It won't burn until it is put up, then it won't burn ures and his well known decision of character. General Weyler said: "The moment a revolutionary outbreak in Barcelona compels me, as captain The old farmer, equipped with the general, to assume the supreme comless fight. There will be neither prisoners nor wounded. The walls of the

hospitals will become useless and the cemeteries will have to be enlarged."

Six to Try Atlantic Flight. New York - Melvin Vaniman, aviator and mechanical engineer, returned to this country by the French liner La Touraine, full of confidence in the suc cess of the flight across the Atlantic which he proposes to undertake with Walter Wellman in their dirigible airship American.

The American will carry an unsink able lifeboat on her voyage," said Mr. Vaniman. "This lifeboat will be 25 feet long, six feet in beam and will be stocked with provisions sufficient t last the crew for 30 days.

Esperanto to Be Spoken.

Washington-The sixth internationa congress of Esperanto will be in sea sion the week beginning August 14. This will be the first time that the con gress has met in the Western Hemisbeen in Europe. Esperanto will be spoken in Washington by clergy in the play, part of the police force and in all the proceedings of the congress. Furthermore, for the first time probably in the history of the world, it will be used at a baseball game.

Fires Again Menacing. White Horse, Mont.-Forest fires that were partly subdued by the rains ten days ago, have broken out afresh. after another siege of hot, dry weath er, and are threatening to do damage in the heavy timber at the head of Whitefish lake. A new fire has been discovered burning flercely in the vi-cinity of the Great Northern tunnel, 10 miles northwest of here. O'Connell drafted a small army of mer into service and took them to the scene to fight the flames, but the fire had such a start that it is doubtful if they can control it.

Oklahoma Corn Damaged. Guthrie, Okla,-The report of the state board of agriculture up to July 25, just made public, estimates the damage to the corn crop in Oklahoma in the last month at 21.3 per cent. This is against a damage of 25.6 pe cent in 1909. The board reports the cotton crop holding up well. Since July 25 the hottest and dryest weather

of the year has been felt and the dam-

age is said to be much increased over

the figures made public.

Entire Train is Burned. Augusta, Ga.-A Charleston & West The little book in each package gives the formula of our new Hair Vigor, tells why each ingredient is used, and explains many other interesting things. After reading you will know why this new lend to the Spartanburg division. The entire train was burned. The engineer reading you will know why this new lend to the spartanburg division. The entire train was burned. The engineer and fireman were killed and 16 passenger slightly injured.

PASTURING PIGS ON CLOVER

Produces Cheapest Pork, When Used In Conjunction With Some Supplemental Feed.

Even at present prices it is essen tially to our interests to produce pork as cheaply as possible. Simply because hogs are selling at record prices we cannot allow the cost of production to creep up alongside the increased selling price. It should ever be the aim of the hogman to have the hogs and the methods which will enable him to produce a pound of pork with the smallest outlay consistent with good gains.

It has always been our opinion that Washington - Nearly 300,000,000 the cheapest pork can be produced on acres of public land, the cream of the clover pasture, when it is used in con-West, has been withdrawn from entry, unction with some supplemental feed, writes Clyde A. Waugh, in Michigan and held beyond the reach of the set-

of the people of the West. But at the profitable litters are those that are present time this enormous acreage is farrowed about the time the sows can absolutely tied up, undeveloped, inac- be turned on pasture. It is an easy cessible, and for the most part uninhabited.

is attractive or will ever be attractive few ears of corn a day. Before this to settlers. Included in this acreage a few troughs can be placed so as to reclaimable deserts, barren mountain when the pigs can be given shorts and other feeds.

However, by the time the corn is Andorra. ready, the shoats will stand quite a turned a bunch of shoats so raised, in buildings. a corn field with the older hogs. When the piece was hogged off part of the geographies have called it a republic, the most of the matter with the first spring pigs went to market.

KEEPING COWS OUT OF PONDS

Dairymen Make Big Mistake in Allow ing Animals to Drink Dirty, Stagnant Water.

Many men who think they are good farmers allow their cows to drink all several times each year saddle their summer from any old pond that hap pens to contain enough water. No matter how filthy it is, or how

warm or contaminated by vegetable of Andorra la Vieja, to make such few growth or droppings from the animals and simple laws as the well-being of themselves, so long as it is water. A greater error never was made

You cannot get good milk or butter from dirty pond water. The cow is a wonderful milking machine and she often transforms some pretty poor stuff into milk, but if she

is given nothing but dirty, stagnant pond water all her powers of alchemy cannot turn it into a fluid fit for children to drink, There is one way, however, in which

pond water may be used to advantage. but it is not to allow animals to go into it or drink from it direct. A pond on the Oklahoma station farm holds a million gallons and sup-

plies 100 head each of cattle and hogs. the border into France or Spain." It drains a large area which is on a know they must prepare for a merci- hill to the barns and feed lots. That different.

As it runs from the faucet it is as clear as the average well water and it impaneled. tastes good.

The cost of building the pond and of a mile was about \$400. Barring itan Magazine. usual accidents it should cost nothing for repairs and it does not cost a cent to operate it.

There are many localities where the ground is more or less hilly where this sold him bad eggs? system of supplying water could very easily be adopted without great cost.

Home-Raised Seed Potatoes.

A good many people think the, must get their seed potatoes from a different locality every three or four years, or they will run out. This is a mistake: a wrong idea. We have sold seed potatoes to those same men, yet we never changed seed, of the same variety, in our life.

A few years ago a dealer in pota toes here brought in a carload of seed phere, its previous meetings having potatoes from Aroostook, Me., and sold them at a very high price. Some of our neighbors bought this seed and planted, but were much disappointed at digging time, for their own seed gave the best crop.

If farmers will take as much pains plains where he has been." in selecting their potatoes as they do their corn for seed they will not run

But the only thing the careless farmer, that has taken no pains to improve his potatoes, can do this spring is to plant the best he has, and next fall begin to improve and in crease his potato crop by a careful selection of seed.

Concrete Fence Posts. The United States department of agriculture, office of public roads Washington, D. C., has issued an elaborate bulletin on the subject of concrete fence posts. This bulletin DAISY FLY KILLER placed anythers, at goes into details, gives full and minute instructions enabling the farmers to build their own fences with the farm labor. By applying to the office of public roads, United States department of agriculture, Farmers' Bulletin No. 403 will be sent without charge
