The Modern Aesop.
A dog, who was accustomed to over eat, held a piece of meat in his mouth as he crossed a placid stream by means of a plank. Looking in, he saw what he took to be another dog carrying another piece of meat. Snapping greedily to get this as well, he let go the meat that he had and lost it in the stream. As a result his indignation felt much better all the rest of the day.—Life.

Only One Real Road.
There is only one real road to human prosperity, and it is the same for a nation as for an individual. That is the honest road of hard work under free institutions, and when they tried to teach people that they could be made rich by some short cut, they were doing that which was thoroughly dishonest.—Walter Long.

Worked That Time, Anyway.
In the Irish rebellion a bomb was whizzed toward an Irishman's head. Pat dodged it with a low bow, and I went by, taking off the head of a man behind him. "Faith," exclaimed Pat "ye never knew a man to lose any thing by bein' polite!"

Nervous? Thin? Pale?
Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out.
If you think constipation is of trifling consequence, just ask your doctor. He will disabuse you of that notion in short order. "Correct it at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable.
Made by the J. C. AYER CO., Lowell, Mass.

"COKE" ANNIE'S FALL
HOW INSIDIOUS DRUG RUINED ONCE-FAMOUS WOMAN.

Member of Board of Managers of Great World's Fair Dragged Down to the Very Depths by Self-Destructing Habit.
Indianapolis, Ind.—In the roguish gallery, at police headquarters in this city, there is a picture of Annie Meyers, alias "Coke Annie," and after it is written the police record of shop-lifter and general thief. The same picture and the same record appears in the galleries at Chicago, St. Louis, Louisville, Detroit and other places where the woman has been arrested.

This woman was once well connected socially in Chicago, and was a member of the board of women managers of the world's fair. In a well written story of her downfall the unfortunate woman presents a most powerful warning against the use of cocaine.
"In 1894," she says, "while attending to some legal matters my lawyer, who noticed that I was suffering from a severe cold, advised me to try a certain catarrh remedy which would give me relief. He gave me a bottle and that started me on my downfall course."

"From a well-balanced Christian woman, I became a haggard and wretched physical and mental wreck. My thoughts were only for more of that accursed poison—cocaine—that was dragging me down to destruction. From city to city I wandered, and as I was using \$10 worth of cocaine a day I was forced to steal. Readers of newspapers were greatly shocked to hear of my arrest in so many different places. As the first effects of the drug produce kleptomania, I was constantly in trouble."

"I had been driven to such a state that I thought the world against me and I made up my mind to fight the world, to steal, kill and play confidence games. I associated with the worst class of forgers, counterfeiters, confidence men and shoplifters. I would break the windows of a vacant house and get in to keep from freezing, so that the money I would be obliged to pay for a night's lodging might be saved for cocaine."
"I invented what is known as the cocaine dance, and would go to evil resorts and dance and a collection would be taken up and given to me. I would run without a hat to a drug store immediately to get my idol. I used to get it and call it my baby and my only friend, cry over it, and laugh and dance like an insane person."

"I once went 25 miles from the city of Chicago to rob a house. I first had to kill the dog, which I did by giving him rat poison. Then I got into the house, stole \$1,000 and escaped. At another time, thinking that I did not have cocaine enough to last me until morning, and having no money, it also being too late to go into the stores, I deliberately took a pair of shears and prised loose a tooth that was fixed with gold. I then extracted the tooth, smashed it up, and taking the gold, went to the nearest pawnshop (the blood streaming down my face and drenching my clothes), where I sold it for 80 cents and bought more cocaine."

SCHOOL FRATS CONDEMNED
Chicago Judge Says Societies Are Menace to Law and Order.
Chicago—"School frats" and secret societies generally were condemned in a decision handed down by Judge John Gibbons, in which he ordered reinstated Edward Smith, a former pupil in the Oak Park High School, who was expelled because he was believed to be a member of the high school "frat."
The court held that there was no evidence to show that the boy was a member of the secret society.
"Societies are and always will be a menace to law and order," said Judge Gibbons. "They inculcate in their members a spirit of insubordination, prevarication and falsehood, and thereby indirectly, if not directly, shield from punishment members leagued together by secret pledges and pass words."

