**The Paper Wedding.** The completion of the second year of married life, and is sometimes the first one celebrated, since the cotton anniversary seems to offer very few possibilities in the way of unique entertainment. For the paper wedding we can decorate our rooms and table with some of the beautiful paper flowers that are now being modeled most exquisitely after the natural flowers.—Harnes's Bazar.

**Woodpecker's Hearing.** It is not easy to explain why woodpeckers select one tree rather than others of the same kind in the forest upon which to attack their operations, or why they attack one side of a tree and leave the other untouched. Commonly it will be found, no doubt, that worms or ants are concealed beneath the point selected and that the woodpecker is guided in his search by the sense of hearing.

**Woman's Age.** A few years ago after a woman had passed thirty-five she was relegated to the fringes and she looked and felt old. She lived in her memory, and all the money that was spent for little frills and follies was given to her daughter; for mother, all was over. Suddenly woman awakened to the fact that after thirty-five she is at her best, and that her beauty need not fade unless she wishes it.—Home Life.

Entirely inadequate. "I offered to let him have a hundred." "That would only be a drop in the bucket."—Life.

The Clever and the Wise. To clever people almost everything is laughable to wise people, hardly anything.—Goethe.

Only the Belief of Snobs. The idea that trade is vulgar is one of the silliest ideas that ever came into the brain of man.

# THINGS WORTH KNOWING

When cane seats are relaxed turn the chair upside down, pour boiling water over it, scour in hot soapuds and rinse again in boiling water, when the cane should be found to have contracted.

A polish that may be used for floors and furniture is made of equal parts of vinegar, boiled linseed oil and methylated spirits. Where the polish has worn off this renews it, and when it is well rubbed in it gives a brilliant surface to the floor.

If the painter has left marks of paint on the floor apply to them a paste made of equal parts of lime and soda moistened with a little water. Leave this, apply very thickly, for 24 hours, then wash it off and the stains will be found to have disappeared.

**When Your Eyes Need Care Try Murine Eye Remedy** No Smarting—Pain-Free—Acts Quickly. Try It for Red, Weak, Watery Eyes and Irritated Eyelids. Illustrated Book in each Package. Not a Patent Medicine, but used in successful Physicians' Practice for many years. Now dedicated to the public and sold by Druggists at 25c and 50c per Bottle. Murine Eye Salve in 1/2 Pint, 1/4 Pint, 1/8 Pint and 1/16 Pint. **Murine Eye Remedy Co., Chicago**

**Novel Dainties.** The kumquats or "little oranges" that come in boxes at the fruit store are a source of wonderment to many persons who have never used them themselves or happened to meet them on others' tables. The way they are served by an uptown chef is this: He covers a plate with entire leaves that have been chilled and then covers the leaves with kumquats that have been sliced very fine and allowed to stand for an hour or two with a covering of sugar and sherry. The salad is dressed with oil and vinegar.

Alligator pears are another mystery to a good many American housewives who have departed from traditional lines. The pears are so delicious should be a little soft, and they should also be very cold. Cut the pears in half, arrange them on individual plates covered with white lettuce leaves and fill each cavity with French dressing. The pears are eaten with a spoon, like a muskmelon.

**MAKES CLOTHES WHITE.** The troublesome problem of wash day solved by **RED CROSS BALL BLUE**. The blue that is all blue. Solid package; no liquid to leak or spill. No odor. Made for 20 years and used everywhere.

A large package only 10 cents. Makes the clothes snow white. Less bother, less waste. More satisfactory results and practical economy. **ASK YOUR GROCER.**

**Her Natural Occupation.** Now and then the childish comment goes right to the heart of a difficult problem or situation. A little boy who longed to stand on the seat of a car and look out of the window was sternly reproved by his mother. "What a 'traid-cat mamma!" exclaimed another youngster, seated near. "Yes, I suppose she is nervous," was the adult reply, "but then, you see, she has to take care of her little boy and it keeps her busy." "Well, isn't that what she's for?" was the innocent, pertinent question.

**How Elected By Hobos.** Cincinnati—James Eads How, of St. Louis, the "millionaire hobo," was chosen national chairman of the Unskilled Migratory and Casual Workers' association of the United States. Alexander Tyler, of Cincinnati, was elected secretary, and Cora D. Harvey, of St. Louis, was named treasurer. The convention came to an end with an address by Professor Frank Bohn, formerly of the University of Chicago, on "Socialism."

**Germany to Add to Force.** Berlin—Fifteen thousand blackjackets are to be added to the German navy by the new naval bill about to be introduced in the Reichstag.

# CRUSH REVOLUTION

**Madero Will Deal Summarily With All Agitators.**

**Policy of Diaz is Adopted in Dealing With Enemies of Government—Troops Watch Border.**

**Mexico City**—Without blare of trumpets and without official proclamation the Federal government proposes to employ the drastic methods of Diaz in restoring peace. Immediate application of the new policy will be the nation's only appraisal of it.

