Novelties in the candlestick line are always making their appearance, and ust now the Japanese floor lantern is the latest thing. These stand from three to six feet high, or even higher, and are both picturesque and practical. The candle is enclosed in a beautiful deep globe to keep the breezes from the flame, and as the globe is arranged to hold a large candle it will burn a long time.

### Cleaning Bagdad Rugs.

It is very difficult to wash a Bagdad souch cover or rug successfully. The colors are almost sure to run when treated in the ordinary way. Before beginning operations separate the strips. Then wash each one in a separate water. Use white soap and lukewarm water to which a little sait has been added after a suds has been raised by brisk stirring. Do not rub the strips on a washboard, but merely dip them into the water and stir them brickly, then quickly rinse them and hang them over a clothes horse in the kitchen away from the sunlight. Be preful when drying that the strip o not overlap. When almost dry press out the wrinkles with a hot iron. If the middle strips have become slightly worn exchange them with those on the outside, when sewing the cover together again.