Greeks Ask Turks to Go
Athens—A bellicose mass meeting held in the Greek island of Samos organized and sent to the foreign consuls a resolution demanding the departure of the Turkish troops from the island and a revision of the constitution. The Russian consul promised that the troops would leave the island as soon as the island police force was organized. Samos, which lies off the west coast of Asia Minor, a short distance southwest of Smyrna, is an autonomous principality under the sovereignty of Turkey.
Lawful Death Desired.
New York—Governor Dix will next week receive an appeal from Mrs. Sarah Harris, 33 years old, a sufferer from paralysis for three years, for an act of the legislature which will make it lawful for physicians to end her sufferings by a merciful death. For three years Mrs. Harris has not been able to move hand or foot because of a spinal malady which keeps her constantly in intense pain. Her appeal was dictated to a clerk at the Audubon Sanitarium and will be forwarded to Albany.

Canal to Open in Year.
Los Angeles—Writing a personal letter to Clarence H. Matson, secretary of the Los Angeles board of harbor commissioners, Colonel George Goethals, chief engineer of the Panama canal, said that the big trans-isthmian canal will be handling inter-oceanic traffic in September, 1913. Such handling of traffic, however, according to Colonel Goethals, will be a "try-out," in preparation for the formal opening a year later.
Two Marines Killed.
Panama—Reliable information from Nicaragua received here is to the effect that two American marines have been killed there.
Managua, Granada and Masaya are still beleaguered, and the inhabitants of the two latter towns are nearing the point of starvation.

HEAT RECORDS MADE
100 Degrees in Chicago Streets Brings Intense Suffering.

Chicago Gives Up to Humid Wave—Five Die and Many Are Prostrated—Corn Crop Aided.
Chicago—All heat records for the season melted away Saturday when government thermometers registered approximately 95 degrees. This was on top of the Federal building, where breezes were blowing, but down in the cavernous streets the heat was above the 100 mark. One death and many prostrations were recorded by the police. That the death list is not much larger is due to the fact that this was a half-holiday and thousands of persons had quit work at noon.
The maximum degree of heat was reached at 2 o'clock in the afternoon and continued until after sundown.
The entire city wilted and gave up the battle early in the day. The night had been hot and there was no opportunity to store energy against the next day's heat. The proprietors of department stores and factories, realizing the unusual situation, dismissed as many of their employes as possible and permitted the remainder to drag around as they chose. An invading army of 15 energetic men could have captured the entire city with small resistance.

Dispatches from cities and towns in Illinois, Northern Indiana, Lower Michigan and Wisconsin tell of unusually oppressive heat, which half baked the life and energy out of man and beast alike. Prostrations were reported in many of the smaller cities, and advices from small towns and rural districts tell of horses being killed by the sun rays.
There was one bright spot in the entire situation and that stood out prominently in the general picture of misery. The torridity is pushing the great corn crop rapidly beyond the peril of early frosts, which now constitute the chief bugbear in the grain markets.

Although the weather Sunday was two degrees cooler than Saturday, five deaths of adults from heat were reported. There were several prostrations, one of which will result fatally. The temperature reached a maximum of 93, and a 16-mile wind from the southwest served to dispel much of the humidity which added greatly to the suffering Saturday.
The low death rate is due to the fact that few persons were at work. Thousands scattered to the northwest resort to remain until Monday night, and the streets were practically deserted. The lake, on the contrary, was densely populated, boats of every description being commingled to carry the sweltering populace out where they could get air free from the dust and steam of the hot city.
The death rate among babies was high and a majority of them practically suffocated or fretted themselves into a state of apoplexy over their sufferings from the heat.

6000 WOMEN SUFFRAGISTS PARADE WITH HUSBANDS
Columbus, O.—More than 6000 women and their husbands marched through the streets of Columbus advocating the passage of the equal suffrage amendment to Ohio's constitution at the special election to be held soon.
The parade was one of the features of the Ohio-Columbus Centennial celebration to commemorate the 100th anniversary of the founding of Ohio's capital.
Many women in the parade carried soap boxes and when the parade disbanded talked in favor of woman suffrage on the street corners. Prominent among the speakers were Dr. Anna Shaw, the noted suffrage leader, and Ella La Follette, an actress, daughter of the Wisconsin senator.
"New Gunboat Ordered."
Vallejo, Cal.—A sister ship to the gunboat Monocacy will be built at Mare Island navy yard. Telegraphic orders to begin work were received from Washington by the officials here. Both gunboats will be used in Chinese waters. With two ships to build instead of one, the cost of each will be lessened by distribution of the overhead charges, and the estimate of \$141,000 for the Monocacy was so much lower than the nearest private bid—\$211,000 by a Seattle firm—that an investigation was made.

