India's Cultivation of Sugar Cane. India has a larger area under can than any other country, and yet is one of the heaviest importers of sugar. There was a time when India manufactured practically all the sugar it required, which was used in the form of molasses, but a taste for refined sugar sprang up, since which time it was found more convenient to import than to manufacture.

2.000 New Yorkers Join in Big Parade to Help Cause.

'Girls of '61," Babes in Arms, And All Intervening Ages Represented-Many Men In Line.

New York, May 8 .- Gray-haired woman suffrage pioneers styled "The Girls of '61," dimpled, laughing girl babies of 1910, not yet out of their first long dresses, girls and women of all ages between, swept down Fifth avenue from Fifty-seventh street to Union square Saturday afternoon in an unorganized protest against denial to their sex of the ballot.

Every avenue through which woman has invaded man's field of endeavor was represented, from sculpture to cab driving. One hundred male sup-

porters joined in the parade.
Four brass bands, dozens of elaborate floats and fluttering pennants by the hundreds, with here and there a banner bearing epigrams, lengthened the line of 2,000 marchers. The ranks were separated into seven divisions and more than half the marchers were laden with camp stools, besides the regular insignia and banners which they carried.

The camp stools, an innovation in New York parades, had served as seats for the feminine army preceding the formation. Having answered their purpose, they were folded up, tucked under arms and carried along. Every one marched with the exception of the veterans and the babies.

Mrs. Antoinette Brown Blackwell, nearly 90, Mrs. Anna Garlan Spencer placed near the register, is liable to and Mrs. Phoebe A. Hapford, representing "The Girls of '61," rode in open carriages. The youngest re-cruits were trundled in go-carts by

their mothers. Out-of-town associations, in a separate division, consisted of delegates sary to go over the leather more than from Colorado, Wyoming, Massachus-

etts, New Jersey, and Connecticut. When the marchers reached Union square an open-air mass meeting was held and addresses were delivered by the leaders.

Half a dozen floats, illustrating the progress woman has made since Eve handed Adam the pippin were interesting features of the celebration and yellow "votes for women" sashes were plentiful enough to give the moving panorama a "Mayonnaise" ap-

BOGUS \$20 COINS AFLOAT.

Counterfeit So Good As Almost to Defy Detection.

San Francisco - Counterfeit \$20 gold pieces, so clever in execution as almost to defy detection, have been spread profusely over San Francisco and other cities of the Pacific coast, according to information given by the ederal authorities.

The spurious gold pieces appear so much like the genuine that they will deceive even the most scrutinous, un-

less examined very closely.

The date on the output is 1888, and it will be found on close observation that the metal is a trifle light. The ring is almost as good as in the legitimate coins, though to the experienced ear it will seem a little "brassy.

Around the design and inscriptions slightly blurred appearance is evident, convincing the authorities that the coin has been cast. A considera ble amount of copper is used in making the bogus coin, and much gold has

been employed in completing it.

It is believed that the gang has circulated the output in several Western states and will soon be run to cover by Chief Operative Moffit and his operatives, who are noted for their success in this line. In the meantime all merchants of San Francisco are especially cautioned by the authorities to be on the lookout for bogus gold pieces.

Fez Besieged by Rebels.

Fez, Morocco-The arrival of Captain Bremon's column has not chang-ed the situation here. The loose investment of the capital continues. The rebel horsemen, who are beyond the reach of the artillery, have cut off the food supplies. The sultan's the food supplies. The sultan's troops are worn out with the constant skirmishig and watchfulness. The rebel chiefs have a growing moral advantage, now all Morocco knows that the sultan is penned up in the capital and that his troops are unable to move outside the range of their artillery.

Turkish Officials Bribed. London-A letter received from Jerusalem says the Moslem sheik, the guardian of the Mosque of Omar, was gievn \$25,000 to permit the explorers of the Anglo-American syndicate to excavate beneath the sacred rocks upon which the mosque stands. The Turkish governor, the writer says, received a far greater sum. The Mos-lems were so incensed they threatened to lynch the sheik. The excavators are supposed to have obtained sacred relics buried by the Jews before Jerusalem was sacked by the Romans.

Mother Love Aids Police.

Los Angeles-Longing for her three small children, who since the escape of her husband, Francis Ryan, from the Denver jail have been public charges in that city, has broken down the stoical silence of "Lillian Paxton," the woman accused of forging deeds to valuable property in this and other cities, and she has confessed that her real name was Mrs. J. F. Flynn and that her home was at No. 52 Hicks street, Brooklyn, N. Y.

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have

testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well.
