The correct way to pronounce it is Es-ta-ca-da, accent on the third syllable, having the sound of a as in ah in the two last syllables.

At Hood River it is reported ranchers and fruit growers are having trouble to find help to put in their crops and do the work of the ranch although two dollars a day, board and room is offered for labor. Here in Estacada it is no better. If a man wants ranch work done he has it to do himself. In the face of conditions like this, so called laborers for fear their wages would be lowered in price, set upon, beat and robbed a colony of Hindues numbering about 100 who have been working in the St. Johns Lumber Mills and it is said only receiving $1.80 a day while other workmen received $2.00 and upward.

This outrage occured on Monday night when a mob of two hundred and fifty men and boys set upon these men and drove them from their living apartments and it is said robbed them of their earnings by taking their money belts from them and committing other outrages. Some were thrown out of windows and had their arms and legs broken, finally all of them succeded in getting to Portland, where warrants are being secured for those who participated in the outrage.

We would not do common labor the injustice to say that these people who tried to drive away this class of labor were laboring men. No, they are loafers and a hinderance to common laborers and are just as much non producers as are grafters and others who try to live by scheming to get a part or all that real labor produces without working for it. To this class belong thieves, forgers, and every class of individual who schemes to take advantage of his fellow. It is to be hoped these last offenders will be speedily brought to justice.

A. L. Mills, president of Portland's biggest bank, evidently knows what he is talking about when he says the Pacific Northwest is the most prosperous section of the United States. He says capital of the country is easy and it is coming this way for investment in large quantities. Prospects for this year are the best, he says, the Northwest has ever known. He naturally attributes a very large part of the activity and hustle hereabout to the large amount of railroad building now under way. This work, he says, is showing the confidence the leaders in the financial world have in this section and it naturally breeds confidence in others.

John F. Stevens, president of the Oregon Trunk railway, now under construction up the Deschutes to Central Oregon, says 5000 men are at work on the 109 miles now under construction, or nearly as many men as ever were employed on the construction of the 370 miles of the North Bank road. He says the new line is of the most modern construction and the whole thing is being pushed with the utmost possible energy. The present plan is to build south only as far as Bend, although maps have been filed from Bend south to the Klamath Indian Reservation.

Despite heavy weather of the past winter, inquiry into crop and stock conditions show that losses have not been so general as was feared. Some stock was lost on the range but the percentage is not large. Prospects in the extensive grain districts of Eastern Oregon are reported to be excellent for a bumper crop. Grain prospects in the Willamette Valley are said to be somewhat less satisfactory. Because of the unusually heavy snowfall in the mountains during the past Winter, there will be plenty of water for irrigation purposes this year.

All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented.

We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a trial order at once, hence this remarkable tire offer.

House Broken Into During Absence

On returning home Monday evening from a shopping trip Mrs. Otto Stuben was astounded to find that her house had been entered during her absence, and on investigating discovered the intruders hiding in the dining room and dislodged them only after a sharp struggle. Well, the fact is it was her sixteenth birthday, and the burglars proved to be only a few of her close friends who had collected a few eatables and gifts and "things" and called in to help celebrate the joyous event. Five Hundred was played and a jolly time was had. Present were Mr. and Mrs. Otto Stuben, Mrs. Roenfeldt, Mr. and Mrs. Will Jones, Mr. and Mrs. Ray Marsh, Mr. and Mrs. Clark Posson, Mr. and Mrs. Willis Yonce, Mrs. George Dale, Mrs. Everett Miller, Fred and Helen Stuben and Virgil Yonce.

Mr. Laurvy, of the Estacada, has just put in a new Webber pianola which is a beauty and valued at $1200. It belongs to him personally and was placed in his private apartments.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

more than the entire money volume of the United States, and, at the present rate of consumption, our mills will be employed 120 years in its manufacture. The wheat yielding area of Oregon will be increased by the opening of Central Oregon to railway communication by over 35,000,000 bushels per annum, which will make Portland in a few years the greatest wheat shipping port on earth. Needless to say, Portland's wheat goes to the ends of the civilized world. Oregon apples command the highest prices in the world's markets, including New York, London, Paris, Berlin and the oriental cities, and are acknowledged the premier apples of the earth—taking last year the first prize at the Spokane National Apple Show, and winning the title of Apple King of the World. Oregon prunes command the highest price in the world's markets, and have for over 20 years past.

"There is only one city in the United States which equals Portland in its trade territory, and that is Chicago. Portland's trade territory is greater than that of New York, Philadelphia, Boston, Baltimore and all that group of cities combined, and it drains to Portland by water level routes of transportation.

"The markets of the Pacific Ocean are open to Oregon, and that means a commercial empire beyond anything that the world has ever known. Nor is this all: with the opening of the Panama Canal trans-isthmian shipment of Pacific Coast products and manufactures must turn eastward to the great consuming population there. Indeed, Portland's timber now in manufactured form reaches Eastern markets by way of six transcontinental railways, and is a very important item of trans-continental freight. Inside of 50 years there will be three great, over-mastering commercial cities in the United States, and their names are—New York, Chicago and Portland. We are building our great city now, and those who get here at this time have the chance to get in on the ground floor.

"And 'Perce,' old man, I have not told the half of the story.

"The agricultural products of the Willamette Valley alone, as estimated by our Agricultural College experts, will when this region is fully developed, reach the enormous total of over $250,000,000 annually. (Please remember that Albany is the transportation hub of this valley now and for all time.) And I have said nothing of mines and fisheries, and they will run into the hundreds of millions.

"No, 'Perce,' somebody has been giving you the wrong tip on this country. It is great in all the elements of greatness, and it is just at the threshold of its development."—Albany Herald.