13,000 Volts Kill Man.
Oakland, Cal.—With 13,000 volts of electricity short-circuited through his body, cutting his head nearly in halves, Cal Miller, Southern Pacific line-man, retained consciousness and composure with the surgeons. Miller's injuries consisted of a wound seared from end to end, extending from the middle of his neck at the back, beneath his left ear to the corner of his mouth. The current passed through his body and shattered his left knee, exposing the bone, the badly burned flesh, tendons and blood vessels.

Bad Money Gang Found.
Denver—That there is a plant in New York City manufacturing spurious half dollars, which are sent to various agencies throughout the United States is the confession made here by Ignazio Mencini, an Italian, arrested at Sopris, near Trinidad. Mencini declares the counterfeit half dollars are sent out from the New York headquarters of the gang and that he has been distributing them to four other Italians.
Transport at China Sinks.
Shanghai, China—The United States transport Liscom sank here alongside the wharf, where she now lies in 40 feet of water. The cause of the accident has not yet been ascertained. She was undergoing repairs, and the captain as well as the shipbuilders are of the opinion that she can be raised easily.
Woman Aged 102 Is Dead.
Los Angeles—Mrs. Elizabeth Gardner Foorer, one of the oldest women in California, is dead here. Ten days after celebrating the 102d anniversary of her birth. She came to California in 1874. Her son, James Foorer, is active at the age of 80 years.

LIBERALS ASK FREE HAND.
Nicaragua Requests Withdrawal of American Forces.

Washington, D. C.—Appearance in Washington of an active Nicaraguan junta, working in the interest of the liberal party and laying plans for bringing pressure to bear upon the State department to cause a change in the policy in the handling of the Nicaraguan revolutionary problem, has added much to the interest felt by Latin-Americans in the development of the situation in the Central American republic.
In the absence of direct news from the beleaguered capital in the last 48 hours, attempts here to bring about a diplomatic settlement of the troubles of Nicaragua are being watched with interest.
The envoys in Washington of the liberal party are Francisco Altschul, who was Nicaraguan consul general in New Orleans under the Zelaya administration and has since resided there, and Angel Ugarte, one time Honduran minister to Washington, but afterwards one of the liberal leaders in Nicaragua.
They are seeking to reach the State department with a proposal that the American naval force there be diminished to a mere legation guard and that the American minister demand that all factions, including the government, submit to the will of the people the question of political supremacy through a free and fair election, with the stipulation that the large number of liberals who are disfranchised by the clerical party shall regain their rights of citizenship.

It is regarded improbable that the State department would entertain any proposal for the diminution of the force of American bluejackets and marines in Nicaragua, so long as present conditions continue.
"CHICAGO NOT AMERICA"
Scientists Seek Real People in Rural Regions. Not in Cities.
Chicago—"Chicago is not representative of the United States. It is big and it is wonderful, but it is no more American than is New York. When we get outside of the big cities we hope to see something of the real American people."
In this manner Dr. Alfred Ruhl, chief of the division of oceanographic institute of Berlin, summarized the prevailing opinion of most of the 46 foreign geographers, editors and professors of geography of leading European universities, who arrived in Chicago for an inspection of the city.
The visitors left over the Chicago and Northwestern railway for Madison, Wis. They will stop at all important cities of the Northwest and Pacific Coast. Geographic and geologic places of note, like petrified forests, coast ranges, the Garden of the Gods, iron mines and the like, will be visited. The party is due back in New York in October.

HOSTAGES' FATE FEARED.
French Troops Too Busy to Rescue Officers From Moors.
Paris—Public anxiety is becoming intense over the fate of the seven French officers held as hostages by the Moors under El Hiba, at Marakech, Morocco. Emisaries have been dispatched to Marakech by the French commander, but have obtained no information. General Lyautey, the French resident governor, reported to the foreign office that the volunteers who had undertaken the dangerous duty had returned from El Hiba's headquarters where they vainly tried to effect a ransom, but could not ascertain the lot of the prisoners.
The French column commanded by Colonel Mangin has been given full liberty of action to proceed to the rescue of the hostages if such a step should be returned from El Hiba. The French troops, however, are too fully occupied to do anything in that way.

