about our certificate of deposit. If you have money awaiting investment exchange it for one of these certificates which bear interest according to the time the money is left with bank. The certificates are as good as cash, in fact they are a great deal better than idle cash.

The EYE

The eye is a wonderful piece of divine mechanism and deserves the best care within the reach of human knowledge. The delicate construction of this organ makes it necessary to use great care in selecting eye glasses and spectacles.

It is not generally understood by those depending on artificial assistance for good vision, that it requires as much scientific knowledge to adjust lenses to the eye as it does to prescribe medicines for the human system.

Much of the present day eye trouble is due to wearing cheap, decentered lenses fitted (?) by incompetents, or bought across the counter or from peddlers.

We cease to wonder at the magnitude of present day eye trouble, when we think of the thousands who are wearing such glasses—lenses which change and distort the rays of light, producing innumerable eye ailments and defects.

No person should wear a glass unless prescribed by a reliable specialist—one thoroughly acquainted with anatomy, physiology and diseases of the eye, laws of light and optometry.

Chief Lewis and Aides Visit Estacada February 29

DEMONSTRATION IS BILLED

The Oregon Agricultural College Experts Should be Greeted by Big Crowd—Demonstration of Grafting

Fruit raisers of this vicinity and citizens generally will be honored as well as instructed when C. I. Lewis, chief of division of horticulture, O. A. C. Experiment station, appears at the O. A. C. Experimental orchard in Garfield at 1:30 p. m., a week from today to lecture on orcharding.

Estacada and the country surrounding it, should give Chief Lewis and his assistants a rousing reception for their coming here is a great advertisement for the country as a fruit district. At Hood River whenever they appear, fruit raisers for hundreds of miles attend their meetings.

Writing to Phil Standish at Garfield, Chief Lewis announces the meeting and says R. W. Rees will accompany him. He hopes for a big meeting. The experts will give a talk or two on Orchard and Actual Pruning, pruning enough trees to demonstrate the proper methods and giving demonstration of grafting.

One of the state experimental orchards is located here and the experts, naturally, are much interested in the country. People for miles about should attend this meeting. The date is next Thursday, Feb. 29, at the O. A. C. orchard in Garfield at 1:30 p. m.

Finds Central Oregon Place for Homesteads

Well pleased with the Central Oregon region, Edwin Bates, Jr., has returned to Portland, after filing on a homestead. He traveled about 150 miles by stage and spent several days at Fort Rock, near which settlement he made a filing. He found the country well populated and the settlers well pleased by their first year's crop. He will make settlement this spring.

Mr. Bates arrived at Fort Rock a few days after the killing by officers of C. E. Shaeffer, a turbulent settler, who had been involved in several difficulties. Shaeffer lived with his aunt on a ranch near Fort Rock. He beat up a homesteader and when officers went to the house to arrest him, two remained outside while one entered. The two outside covered him with rifles. Shaeffer is alleged to have started for his gun. The officers fired through the window, killing him. The aunt then grabbed a gun and began shooting. She emptied the magazine into the darkness but failed to hit the officers, who then arrested her. She was ordered to leave the country.

Locals Beat Springwater; Claim the Championship

By defeating Springwater 27 to 23 last Saturday evening, Estacada High School lays claim to the basketball championship of Clackamas county, having beaten every county team it has faced.

No better game has been seen in Estacada than the last one, the Springwater five being tall, well built huskies, versed in the game and full of grit and pepper. The high schoolers, though much lighter, were faster and the team work more developed. Moreover the locals were against a hard proposition and they fought desperately.

The rush of Estacada was so fast and brilliant during the first half that Springwater was for a time swept off its feet. But it woke up and at the close of the half which ended 18 to 7, was going strong.

The second half was replete with good work on both sides. Springwater attacked hard and it rolled up 15 while the locals were throwing

8. The visitors, however, found the defense too strong to catch up and the call of time found Estacada a winner.

There was much penalizing for fouling on both sides.

For the visitors Kilgore and Smith were prominent, although Wilcox, the Horner Brothers and Generowski did good work. Morton for Estacada during the first half threw every basket without a miss. Evans, Fellows, Woodle and Graham contributed their full share to the victory.

Springwater divided honors by winning in the girls game 5 to 4 over the Estacada misses. All the teams will play a return game at Springwater shortly. The boys' team was given a banquet Tuesday night by Bob Duncan of Kruse and Duncan. The boys will play Park Place tomorrow evening at Park Place. Quite a number of local enthusiasts will accompany the team.

