SCHOOL EXAMINATIONS.

Pennsylvania Educationalist Thinks They Should Be Abolished.

Public school students have a champion in the person of Dr. Nathan C. Schaeffer, superintendent of public instruction in Pennsylvania, in their antipathy to examinations. Dr. Schaeffer has gone so far as to say that he hoped he would see the day when examinations would be abolished. "They are," he said, "like drugs, since they have a primary as well as a secondary effect in that they cause depression if kept up."

Dr. Schaeffer is himself a keen student-observer. He has profited by his years of experience since his connection with the public schools of the state and he knows whereof he speaks, says the Philadelphia Inquirer. But his opinion in this respect is not the result of deductions on the part of one man alone. There are many others who think with him, some of whom have so expressed themselves and others who, while convinced themselves, are too timid to take a decided stand in the matter.

There is little doubt that the examination is in many respects a barbarous institution. Education is, in the last analysis, only a means to an end, a process of gradual mental development, a plan by which each day the mind is broadened. To expect a child to pass successfully on details which it has used only as mental food and forgotten for five, six, seven or nine months seems not only unjust, but ridiculous. The consequence is that an examination time approaches there is a cramming of matter into the mind, mental indigestion ensues and, not infrequently, even the brightest students are injured physically.

In the big world where results count, a man is not examined at the end of each year as to his work during the past 12 months. The caliber of his work and endeavor at the end of each day is what counts, and so it should be in the preparation for this real work.

FASHION HINTS

The way the embroidered and plain linen is combined here is very good. There is a certain dash to it that's due partly to the plain little banding of a contrasting shade.

BIRD CHAT.

What species of bird lays the smallest egg in proportion to its size; likewise the largest?

It has been computed that 300,000, 000 birds are annually slaughtered for plumes and other decorations.

The Chinese eat "rotten" eggs—that is, eggs preserved in lime until they get a consistency like that of hard butter.

A fossil raphanoceros, a bird of 50, 000,000 years old, sold for \$9,000 recently, the highest price ever paid for a bird.

Cranes are used as watchdogs in Venezuela by the natives, who call them "yakanuk," and are said to be excellent guards of poultry.

Cardinals have been known to alight upon window sills of houses and peck at the panes, probably attracted by their reflection in the glass.

Birds are not the only higher animals that lay eggs, two quadrupeds, the duck-billed platypus and the Australian porcupine anteater, also lay them.

The rpr n'doob, or "bird of death," is the only venomous bird known to science, but there is very little known regarding its habits, and especially its venomous qualities.

The hyacinthine macaw is one of the strongest as well as one of the rarest birds of its kind. There is one in the New York Zoo. There appears to be absolutely nothing known regarding its habits.

Love's Market.

Harold—Well, I'm engaged to you—Life.

MAN ALWAYS GIVING ADVICE

Is Effectually Squelched by Tattered Hobo in Most Characteristic Manner.

The man who is always giving advice sauntered up the street and found the tattered hobo sitting on the curb. "My good man," began the former, "why are you idling away your time like this? Don't you know the world owes you a living?"

"That so?" responded the hobo, nonchalantly. "Well, I guess I better call up a collection agency and get them to collect it for me."

"But this is serious, my man. You deserve something in this world."

"Sure, boss, the last judge I ran up against said I deserved six months."

"Tut! Tut! Don't be facetious. Why, you could rise up in the world and wear broadcloth."

"Thanks, but I am wearing that now, boss. Dis suit is so broad it is three sizes too big for me."

"Well, what in the dickens are you sitting on the curb for, anyway?"

"To curb my temper, boss. To curb my temper when such smart alecks as you ask foolish questions."

Natural Affinity.

Tom—I understand Fred is engaged to Miss Gushington. I can't imagine what she can see in that girl to make him want to marry her.

Jack—Well, Fred has a mania for yachting, you know, and she's such a breezy creature that he naturally took a fancy to her.

It's Size.

"The theme failed as a book and now it falls as a play. Yet the central idea is good."

"Quite right. I think you could bolt it down into an anecdote and get ten dollars for it."

Unfair Competition.

Esmeralda—Did you have that kitchen implement shower for Lil Gerlingham last night?

Gwendolen—Goodness, no! It rained pitchforks!

MANAGUA IN PANIC

Madriz Government Totters and People Flee for Lives.

Estrada Army Approaches and Lives and Property of Americans Are in Peril.

Washington—The provisional government of Nicaragua is tottering to its fall, the Madriz army is demoralized, consternation reigns in Managua and Dr. Madriz, his general-in-chief, Toledo, and general Irias, are preparing to flee the country.

This, in effect, is the news received by the State department from United States Consul Olivares at Managua, and these advices are confirmed by dispatches from Mr. Johnson, United States consul at in Corinto.

