When You Take Cold

One way is to pay no attention to it; at least not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pec-toral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

When the bowels are constipated, poisonous substances are absorbed into the blood instead of being daily removed from the body as nature intended. Knowing this danger, doctors always inquire about the condition of the bowels. Ayer's Pills.

Wealth Buried With the Dead. The Dyaks, besides the deceased's property, bury with him sometimes large sums of money and other valuables, so that it frequently happens that a father, unfortunate in his family, is by the death of his children reduced to poverty. And in some extinct societies of America nothing but the deceased's land, which they were unable to put into his grave, remained for his widow and children.

Bread and Butter.

There is no place in which bread and butter can be so beneficial or polsonous as in the nursery. The worst thing you can give a young baby, under a year old, is bread, says a writer. But later on bread be-comes useful. It should never be given new to a child at any age, but stale bread or toast, or bread baked crisp in the oven, is excellent for children. They really want more crisp foods nowadays, and if this fact was taken to heart the next generation would suffer less from decayed teeth and weak digestion.

Pleasant News for Author. A local author went to the library to get a copy of his own latest book. He had a friend with him. "Is 'Fate and Fussing' in?" he inquired. "Yes, sir," answered the librarian, promptly. "But how do you know without looking?" "It's never been out yet!"-Cleveland Leader.
