It is said that both the mounted troops and infantry of Madero carry modern repeating rifles of 30-30 caliber. Madero's mounted soldiers are considered particularly efficient. The foot soldiers were recruited from the cotton belt, where it was known for a long time that the peons were ready to take up arms.

According to the reports received in Douglas, Madero's first movement was a bold stroke. ### HUGE FRAUDS EXPOSED.

American Public Bilked of \$100.000

New York - In raids so important that Postmaster General Hitchcock took charge in person, inspectors took action against two concerns which they charge with swindling the public out of more than \$40,000,000 by fraudu-lent use of the mails.

Sheldon H. Burr, president; Eugene H. Burr, secretary and treasurer, and Frank H. Tobey, vice president of Burr Bros., were arrested in the first raid and held in \$20,000 bail each. The government charges that the firm sold between \$40,000,000 and \$50,000,000 of mining and oil stock worth little or

nothing.
Charles L. Vaughan, a director of the Continental Wireless Telegraph & Telephone company, incorporated in Arizona, was taken in the second raid and held in \$10,000 bail. Inspectors say his company has sold stock amounting at least to \$1,000,000 which has brought no returns to investors. Vaughan is treasurer of the Columbia Finance company, which acts as fiscal agent for the Continental Wireless

Telegraph & Telephone company, and had charge of the Continental office in this city.

Both raids are further evidence that the government in its warfare againt interstate swindlers means business and no longer will be content with issuing fraud orders denying them the use of the mails, but will press for

convictions on criminal charges.

The present campaign began some ago, and has resulted in the arrest of Louis A. Cella, of St. Louis, and his associates, charged with operating a string of bucket shops; the officers of the United Wireless company, of the El Progresso Banana company, of the United Exchange, of Chicago; of the Steel-Miller Cotton firm,
