We have town lots for sale. Cash or easy payments

Hours: Open 8:50 A. M.

Close 5 P. M.

LOCAL NEWS AND PERSONAL MENTION

Fat cattle wanted; the fatter the better.—See Penland & Jorg.

WANTED—Nice fat beef cattle at Townsend's. Top prices paid.

W. A. Jones on Saturday packed B. O. Caldwell, Mr. Fitzgerald and Mr. Hulst up the Clackamas for a three days camping trip.

Estacada Furniture Co. will put out a lot of odds and ends in dishes which they will sell at cost and less for the next few days.

Mr. J. J. Reed, of Portland, recently purchased the Conklin farm better known as the "state orchard" through the agency of Standish Bros. representing Chapin and Herlow of Portland.

Mr. and Mrs. R. G. Palmateer of Garfield spent the 4th at the picnic in the German Burn. They also were present at the first picnic ever held by the people of that section which was in the year 1874.

Mrs. Milt Marshall who last week went to St. Vincent's Hospital and underwent an operation, is, we are glad to report, getting along as well as could be expected which is very gratifying to her many friends.

The Standish Bros. have been made agents for Chapin and Herlow, real estate agents of Portland, through their agent for Clackamas Co. Mr. Jas. W. Mill, who has been here for several days.

The ten acre tract of S. P. Ford lying east of Estacada has been sold to W. R. Woodworth of Portland and he has already taken possession of the same. The sale was made through H. E. Richardson of Portland.

J. W. Reed, precinct committeeman, issues a call for all republican voters for this precinct to meet at the City Hall, Estacada, at seven o'clock P. M. Saturday, July 9th for the purpose of electing delegates to the county assembly.

H. P. Davison and family of Portland are camping on the acreage of Rev. J. E. H. Simpson on south side of the Clackamas and will spend the Summer here. Rev. Simpson and his son and aunt, Mrs. Fitzgerald, are also with them. Mr. Davison is also a relative of Rev. Simpson.

Wm. Nunn and wife of Garfield left June 1st for Europe. They will spend six weeks in London. They also expect to visit Edenburg and principal points of interest in Belgium. Mrs. R. G. Palmateer received a letter from them dated Henley-on-the-Thames stating they were well and enjoying their trip.

See the Estacada Furniture Co.'s rugs. For the next few days they will sell their \$35 Electric Saxony rugs for \$28 and their Smith Saxony \$25 rugs for \$21. Now is the time to buy your fine rugs.

Miss Shannon, of Portland, was out spending a few days with her father Capt. Shannon of Springfield. She is employed by the Blake, McFall Co. of Portland and has just been spending a three week's vacation. She visited her brother W. F. Shannon of Denver, Colo., during her vacation period.

B. R. Graham and Feaster Calomau with their families and household belongings packed on two wagons, started on an overland trip from Estacada on Saturday, their destination being Tillamook. These families have been residents for a number of years and their many friends were sorry to see them go away.

A number of Garfield people desirous of celebrating the 4th in a pleasant way visited their neighbors of the German Burn who held a big picnic at home. The people of Garfield are enthusiastic over the entertainment accorded them and recommend those desiring royal entertainment to visit the Burn when looking for a place where good pleasing and generosity is observed.

Great Improvement At River Mill

We were surprised while taking observations last week at the River Mill at the number of people that have come here in so short a time and the activity manifested in the work.

When it is remembered that Estacada has only a population of about five hundred and that a little city of almost as many people as we have has dropped in our midst in less than a month with the number of neat, comfortable cottages that have been built to accommodate the families of many of the men who will be engaged in the construction of this new concrete dam, we almost felt that we had a rival city.

There are probably one hundred carpenters engaged in the work. The cottages, which are of a temporary character, are four-roomed, supplied with water and electric light and of neat appearance and rent for six dollars per month.

A railroad spur has also been built down to where the breast of the dam will be, and on either side of the river two towers are being erected that will support a strong cable on which carriers will run to convey cement out on the work where needed from the railroad cars.

A machine shop, wareroom, commissary, cook house, and several offices are either erected or in course of erection. The River Mill is also working and getting out lumber, which is being used in the construction work.

There are more than three hundred people there now and this number is being increased when it is possible to work more to advantage. So, the place is a very busy one at present.

The Fourth in Estacada

The Fourth in Estacada was for the most part made up of visitors who came here to recreate for the day as no effort had been made by Estacada citizens to celebrate and it was a great disappointment to the business men on that account as they had raised sufficient funds to insure entertainment for the people when a celebration was talked of and then it was discovered that the Pavilion had been leased by others and the matter was dropped. Just a couple of days before the 4th it was announced that the Pavilion had been given up for that day, but it was too late.

The ball boys gave an afternoon game with the Stevens' Addition and was the first of any amusement for the day. Later in the afternoon Miller and Rhodes leased the Pavilion and gave a dance so that visitors could have as pleasant a time as possible.

The same 4th idea was not in evidence as everywhere the noise of fire and giant crackers was heard to the annoyance of some and the great delight of the small boy.

After all we believe that most of those who came to spend the day at Estacada enjoyed it, for where can the pleasureseekers find the real enjoyment of a day's outing better than among our natural and restful resorts?

WOOD & LUMBER
Local and Long Distance Telephone

While it is all very fine and we agree with the people there that it is hard to beat, still it is not "the only place" as you will see when the "hooster spirit," to which I ascribe my present inspiration to write, begins to assert itself.

Take it where you are situated on a hill overlooking a smiling little valley with comfortable homes dotted here and there, a cluster of buildings indicating the business center close to the electric railway running through a fine belt of timber in the background suggestive of cord wood, telephone poles, railroad ties and numerous other things, why Eagle Creek is not to be left out, and listen! what is it sings so clear and strong on the early morning air? Why, Lou Baker's anvil, as our blacksmith gives warning of a busy day.

Eagle Creek is teeming with possibilities waiting only for people who are enterprising to find it out. They ask, "What can you produce here?" The reply is, "Anything!" Everything in the way of agriculture, horticulture or floriculture.

Ask Mr. Ed. Burnett's opinion, he will say, "Try spuds." Mr. Homer Glover, after due consideration will say he is quite sure cows pay. Mr. Foster and Mr. A. D. Burnett are equally sure hogs and sheep are profitable and last but not least the poultry business thrives here, for full particulars apply to Mrs. Thomas. She says that midnight vigilance combined with

pluck and ammunition, poultry raising is all it is cracked up to be and more.

Now take into consideration a timid little woman just a few months out from the city with practically no knowledge of country life. She begins with an incubator and some 150 eggs soon realizing a goodly number of young chicks. She is congratulating herself at her success when one night the coup is invaded by an enemy and the morning reveals 35 of her brood missing, while a most peculiar odor is wafted on the air with which the lady is also unfamiliar. So, next night she resolves to keep watch, with some misgivings mind you as to the rifle which she intended should be of assistance, for up to that time just to hear the report of a gun made her nervous. Nevertheless she steeled herself and, Presto! skunk, did you say? Yes, not one, but six! All out of business in less time than it takes to tell the tale and by an Eagle Creek woman.

Can Estacada beat it? To quote Rev. H. W. Kuhlman I feel "it's up to me" to say a word for my town."

With best wishes to Estacada
I am fraternally
"An Eagle Creek Hooster"

BUY, SELL, TRADE, ETC.
