largely due to the absolute purity of the ingredients and the great care used in the manufacture.

Mapleine is purely vegetable and makes a syrup that is equal to any and superior to most brands of maple syrup that are placed on the market.

To make delicious flavorings for cakes, ice cream and sauces, nothing is required but a little granulated sugar and water with a few drops of mapleine dissolved therein. Housewives find it a great convenience in preparing puddings out of leftovers.

A little booklet, with the title of "Mapleine Dainties," is published by the Crescent Manufacturing company, who are the makers of Mapleine. The booklet will be sent free to anyone who asks for it. Nearly every grocer carries Mapleine. Try some today and you will say the same that thousands of others have, that here is a flavor with the real maple taste. This little suggestion for a sauce for puddings: Whites of two eggs, one and a half cups of granulated sugar, one cup of milk, one teaspoonful of mapleine. Mapleine is to be used anywhere that another flavoring could be used.

Taft's Brother is Worse.
Los Angeles, Feb. 1.—The condition of Henry W. Taft, brother of the president, who is in a local hospital suffering with an attack of erysipelas, took a turn for the worse tonight. Mr. Taft was attended by Dr. William A. Edwards, of this city, his brother-in-law. Tonight Dr. Edwards reported that the patient had developed more alarming symptoms, a light fever having set in and evidences of a spread of the infection having appeared. President Taft has been notified of the sudden change for the worse.

MINE EXPLOSION KILLS SCORES

Colorado Coal Mine Scene of Death and Destruction.

Seventy-Nine Bodies Found in Mass at Bottom of Shaft—Nearly as Many More Believed to be in Mine and Little Hope is Entertained That Any Are Alive.

Primero, Colo., Feb. 1.—Seventy-nine bodies of the victims of yesterday afternoon's explosion in the Primero mine were found piled in a mass at the foot of the air shaft shortly after midnight.

When the explosion occurred the men evidently made a rush to escape through the air shaft, and were suffocated as they battled with one another for freedom.

It has been shown by the time-keeper's records that there were 149 men in the mine at the time of the explosion. Few are thought to be alive. The main shaft of the mine is completely wrecked.

The mine authorities telegraphed an order to Denver early this morning for water with a few drops of mapleine dissolved therein. Housewives find it a great convenience in preparing puddings out of leftovers.

The explosion occurred in the mine of the Colorado Fuel & Iron company at 4:30 o'clock yesterday afternoon. Three men at the mouth of the mine were killed by the force of the concussion.

Both fans which the mine was equipped with shattered, but were replaced and J. H. Thompson, superintendent, and a rescue party entered by the main air shaft, but were unable to reach the main shaft, which was completely blocked. The party returned to the surface after securing five bodies, which were badly burned.

A party equipped with oxygen helmets replaced them and continued the search for more bodies. Miners were rushed to Primero from Trinidad, Saundo, Starkville, Sopris and Cokeville, and labored frantically to clear the main shaft, relieving each other every few minutes.

Most of the victims are Slavs and Hungarians, although Electrician Will Helm is among the missing.

The camp was a scene of indescribable horror last night. While every able-bodied man was taking his turn with pick and shovel to clear the shaft, the women and children, kept back by ropes, gathered about the shaft, weeping and calling loudly upon their loved ones who had not been found.

The effect of the explosion undergirded is indescribable. The bodies recovered were horribly burned and unrecognizable. One body was impaled on broken timbers.

Pacific Roads Must Face Trial by Next April.

Washington, Jan. 31.—The president has determined to press to a conclusion the pending suit against the Union and Southern Pacific Railroad companies, looking to a dissolution of the merger, and has refused to deny the application of Mr. Lovett, Harriman's successor, for a dismissal of the suit.

Soon after Judge Lovett and a number of influential railroad people appealed to the president to squash proceedings before Judge Vandewater's court in Salt Lake City. Mr. Taft, following the course that had been adopted in the case of the famous New York, New Haven & Hartford Railroad company, when a similar appeal was made, referred the matter to the attorney general for examination. In the New England case, it was found that, because of action taken by the state of Massachusetts and the insignificance of the government's interests, it would be best to abandon the prosecution of the railroad, and this was done.