The panic in the capital is threatening the lives and property of Americans. Crowds are reported traversing the streets crying, "Death to the Americans."

While the cruisers Vicksburg and Yorktown are at Corinto and in close touch with the situation, the legation and consulates in Managua are under heavy police guard and preparations have been made to meet attacks on American lives and property.

The situation grew out of the victory won Thursday by the revolutionists, who defeated a strong column of government troops and crossed the Tipitapa river.

The removal of the government army seems complete. Mr. Olivares reports that General Toledo, who was in command of the Madriz troops, arrived in Managua following his defeat and announced that his force had been seized with panic and fled when attacked. Soldiers made their escape to Granada while others continued their flight to the capital.

Granada appears to be at the mercy of an undisciplined mob of soldiers, who are reported to be pillaging the houses there.

It is added that the Estradan force is already at the gates of the city and is preparing to take the place by assault. From the evident demoralized condition of the Madriz forces, observers believe that Granada will be taken by Estrada with little trouble and the way to the capital thus practically will be clear.

It seems the unanimous opinion in Managua, Mr. Olivares reports, that the power of Madriz is steadily weakening and that his overthrow may be momentarily expected. The revolutionary army is only 20 miles from the capital and the capture of Managua is looked upon as inevitable.

BURBANK'S LATEST A PEACH.

Juice and Color of Crawford Surround Small Colorless Pit.

Santa Rosa—Horticulturists and fruitgrowers are united in their praise of the two new varieties of peaches and one of plums produced by Luther Burbank, the plant wizard. Crosses of the Crawford and Muir species have resulted in a fruit of greater commercial value. The Bartlett plum seedling is also a betterment in shape, color and preponderance of flesh over pit.

Most of the juiciness and high color of the Crawford peach has been transferred by Burbank to the smaller and firmer pit of the Muir. The color-free pit of the Muir is also retained. The vigor and ability of the new trees to resist diseases is still another recommendation of the Burbank creations.

E. J. Wickson, dean of the college of agriculture of the University of California, pronounces the new variety "a peach."

Private Timber Protected.

Clover Creek, Ore.—The forest fire which has been raging here for the past week is still spreading and the soldiers promised have not yet arrived, and there are not men enough to control the flames.

The smoke is heavy and the heat is something awful. The fire is running to the north and east on the government land and to the south on the private holdings. It is being held in check on the west by firefighters. There are between 50 and 60 men fighting fire for the lumber companies.

Open Shop Mill Wrecked.

San Francisco—For the fourth time within two years the mill of the Pacific Coast Mill & Lumber company, in Oakland, was wrecked Saturday night by exploding dynamite. Two years ago the company had a strike of hands and declared for the open shop, and since then they have defied the labor unions. This latest dynamiting was done by men who knew just where the most valuable machinery was located. The explosive was placed under this machinery and it was almost completely wrecked.

Coyote Bite; Then Rabies.

Asotin, Wash.—An unknown shepherd was found along the Snake river 20 miles from here in a very precarious condition with rabies, resulting from a bite of a mad coyote. The shepherd was coming down the river from the mountains where he had been employed for several months. As he was passing over a high rim rock, he was confronted by a coyote, which, when within a few feet made a spring, burying its teeth deep into the flesh of his body. The herder has slight chance of recovery.

Forty Strikers Freed.

Los Angeles, Cal.—Forty strikers, charged with acting as pickets at the Craig shipbuilding works, Long Beach, were discharged from custody by order of Judge Hart and their cases dismissed after they had been in jail ten days awaiting trial. A mistrial and the acquittal by a jury of two of the alleged strongest cases convinced the judge that the police had acted too hastily in making the arrests. He said the city should cut out the expense.

"To let my neighbor's chickens through into my garden."

"Why, you were complaining the other day about their flying over the fence."

"Well, do they come through it?"

DRINK DOLE'S
Pure Hawaiian Pineapple Juice

Drink it Pure The Drink Delightful!

All the bouquet of the ripe pineapple field, all the snappy acid tang, with none of the rude "bite" you are accustomed to in the unripe fruit-store product you have known; all that's good and nothing that's in the least unwholesome; all that's delicious; all that's satisfying—all this is in Dole's Pure Hawaiian Pineapple Juice. Non-alcoholic, of course. The Dole process of refining the juice of the Hawaiian Pineapple adds no water, no sugar, absolutely nothing to the pure juice. Serve it cold—the colder the better; cracked ice in the glass is a help. An olive, a saline, a cheese straw, a Welsh-rabbit emphasizes the flavor. It adds interest to any afternoon or evening entertainment, at home or at the club.

Every bottle of Dole's Pure Hawaiian Pineapple Juice has the signature of **James Dole** in red ink across the label. At Druggists and Grocers
