Thicker Than Water.

Rather significant was the celebration of the Fourth of July in Honolulu, with two British cruisers to participate in the exercises and with British officers in attendance upon an official public reception of Independence day.

This is strongly indicative of the brotherly feeling existing between the two countries, of the oft-quoted sentiment that "blood is thicker than water," and of the kinship of the English-speaking people.

The mingling of the British army and navy officials with the Americans in celebration of the anniversary of this country's independence is suggestive of the old soldiers' reunions in which veterans of the Union and Confederate armies fraternize and march together in procession and are brothers under the skies who have forgotten any past differences that estranged them for a time.—San Antonio Express.

A slight cold is not taken very easily, and a deep cough, which is usually waterfalls, a deep cough, which is usually waterfalls, a deep cough, which is usually waterfalls.

Strauss Has New Orchestral.

Richard Strauss is writing a new orchestral work to be called "An Alpine Symphony." The development of the motives parallels the journeys of an Alpine climber, who hies to the mountains to be away from the cares of the world.

Musical description is to be given of the characteristics of the ascent, a waterfall, a deep gorge and a mountain thunder storm. At the summit the climber raises his voice in praise of the splendors of Alpine scenery.

The descent is occupied with the struggle in the wanderer's heart between the feeling of Nature alone and the higher feeling for the divine, each feeling being represented by its own melody.

Finally the melody of faith dominates the other, and the symphony concludes with a hymn praise to God.

Joan of Arc's Sword.

A sword in the Dijon museum has been identified as that used by Joan of Arc and presented to her by Charles VII. of France. On one side of the hilt, says the London Mail, is engraved a figure kneeling before a cross, and the inscription: "Charles VII., the other side bears the name 'Youcouleur.'"

Market for Canadian Tomatoes.

Sample boxes of tomatoes, packed in peat and sawdust, were recently despatched from Toronto to Covent Garden. It is thought that a brisk trade in this vegetable can be developed between England and Ontario.

Local Folk Testify—Stomach Trouble Conquered and Rheumatism Pangs Overcome.

San Francisco—The Southern Pacific company, through Julius Kruttschnitt, vice president and director of maintenance of the Harriman lines, absolutely rejected a demand for recognition of the Federation of Railway Employees, composing five shop trades and 25,000 men. This would hamper the company in performing its duty to the public, was the position taken by the officials. Union leaders asked for it on grounds of economy and expedition and admittedly because of a feeling that greater centralization of capital and power made corresponding centralization among various unions desirable.

The unions involved had asked permission of their general officers to strike in event of the refusal of recognition.

A conference lasting three hours and 20 minutes was terminated by Mr. Kruttschnitt's final answer and following it the union representatives, sober-faced, went into session themselves, to consider the strike vote, which they may accept as binding, or may reject, refusing to sanction a strike.

"Our meeting with Mr. Kruttschnitt was without result," said J. W. Kline. "Neither side would concede anything. The demand that be recognized the Federation was presented to Mr. Kruttschnitt, but he refused to grant it. However, we still have hope of avoiding a strike."

"Owing to the deadlock between the committee and Mr. Kruttschnitt, it is practically certain that the officers and members of the unions involved will be called to San Francisco immediately for consultation."

"The international officers now here have not receded from their demand that the Federation be recognized."

"The railroads recognize and deal with collective transportation organizations. They should receive the same respect on the same basis," Mr. Kline added.

FRANCE IS NERVOUS.

Business Interests Feel Tension of War Situation.

Paris—The nervousness of the business world over the unsettled Franco-German negotiations relative to Morocco reacted Saturday on the Bourse. Transactions were limited, nearly the whole list being weak.

Much uncertainty has been caused in official circles here by the action of the Spanish government in choosing the present time to occupy Sainte Croix la Mineur, on the Moroccan coast, 58 miles south of Agadir, under the terms of the treaty of 1860 with Morocco.

The French foreign office continues to assert confidence in an early settlement, because of the extent of the compensations offered to Germany, but the real difficulty in the way of an early settlement, it is believed, lies in the special commercial and mining guarantees which Germany may seek in Morocco, as nothing can be given Germany in Morocco which Great Britain does not possess. Besides, anything like special privileges would afford endless occasions for the reopening of the controversy on questions of interpretation.

Cough Permit Granted.

Denver—Ole Skinden, a victim of asthma, who came here for his health from New York, appeared before the health officer and requested a permit to cough in Denver streets. He said that when he sits on the curb and he begins to cough the first policeman who comes along arrests him and sends him to jail in the ambulance, charging him with disturbing the peace. The health officer issued an order authorizing him to cough in the street and told him to have the captain of police O. K. it.

Mark Twain Home is Gift.

Hannibal, Mo.—The boyhood home of Mark Twain on High street, built by his father, John M. Clemens, in 1839, was bought by George A. Mahan, a wealthy attorney and his wife, and was given by them to the city of Hannibal. The old home is a two-story frame house in good state of preservation. It is only a few feet away from the alley where "Tom Sawyer" had the boys paint the fence. "Huckleberry Finn" lived at the other end of the alley. Across the street was Tom's father's newspaper office.

Mexicans Shout Fraud.

Mexico City—Jose Pino Suarez held 615 votes as a result of the progressive convention's first ballot for a vice presidential candidate. Dr. F. V. Gomez received 600, Fernando Iglesias Calderon, 321, and Alfredo Dominguez 319. Shouting charges of corruption and yelling that the supporters of Suarez had bought votes, the supporters of Gomez marched out of the convention, stopping the balloting for the time.

Harriman Lines Will Not Recognize Federation of Shop Men.

Kline, for Men, Makes Plea on Economic Grounds—Officials Say 'Duty To Public Prevents.'

Work in Harmony.

In Brazil monkeys and parrots not only roost in the same trees but work for mutual benefit. The parrots gnaw the big nuts loose from the tree, let them fall in order to crack them and the monkeys tear the husks and gather the nuts and divide them with the parrots.

Altered His Plans.

"Papa is going to give me an automobile for my birthday," said the fair young thing. "Is he?" said the caller, surprised. "I was thinking of that myself, but now I shall bring you a box of sweets."

Same Girl.

"Dad, I want to marry Tottie Twinkleton. I hope you won't blame me for wanting to marry a chorus girl." "Not at all, my boy. I wanted to marry her myself when I was about your age."

A Packing Hint.

When traveling it is a good plan to tie the trunk with a large sheet or piece of muslin. When all the clothes are packed the ends of the sheet are folded across the top of the clothes and pinned firmly with safety pins.

Be Honest.

Honesty is also one of the fundamental principles it never pays to break. If to be a good fellow means you are to sneak, or steal, or lie, then you dig a pit into which one donkey certainly will fall, and his name will be spelled just like yours.

No Helping.

A St. Louis traveling man, making his first trip through North Dakota, woke up one morning to find the ground white with snow. "For Heaven's sake," he asked the hotel clerk disgustedly, "when do you have summer out in this God-forsaken country?" "I don't know," replied the clerk. "I have only been here eleven months."—Success Magazine.

Easy Way Out.

The day was sultry, the spectators were restless, and the judge irritable. "The next person," he said, "that disturbs the order of this court will be sent home to stay." "Hurrah! Hurrah!" yelled the prisoner on trial, jumping up and down in the witness box.—Success Magazine.

The Beautiful Women of Today.

It is a satisfying reflection that the fame of the noted beauties of the day will go down to posterity not as the artificially bedecked and painted heroines of old, but conspicuous and celebrated by reason of their splendid manifestation of health, of youth, of comeliness.—Ladies' Field.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit.
