The correct way to pronounce it is Es-ta-ca-da, accent on the third syllable, a having the sound of a as in ah in the two last syllables.

The Hill system of railroads has expended during the past four years in Oregon and Washington no less than \$80,000,000 according to compilations just made, in extensions, betterments, acquisitions of holdings and equipment, exclusive of fixed charges and operating expenses. The North Bank Road alone cost nearly \$53,000,000 and \$27,000,000 was spent on Hill properties in this state, over half during the past year.

Construction work mapped out for properties in Oregon in 1911 involves the expenditure of \$15,000,000. Coupled with the big expenditures the Harriman system is making in building new lines and extensions and the effort both big railroads are putting into exploitation work to advertise the state, Oregon has a great asset in its railroads.

We are offering to the readers of the PROGRESS a lot of the best newspapers and magazines at very little cost. We hope our patrons will take immediate advantage of these offers and promptly forward their subscriptions. They are not the trashy, no good kind but the best that can be secured. Also the PROGRESS that gives your home news, don't forget it. Send us your names. We would like to place a copy once a week in every home in this community and think we ought to do it. Our subscription list has been increased but we should have the support of every family. You may not like all we say. We do not ourselves, but we believe we have tried to serve the people fairly and faithfully and will continue to do so.

William Holder, editor of the Silver Lake Leader died on December 31, 1910, aged fifty-six years. The Leader was on our exchange list and made weekly visits to this office. He was a prominent I. O. O. F. also a member of K. P., W. O. W. and K. O. T. M. He had been elected sheriff of Sherman Co. for three consecutive terms. Mr. Holder was a very prominent man in Eastern Oregon and his community has met with a serious loss in his death. He had been editor and manager of the Leader since 1906. He also was connected at one time with a paper in Shaniko, later with the Review at Prineville and the Paisley Post. He leaves a widow and six children.

Oregon found a brick in its Christmas stocking when the reclamation apportionment was announced, giving this state but \$925,000 to carry on uncompleted irrigation projects out of the appropriation of \$20,000,000 despite the large contribution of Oregon to the reclamation fund. The Oregon Development League and Portland Commercial Club have taken joint action to secure a re-apportionment, so that this state may secure its just share to continue reclamation work.

Portland Commercial bodies are urging the building of a road through the forest reserve surrounding Mt. Hood. The Oregon delegation in Congress will be asked to use their influence to secure an appropriation of \$150,000 for the purpose. The building of this road is planned to take the place of the national park originally sought for the slopes of Mount Hood.

Oregon and Washington are again trying to agree upon the ownership of Sand Island. A joint commission is tracing an arbitrary boundary line between the two states for ratification by the legislatures. It is expected the long disputed question will be settled at last.

Denatured Alcohol In Solid Form

(Cleveland Special Dispatch)

A well known Wheeling, W. Va., chemist has succeeded in producing chunks of denatured alcohol in crystal form by means of a small infusion of certain acids whereby crystals of an alkaloidal nature very closely resembling physiologically the effects of ethyl alcohol distilled from saw dust. The method employed and the results obtained are somewhat similar to the crystallizing of rock candy or that of Saccharine containing as it does 350 times the sweetening strength over that of cane sugar so this alkaloidal crystallized alcohol contains many times the strength over the ordinary denatured fluid alcohol they will yield 194 proof denatured alcohol with a greater heating and cooking power for stoves than gasoline and it is absolutely non-explosive.

Beware of Quackeries for Catarrh Cure
Cure: Mercury
as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation

Old Soldier Tortured

EAGLE CREEK

The Douglas Ridge Telephone Co. held their annual meeting at the school house in Dist. 50 Monday evening Jan. 9, 1911. Alex Baker was re-elected chairman and Wm. Douglas succeeds R. B. Gibson on the managing board. First and last it seems the meeting came near being a road meeting as some of our citizens are considerably aroused over the fact that the George and Dover precincts have annexed them without their knowledge or consent and then voted a ten mill tax. Like the patriots of old they do not believe in taxation without representation.

Our progressive neighbors of Currinsville have organized a band which some of our boys are taking quite an interest in. All honor to those who help the young people in anything which is a benefit to them. We hope to enjoy some excellent music by the band in the near future.

Mrs. Fred Hoffmeister and children have just endured a very disagreeable sickness which, however, was not severe or of long duration. As no doctor was called we cannot tell what it was but one of the chief features was a breaking out said to look like measles, (but they have all "been to measles") No other cases have been reported.

Miss Ella Cole and a young lady friend are visiting at A. D. Burdett's.

Mr. and Mrs. Wiley Douglas are rejoicing over the arrival of a daughter Thursday Jan. 5th.

The Estacada Pharmacy has recently added the A. D. S. Remedies. A trial will convince you of their merits.

Oregon produced this year 615,034 bushels of corn and 17,000,000 bushels of wheat.

It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Want Better Roads

(Special to the Progress)

Portland, Oregon, January 11, 1911.—"Oregon's bad roads fund is big enough. The State's hampered development, the unpopulated areas that should be producing wealth for busy communities, the difficulties of vehicle transportation and the excess in wear and tear on everything that travels the roads, including people, are to be charged to this bad roads fund."

This statement of Oregon's condition was issued here to day by the Oregon Good Roads Association. It is the reason assigned by Judge Lionel R. Webster, Chairman of the Association's Executive Committee, for a determination to enlist every progressive Oregon citizen, every man or interest to be benefited by good roads construction, and every legislator who desires to serve the interests of the people, in the effort to reduce road building plans in Oregon to a permanent, definite and effective system.

Lack of system is charged by all conversant with the situation as cause for Oregon's poverty in good roads. The constitutional bar to road building that existed until lifted by the people at the last election shares the blame.

The Oregon Good Roads Convention recently held here, approved five good roads measures drafted by Judge Webster, because of the belief that if these measures are adopted by the legislature the system of construction desired will be instituted.

All were agreed that the most important of the five measures is the one creating a good roads commission. The members of this commission are to be three in number. When appointed their services will cost the state nothing. They will serve the cause of good roads for the good of the people, as a public duty. Their executive officer is to be the State Highway Commissioner. The bill requires that the State Highway Commissioner must be "thoroughly skilled in scientific road construction."

His authority is to help build roads in every part of the state. He must know how. He must serve the people and the cause. Any failure to fulfill requirements will mean his dismissal. Authorities are agreed that his proposed salary of \$4000 a year will be but a small portion of the real financial advantage to be realized by the state and its counties because of the Commissioner's service. He will be exponent of system, the system that is expected to show tangible results in the form of actual miles of permanent good roads.

Medicines that aid nature are always most effectual. Chamberlain's Cough Remedy acts on this plan. It allays the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Thousands have testified to its superior excellence. Sold by all good dealers.