This is the substance of a statement by a cabinet minister. Swift punishment is to be the portion of all agitators who can be reached, whether of gun or pencil. A few newspaper writers will be deported, it is said, under that provision of the constitution which provides for the expulsion of undesirable. Public parades and street orations are to be prohibited in cases where the purpose is in any manner connected with the political affairs.

This prescription is in accordance with the government's diagnosis of the revolutionary disease that has broken out in so many parts of the country.

Official figures place the loss in death, both north and south, since January 20, as follows: Federalists, 34, rebels, from 222 to 272, and noncombatants, 10.

Unofficial reports, apparently well founded, add to these figures 15 Federal dead and 45 rebel dead.

One rebellion is recognized, that of Emilio Zapata, covering all of the state of Morelos and portions of the states of Hidalgo, Guerrero and Mexico and the Federal district itself, in Guerrero conditions are not greatly better than in Morelos. There the district leader of the revolt is Jesus H. Salgado, who, like Zapata, is a former officer in Madero's revolutionary army. He has been persistent in declaring that he is fighting for the cause of Emilio Vasquez Gomez, but there is little doubt that he and Zapata are working together.

In the state of Tabasco, there remains a trace of the revolt of a few weeks ago, but that had nothing of a national character. It was specifically against the government. The portion of Oaxaca on the Tehuantepec isthmus has yet a few rebels, but they are not operating against the Federal government. Reform of local conditions is their cry. The list of uprisings was increased last week by one in Michoacan. Alleged abuses on an hacienda account for that. The insurgents are chiefly field hands.

The puzzle was furnished by the garrisons at Juarez and Chihuahua. The rebels in the South pretend a knowledge that the mutinous troops are working under the same general plan with themselves, but government officials profess to believe there is no connection between the uprisings in the North.

**ICE GORGE BREAKS.** Three Persons Swept to Death in Niagara River.

Niagara Falls—The great ice bridge that has choked the river channel between the cataract and the upper steel arch bridge below the falls for the past three weeks broke from its shore at noon Sunday and went toward the river, taking with it to their death a man and woman said to be Mr. and Mrs. Eldridge Stanton, of Toronto, Canada, and Burrell Heacock, 17 years old, of Cleveland, O.

Four other persons were on the ice at the time, but managed to get ashore in safety.

The bridge was considered safe. For weeks the great fields of ice had been coming down the river, piling up against the barrier until it was from 60 to 80 feet thick and under the influence of zero weather the great mass had become anchored firmly to the shore. The jam was about 1,000 feet wide and in some places a quarter of a mile in breadth.

**Liner Alleghany Sinks.** New York—The Hamburg-American liner Alleghany, which left here Saturday for Central America and West Indies, sank 75 miles east-northeast of Cape Henry, off the Virginia coast, after a collision with the British steamer Pomaron, according to wireless dispatches received here shortly after the disaster. The Pomaron took all the passengers and crew of the Alleghany on board and, conveyed by the revenue cutter Onondaga, is making slowly for port, the message said. No lives were lost so far as known.

**Ex-Prisoner Brings Suit.** Pittsburg—Frederick H. Merrick, editor of a Socialist newspaper, one time a prisoner at the county jail, has brought suit for \$10,000 against Warden Lewis, alleging that because he would not attend the religious services at the institution, he was thrown into the dungeon of the jail. He says that he was kept in solitary confinement during the services. He contends that his right of religious freedom, guaranteed by the constitution of the United States, was violated by this attempt at discipline.

**76,128,000 Bushels Move.** Winnipeg—That 76,128,000 bushels of grain have been marketed on the Canadian Pacific railway this year against 55,518,000 bushels for the same period last year is shown by reports just completed. Of the former total 61,740,000 bushels are wheat and 14,388,000 other grains; while of the 55,518,000 bushels, 43,607,000 bushels were wheat and 11,911,000 bushels other grains.

**Mayor Joins Two Tunnels.** Storm King, N. Y.—Mayor Gaynor, of New York, touched an electric button and fired the blast that joined the two tunnels, sunk on opposite sides of the Hudson river for the New York-Catskill aqueduct. The work of concreting the tunnel will be started at once. It is estimated it will take about a year to complete this part of the work.

# LONDON NEWSBOY IS HEIR.

**Grandson of Rich Californian Begins Suit for Estate.**

San Francisco—By an action filed in the Superior court here, a London newsboy became a contestant for a fortune.

The suit, filed by Mrs. Amelia A. Dierks in behalf of Etienne Bullard, a lad whom she found selling papers in London two years ago, reveals the story of the boy's abandonment in Paris, after the death of his mother and the discovery, according to Mrs. Dierks that he is the grandson of the late Dennis Hayes, a wealthy pioneer mining man of California and that he was restored to his relatives by the chance meeting with his benefactress in London.

The boy's claim to a share in the Hayes estate of approximately \$100,000 is entered in the suit just filed.

Mrs. Dierks found Etienne Bullard, then 12 years old, selling papers in London two years ago.

"You speak like an American," she said.

"My mother was an American," replied the boy. "She died and I have almost forgotten her, but she taught me to talk."