But Attorney General Wickereham reached a different conclusion in the Pacific railroad merger case, and today he handed to President Taft a voluminous report, conclusions of which justified the president in the announcement that there was a good case against the railroads, following the decision in the Northern Securities litigation. Therefore, proceedings at Salt Lake City will be pressed.

The status of the case at present is this: The government has put in its testimony. The defense must begin in April and the usual evidence in rebuttal must be submitted thereafter. Then the case will go to that novel tribunal of four judges provided by the anti-trust act, known as the expediting court, and doubtless in the end it will come before the Supreme court of the United States.

Builds Aeroplane Garage.
Chicago, Jan. 31.—The Blackstone air, an exclusive hostelry for millionaires, now nearing completion in this city, will have the twentieth floor fitted up as an aeroplane garage. It is believed this is the first serious attempt in this country to provide for the coming method of travel. Managers of the Blackstone say they feel confident that aeroplane travel will be general in the course of a few years at the outside, and that the majority of their patrons will own airships and the garage will be popular.

Panama Libel Suit Dismissed.
New York, Jan. 31.—The indictment against the Press Publishing company, publishers of the New York World, charging Joseph Pulitzer and others with criminal libel against Theodore Roosevelt, President Taft and others, was quashed today in the United States District court. Judge Hough ruled that the statute upon which the indictment rested was not sufficient in authority, in other words, that the court had no jurisdiction.

Children Forced to Work.
Chicago, Jan. 31.—High prices for food in Chicago are driving children to work. In the last three months 1,600 more permits have been asked of the state factory inspector's office than in the corresponding three months a year ago. This is an increase of more than 25 per cent. It is attributed not to any sudden demand of employes for the services of minors, but to the necessities of workingmen's families, which have compelled children to work to buy food.

New Cabinet Rebuffed.
Budapest, Jan. 31.—An early rebuff was met by the recently formed Hedervary cabinet, when the chamber today with a large majority voted a want of confidence in the ministry. The premier told the deputies he was unable to decide immediately whether to resign or to dissolve parliament. He then drew from his pocket an imperial receipt adjourning the house to March 4.

ASKS COOLER CRITICISM.

President Taft Asks Magazine Publishers to be Moderate.

Washington, Jan. 31.—President Taft told the periodical publishers of the United States tonight that, if they overloaded their criticism of men in the administrative authority with unparliamentary expressions and intimations as to lack of honorable motives, nobody is going to pay any attention to them.

Although he made no direct allusion to "muckraking," it was plainly evident that what he was directing his attack.

The president, addressing the periodical publishers association of America as their guest at dinner, did not give this advice to the editors assembled from all parts of the nation until he had prefaced his remarks with good humored treatment of his relative position to the wielders of public opinion.

"This is a formidable gathering to address," said President Taft, after he had been presented by C. H. Smith, the toastmaster. "Gentlemen who act as fates as to what is or is not current literature, would under any circumstances, be formidable to address, and under conditions prevailing in Washington and in legislative halls, it requires a brave man, standing in my position, to face them."

"As to controversies, let me say that all evidence—questions of facts—must be weighed broadly to reach an ultimate conclusion. It is the case with every trust, as much as we condemn them for their iniquities. The evidence must be weighed. It does no good to denounce a person on the witness stand, if he testifies against you.

"You controllers of public opinion and controllers of the rulers of the country may hammer a man into indifference as to what you say, but at that he will come nearer to doing right than if he tried to fight."

"But, seriously speaking, I would like to say that when you criticize a poor devil exercising a responsible position, first give him the benefit enjoyed by every criminal, that of reasonable doubt."

WILL PRESS MERGER SUIT.

Washington, Jan. 31.—The president has determined to press to a conclusion the pending suit against the Union and Southern Pacific Railroad companies, looking to a dissolution of the merger, and has refused to deny the application of Mr. Lovett, Harriman's successor, for a dismissal of the suit.
