Officials of the Oregon Development League, who had worked for the passage of the bill providing for a state immigration commissioner, were non-plussed when Governor West announced last week he would veto the measure. They succeeded, however, in inducing him to change his mind by waiving any claim to the \$25,000 appropriation the bill carried, so that the law will give the state the benefit of the United States Immigration Bureau work in placing desirable immigrants on the Oregon lands.

Lacking the necessary appropriation to carry on the work, public spirited citizens of Portland will shoulder the expense. The passage of the law will at least provide for state indorsement of promotion literature that shall be issued to attract immigration and this will make this matter authoritative so it will carry more weight and at the same time guard against boomer matter. This will be for the benefit of the whole state and not any section alone. A state book, showing Oregon's advantages, will be issued under the seal of the new commissioner.

We are in receipt of a request from the Seattle Commercial Club to make an appeal in our paper for help for the famine sufferers in China. It is estimated that nearly two million people are starving and will need aid for many months. Those on the ground and familiar with the situation state that two dollars contributed at this time will save the life of some man, woman or child. It seems strange to us with a bountiful supply of things to live on that there is any place that such is not the case. Famine is a horrible thing to contemplate and I feel assured that if our people who have been blessed with so much, when their attention is called to this will be glad of an opportunity to contribute. If so we will make a list of such persons with their contribution and see that the proper authority receives the money. If you feel you ought to contribute send it to the Progress marked for the famine fund. We will acknowledge all subscriptions through the paper.

We continue to be a very busy community. With the coming of bright sunny days the plowman is busy preparing the ground for spuds. During the week a number of small garden spud growers have been busy planting. The soil seems in excellent condition. Numerous brush fires also give evidence of the extension of improved holdings of suburban property. The need of more comfortable homes in Estacada is recognized daily. Scarcely a day but someone is looking for a house to rent. Here is a pointer for the man with money to invest. We have plenty of vacant lots in the city that can be secured to build upon. Why not put up more houses for the people who want to come here.

The first organized party of settlers to come to Central Oregon by the new railroad now in operation into the interior arrived during the past week and took possession of the Baldwin ranch of 30,000 acres at Hay Creek, which they have bought, there were 25 in the party, which traveled in special car from the East. The newcomers will begin the development of their property at once and the big ranch will be cut up into small farms in order to bring it up to the maximum of production.

Tom Richardson, father of the Oregon Development League, who was active for years in publicity work in this state, has accepted an

### Denatured Alcohol in Solid Form

(Cleveland Special Dispatch)

A well known Wheeling, W. Va., chemist has succeeded in producing chunks of denatured alcohol in crystal form by means of a small infusion of certain acids whereby crystals of an alkaloidal nature very closely resembling physiologically the effects of ethyl alcohol distilled from saw dust. The method employed and the results obtained are somewhat similar to the crystallizing of rock candy or that of Saccharin containing as it does 350 times the sweetening strength over that of cane sugar so this alkaloidal crystallized alcohol contains many times the strength over the ordinary denatured fluid alcohol they will yield 194 proof denatured alcohol with a greater heating and cooking power for stoves than gasoline and it is absolutely non-explosive.

invitation to visit Baltimore from March 6th to 20th, at a large salary to advise the Greater Baltimore Committee and assist in raising a promotion fund of \$500,000. This money will be used in bidding for trade in the South. Mr. Richardson will return shortly to Oregon, but will make addresses in a number of Eastern cities this Spring.

The events of the past week illustrate in a striking way the advantage of the Oregon climate. The first was the planting of roses in Portland parks on Washington's Birthday, and the second was the Multnomah Club swim in the ocean at Gearhart last Sunday. Such stunts as these call attention to the mild Winters of the Northwest and attract people here from the frigid East.

Governor West proclaimed March 1st a holiday and named it "Colonial Day." It is his desire that we all write a letter back East telling the people of the East about our state and its wonderful possibilities. If you have not already done so, sit right down and write, do not put it off another minute. They need to know about us for their good.

Clean up is the order that should be foremost in every aggressive man's mind who owns property. Do not wait for the City Council to force you to do this work. It is the proper thing to be done, and let the good work commence instantly.

The list of persons who are reported sick is increasing daily. The cause is mostly from bad colds and lagrippe. It seems to take hold of the strong as well as the weak. It is no uncommon thing to see the individual with his head or throat bandaged and have the usual greeting from the convalescing individual "Well, I see you got it." No fatalities have occurred in our midst from it so far, but it is not an agreeable ailment, as many can testify.

Governor West has been using his axe with vigor. All the Good Roads legislation has accomplished was to give the law makers a little practice in oratory. The Governor vetoed many of the measures passed including the four Good Roads measures.

The new moving picture show fitted up by Reed and Sparks and Bronson and Haskins opened up on Tuesday evening and gave their first show in the new building to a crowded house. The building they formerly occupied will be fitted up as a pool room by Bronson and Haskins also. They are determined to furnish their share of amusement to their patrons.

Has millions of friends  
How would you like to number your friends by millions as Bucklen's Arnica Salve does? Its astounding cures in the past forty years made them. Its best salve in the world for sores, ulcers, eczema, burns, boils, scalds, cuts, corns, sore eyes, sprains, swellings, bruises, cold sores. Has no equal for piles. 25c at all druggists.

Deafness cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A fierce night alarm is the horse, startling cough of a child, suddenly attacked by croup. Often it arouses Lewis Chamblin of Manchester, O., [R. R. No. 2] for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote "we were afraid they would die, but since we proved that a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds or any throat or lung trouble." So do thousands of others. So may you.