The boy's memories of his parents were vague, but Mrs. Dierks learned by investigation, she says, that his mother was Annette Hays, daughter of Dennis Hayes, and that she had been married to Etienne Bullard, a supposedly wealthy Frenchman, against her father's wishes, and gone to Paris to live. Further inquiries revealed the whereabouts of an aunt, Mrs. Cecilia Laib, living in San Francisco, and Etienne was taken to her by Mrs. Dierks.

Laib residence called on the boy and left within a week, going to the home of Mrs. Dierks, with whom he has since lived.

**FEWER NEWSPAPERS EXIST.** Total Listed in American Annual 13 Less Than Year Ago.

Philadelphia—That there are fewer newspapers in the United States than there were a year ago is revealed by figures presented in the American Newspaper Annual, just published. A year ago the number of daily papers was 2,472; the 1912 annual lists 13 less.

New England has lost four dailies; New York four, the Middle West nine and the Western states 13.

There were gains in the Southern and Middle Atlantic sections. Weekly and semi-weekly newspapers are also fewer in number. The 1912 annual names 16,229 weeklies, 40 less than in 1911, and 605 semi-weekly, as compared with 617 in 1911.

**BREWERS SEE HOP LANDS.** Eastern Party Looking Into Prospective Western Investments.

Chico, Cal.—Several prominent hop-growers and representatives of Eastern breweries are in Chico looking at land suitable for purchase and arranging for the care of that already acquired. The party consists of J. Birkenheim, of New York, and Flood V. Flint, P. M. Rooney and William Woods, of Sacramento, under the guidance of F. Frazer.

Birkenheim represents a syndicate of Eastern breweries and is endeavoring to put into operation a plan whereby the breweries will raise their own hops. It is also understood they are negotiating for the purchase of lands already given over to hopgrowing.

**Fight Abandonment of Posts.** Washington, D. C.—Notwithstanding Secretary Stimson's report to congress recommending the abandonment of many army posts, it is improbable that any of the larger posts will be abandoned this winter. A Democratic house may insert amendments in the army appropriation bill to carry out Stimson's plan of economy, but the senate is almost to a man opposed to his program, and it is certain there are enough votes in that body to prevent the abandonment of any important post.

**Packers' Margin Even.** Chicago—Government Counsel Shean in his examination of witnesses in the packers' trial, brought out the fact that the margin system used by the National Packing company is uniform at all plants of the corporation and was used as a measuring stick for comparisons. Later the government will attempt to show that the margin system used by Armour & Co., Swift & Co., and Morris & Co., is identical in material respects with that used by the National Packing company.

**Death Cheats Hunters.** Chicago—While hunting for Antonio Maggiorio, Jr., who it was thought had been kidnaped, the police found the boy's brother, Michael, for whom they have been searching for three weeks, suspecting he had knowledge of "Black Hand" outrages here. But Michael was not arrested. A few minutes before the police shoved open the creaking door of the frigid back room in which he had hidden, death had claimed him. He was tubercular.

**ALL DRUGGISTS.**

"Dad" and "daddy" were well known in this country in the sixteenth century; "papa" did not come in, borrowed from abroad, until the seventeenth century was well advanced. Florio, at the end of the former century, defined the Italian "pappa" as "the first word that children are taught to call their father, as ours say 'dad,' 'daddy' or 'bab.'"

"Dad" seems to be the commoner to mankind of the two. Nausicaus in the "Odyssey" calls his father "pappa phile," dear papa; but Greek has "tata" also, and Welsh has "tat," and Irish "daddy."

**Qualities That Make for Success.** "The qualities of honesty, energy, frugality, integrity, are more necessary than ever today, and there is no success without them. They are so often urged that they have become commonplace, but they are really more prized than ever. And any good fortune that comes by such methods is deserved and admirable."—Marshall Field.

**SEVEN YEARS OF MISERY**

**How Mrs. Bethune was Restored to Health by Lydia E. Pinkham's Vegetable Compound.**

Sikeston, Mo.—"For seven years I suffered everything. I was in bed for four or five days at a time every month, and so weak I could hardly walk. I had cramps, backache and headache, and was so nervous and weak that I dreaded to see anyone or have anyone move in the room. The doctors gave me medicine to ease me at those times, and said that I ought to have an operation. I would not listen to that, and when a friend of my husband's told him about Lydia E. Pinkham's Vegetable Compound and what it had done for his wife, I was willing to take it. Now I look the picture of health and feel like it, too. I can do all my own housework, work in the garden and entertain company and enjoy them, and can walk as far as any ordinary woman, any day in the week. I wish I could talk to every suffering woman and girl, and tell them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. DEMA BETHUNE, Sikeston, Mo.

Remember, the remedy which did this was Lydia E. Pinkham's Vegetable Compound.

It has helped thousands of women who have been troubled with displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, that bearing down feeling, indigestion, and nervous prostration, after all other means have failed. Why don't you try it?

Ask your dealer for it. If he does not handle it drop us a postal card and we will furnish you the name of a dealer who does.