Grange to Discuss Single Tax Problem

Garfield Grange No. 317 will meet next Saturday, Feb. 24, at the hall in Garfield. An especially interesting discussion will be held on "Single Tax." This question is arousing a good deal of talk throughout the state and is to be one on which a vote will be taken this year. Inasmuch as a tax on land affects the farmer to a large extent, he being required to assume the burden of taxation, the discussion will likely call out a big crowd. Non-members are invited to attend during the lecturer's hour.

Celebrate Eighth Wedding Anniversary

In celebration of their eighth wedding anniversary, Dr. and Mrs. H. V. Adix entertained forty of their friends with a five hundred party at their residence, Currier and Second street, last Friday evening. Nine tables participated. At the conclusion of the game it was found that Dr. L. A. Wells and Miss Bartholemew had won the first prizes and Mrs. Fred Gartner and A. E. Sparks, second prizes. After the serving of refreshments, the rooms were cleared and dancing was indulged in until midnight.

The function was greatly enjoyed by all. Miss Jessie Harkins, Miss Bartholemew and Dr. L. A. Wells all of Portland, were out of town guests.

Telegraphers to Hold Annual Reunion Here

About fifty of the Western Association of Old Time Telegraphers, composed of men who have actually engaged in telegraphy for 20 years or more, and those who have been engaged in the profession, will hold a banquet this evening at The Estacada. It is the annual reunion of the association and the party will come out from Portland on a special car. Among the number is B. S. Josselyn, president of the P. R. L. & P. Co., who was once a knight of the key.

A fine time is in store for those who attend. Prizes will be awarded for the fastest ex-operator in a speed contest and for those engaged in active service. The toastmaster has a fund of humor ready to turn loose and it is anticipated he will cause the stoutest men to jump hurdles and any man with red hair will be the special object of his sarcasm.

Among those who will attend are: B. S. Josselyn, F. D. Hunt, traffic manager of the P. R. L. & P. Co., Dr. Plummer, G. A. Taylor, Hiram Bennett, W. E. Brooks, a recent convert to Estacada and country who recently bought a farm here, W. A. Robb, Alex Craib, Richard Cannon, city editor of the Telegram, Wm. Adams, city treasurer, W. and C. Branin, Messrs. McKechnie, Reid, Jones Gill, Wygart, Lacke Bros., Humphrey and others, in all about fifty.

I can fix anything that is wrong with your watch.—LaHatt.

OSBORNE QUILTS

Resigns as Alderman Saying He Would Avoid Row

COUNCIL SCRAP CONTINUES

Alderman Jones Denies Mayor's Power to Depose Him From Committee—Hawkins Appointed in His Place

Alderman John Osborne has resigned his office, having filed notice with City Recorder Devore. If the resignation is accepted, the mayor may appoint a successor.

Discussing his resignation, Osborne said he desired to avoid taking sides in the recent dispute in council over the question of authority. As he expressed it he proposed to get out "while the going was good."

Alderman Jones who has been served with notice of removal from the police committee, declines to abdicate, claiming Mayor Reed has no right to depose him without just cause. Jones says the mayor hasn't proved a case against him.

When at the adjourned regular meeting of the city council last Thursday evening, Mayor Reed served notice upon Alderman Jones deposing him as a member of the police committee and appointing Alderman Hawkins in his stead. Jones promptly denied executive authority and declared he would continue to serve. Then ensued a warm exchange between the mayor and the alderman, in which personalities figured, much to the amusement of a big crowd in attendance.

Stripped of verbiage, the issues were joined on the question of usurpation of authority, each accusing the other. Jones claimed the ordinance gave the committee authority over the marshal and the mayor read a section of the ordinance giving him absolute supervision over subordinate officers.

The mayor said he was of the opinion that he and Marshal Ames would have worked in harmony had it not been for interference by Alderman Jones. Jones hotly denied that he was the only one to be blamed and said the mayor was placing too much credence in rumor.

"Well, I have confidence in the reports brought to me of what you have said" said the mayor, "and I know some of the things you have done."

"Whatever I have done I stand for," retorted Jones. Alderman Lindsey was named to supplant Alderman Underwood as member of the street committee.

Attorney E. W. Bartlett addressed the council in behalf of the Estacada Realty Co., with reference to extending the water mains through Terrace addition. The city charter apparently conflicted with the new state law, but the lawyer contended that the council had the right to make the extension outside the corporate limits. W. Cary also addressed the council along the same line. Mayor Reed appointed Alderman Hawkins, Underwood and Lindsey to investigate and report, the committee to consult City Recorder Devore.
