Mr. Pratt, who is seventy-five years of age, and his son-in-law C. W. Wisner recently came to Estacada and are now reopening the Park Hotel.

Word was received on Tuesday in Estacada that Zoe Foster, daughter of J. M. Foster of this place, who sometime ago met with an accident while driving in Portland by being thrown from the carriage and her hip dislocated, had the plaster cast removed on Tuesday and the doctor finds everything very satisfactory and thinks the young lady will soon be able to be about again.

"Bill" Jones, W. H. Kandle, F. N. Mewherter and Alvy Hulbert on Tuesday decided to go out and have a hunt for deer. It proved to be a splendid deer day, the sun bright and not a cloud to mar the pleasure of the day. The liveryman came back covered with blood and with a hunting story as long as your arm. They succeeded in killing a pair of forked horned deer. They were all in the killing except Hulbert. "Fire! five shots and blood every shot," is the record given.

## School Opened Last Monday

### First Day's Attendance Shows Large Increase Over Previous Years

The public schools of Estacada opened on Monday. The opening of the schools was delayed in the hope that the new school building would be ready to admit the pupils. It has been very difficult to get men enough at work on the new building to rush it as fast as the necessity required and on this account it was decided to use the church building in use last year to start school and get in the new building as soon as possible. The contractor is making every effort possible to accomplish this.

It is interesting to look back a few years and note the difference in school conditions. In 1904 a few Estacada people circulated a subscription paper and secured money enough by private subscription to build a very ordinary building which they called a schoolhouse. In this they had a few pupils to attend. They were taught by a teacher hired for a few months by private subscription. In this same year a school district was organized and a five month term of school was held in the old schoolhouse, Miss June Oakley, sister of Mrs. J. W. Reed, being the teacher.

In 1906 the present school building of four rooms was built, which was then considered palatial for our needs for many years to come. Five thousand dollars in bonds were issued to erect it.

In 1907 a high school course, which included the teaching of the 10th grade, was established and the next year a full four year course was established.

Two years ago at the opening of school there was entered the first day 2 for the high school and 98 in all the grades. During the year 120 entered. Last year the first day 20 were entered in the high school and 147 in all the grades. During the year 182 were enrolled. This year the enrollment the first day was, high school 38 and in all the grades 176. It is expected that fully 45 pupils will this year be enrolled in the high school and over 200 in all the schools. Three pupils have entered this year for graduation in the four year high school course.

The Estacada school district has always maintained a liberal policy for its schools. Two years ago it established free tuition to outside of the district pupils desiring to enter our high school. The rapid growth of our schools and the present high standard attained by them shows the wisdom of the policy maintained by the district. Our schools offer educational facilities second to none in the county.

A new building is now being completed that doubles the seating capacity of school rooms, and it comes none too soon as three of the rooms now are crowded. Additional desks were added and in three of these rooms every desk is occupied. The cost of the new building and its furnishings will be about \$7000. Six teachers are now employed.

## Not Many Vote At Primary Election

The primary election held at Estacada on Saturday afternoon for this district was a very quiet one. A very light vote was cast. The 89 republican and 22 democratic, total 111, votes cast was not the vote of Estacada alone. Two years ago the registration of the precinct was near 300 and the votes cast being 219. It is very evident the voters of the precinct were not very enthusiastic for their favorites or the

best man. Only 111 votes at the primaries indicates that less than one-third of the voters in the precinct cared who was nominated. We think, with the increase of new people in the district, fully three hundred and fifty voters are in the precinct.

## Writes Letter To Western Friends

J. M. Hayden Says There Is No Place Like Oregon

Shelbina, Mo., Sept. 27, 1910

To My Friends in Oregon: I left Portland Sept. 8th to visit Missouri, after an absence of thirty-five years. The first incident of importance was when the engine left the track near Cascade Locks and dined part of our train. This being the first train wreck I was ever in I can assure you it was an interesting affair.

My trip was over the Denver & Rio Grande, through the Royal Gorge of the Arkansas; the scenery is grand as seen from the observation cars. I stopped over one day (Sunday) in Salt Lake City. We hired an auto and a guide and took in all the places of interest, visited the Mormon temple and tabernacle and heard a Mormon bishop preach. By the way, they won't let anyone inside the temple. They call that the Holy of Holies, a man must be a thoroughbred Mormon to enter, that is where they receive their revelations. I have neither time or space to tell all I saw, but will finish the job
