Years of Suffering

Catarrh and Blood Disease Catarrh and Blood Disease—
Doctors Failed to Cure.

Miss Mabel F. Dawkins, 1214 Lafayette St., Fort Wayne, Ind., writes:
"For three years I was troubled with catarrh and blood disease. I tried several doctors and a dozen different remedies, but none of them did me any good. A friend told me of Hood's Sarsaparilla. I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

Slient Forests of Cuba. Silence reigns in the vast forests of Cuba. Says a traveler: "No beast crashes through the undergrowth, no bird sings in the branches, no wind sighs through the mighty tops. The living creatures of that world glance noiselessly through the air or glide stealthily through the heavy, sounddeadening verdure." Cuba has prac-tically no song birds; they are merely gaudy creatures of the ballroom. She is happy also in having no venomo makes and few pests of any sort.

With intelligent guidance the child can be made the judge of what his body needs in the amount of food. If the child be taught-carefully - to chew every mouthful of food thoroughly, and to swallow it before taking another mouthful, and if he is denied any fluid to drink at meals, then he cannot overeat, for appetite will be satisded before he has swallowed too much

A Modern Problem. The paragraphers are still keeping in circulation that paragraph about the judge who ruled a man need not support his mother-in-law. What is it, impecuniosity, tight-waddedness or fust pure cussedness?

Spokane-"Perhaps the most significant result of the National Apple show in Chicago recently, is the widespread attention attracted to the commercial orchard districts of Washington, Ore gon, Idaho, Montana and British Columbia," said E. F. Cartier Van Dissel first vice president and chairman of the board of trustees of the National Apple show, Inc., adding:

The daily newspapers and class publications in Chicago were liberal in devoting space to the enterprise, and taken in all it was the best exploitation the apple ever had, next to the story of its first appearance in the Garden of Eden. Moreover, the people of the Mississippi valley country and the states to the east and south and north have a better acquaintance today with the apple districts in the Northwest than ever before."

No Man is Stronger

Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man 'doesn't feel just right,'' when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

There is a rational way and a fool way of curing poverty. The rational way is to recognize that the world is full of magnificent supplies and to try to develop in the poor man a better kind of wants—i. e.: to change his low thinking into high, to replace his love of mud and its by-products by a love of the spirit and spiritual qualities. The fool way is to heap upon the soul, already oversupplied, a mass of money houses, drapery, fancy halls, golf balls, and highballs. Such a wretch has not riches - riches have him, and usu-