INSANE TO BE UNIFORMED.
Sacramento—Brass buttons on bright uniforms of the army, uniforms of officers and men with gold braid and distinguishing stripes of rank will be worn by the volunteer army at the Agnews state hospital for the insane. One hundred uniforms of the obsolete kind have been sent to the asylum. The management has interested the inmates in military problems. Companies have been organized, forts built, dummy guns and dummy field pieces constructed and the patients go through military maneuvers.
Aviator Burns in Mid-air.
Douai, France—Lieutenant Louis Felix Chandenier, of the aviation corps, was burned to death while flying in his aeroplane. He started from this city for Chalons on the test necessary for the acquisition of the pilot's certificate. When he reached Crey-Sur-Seine, about half the distance, his petrol tank burst into flames and the machine crashed to the earth. The young officer's body was completely consumed by the fire. He had been attached only a short time to the aviation corps.

CHINESE TROOPS MUTINY.
London—The Chinese government is endeavoring to hush up the mutiny of 8000 troops at Tung Chou, the Pekin correspondent of the Daily Telegraph says. The authorities, he adds, have taken precautions to protect all the routes leading to the capital, but the mutineers have defied the imperial troops, seized the road leading from Tung Chou to Pekin, and are looting the adjacent villages, "defying all attempts at capture."
Hail Strips Orchards.
Logan, Utah—Huge hailstones driven by a heavy wind swept fields and orchards for 30 miles, stripping orchards, raising grain and clearing sugar beet fields. The loss to agriculturists and fruitgrowers has been enormous. The path of the storm was five miles wide.

FUNERAL IS REVIVAL
Mercy Seats Filled at Bier of Commander Booth.

Salvation Army Barracks in London Filled to Overflowing—Mourning Purposely Omitted.
London—Funeral services for the founder of the Salvation Army, General William Booth, were held at the Olympia. In accordance with the traditions of the organization, they were held without pomp or symbols of mourning, but were carried out with moving fervor and impressiveness. Thirty-four thousand persons participated.
The body of the late general, in a plain pine coffin, rested high upon a barge catwalk in front of the big platform across the end of the hall, where all the chief officers of the organization were seated and where 40 bands of music were massed. The crimson flag of the "army of fire and blood" which the general unfurled on Mount Calvary was planted about the coffin. A bank of flowers, composed of the tributes sent by royalty and by many societies, was behind it.
In front rows of chairs before the coffin were filled with representatives of various parties and also the clergy for the king, several mayors in the robes and chains of office, a delegation from the Stock Exchange, clergymen of all the Protestant churches and Jewish rabbis.
But the rank and file of the great gathering was composed of the plain people, for whom the army works and of whom it is composed.
The most solemn moments of the long meeting were when the coffin was borne along the center of the hall to the music of the "Dead March from Saul." A small procession, representing many branches of the army's activity, carrying the flags of their respective countries, preceded it.
Every seat on the floor and in galleries was taken when the service began, and thousands of persons were banded around the outskirts of the hall, half of whom could not see over the shoulders of those in front, but who could hear and take their part.
At the conclusion of the ceremonies, prayers and hymns alternated for half an hour, after which a true Salvation Army revival service was conducted and an invitation given to sinners and backsliders to come to the "mercy seat." Dozens of persons forced their way through the crowded aisle to the mercy seats, where they knelt in prayer. In some cases the police were required to force a way for the penitents.
The meeting was turned into a colossal revival.
The most impressive feature of the service then followed. All the soldiers of the army rose and recited the covenant of fidelity, pledging themselves to be faithful soldiers of the Lord.

DAMAGE BY LIGHTNING IN CITIES.
Investigations made over Europe seem to justify the belief that the damage by lightning, in the cities particularly, has decreased to a very marked degree in recent years, and it is explained by the presence of electric wires, which act as a protection in diverting the electric bolts. As the wires are put underground, it is expected that there will be noticed a great increase in the amount of damage by lightning and a return will be generally made to the use of lightning rods.
Mother will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.
Chinese Barbers in Hard Luck.
Barber shops were the exception, rather than the rule, in China in the old days, itinerant barbers attending to their customers' wants in the streets or in the customers' home. There appears to be no tendency toward the institution of barber shops since the change of hairdressing; in fact, the tendency locally is to do away with the barber altogether. Thus many families are purchasing hairclippers, which seem to be regarded as the only essential to hairdressing.
Red Cross Ball Blue, all blue, best bluing value in the whole world, makes the laundress smile.
What Could He Mean?
A young woman went to a grocery store and asked the polite clerk if he had some good cheese. "Yes, indeed," he replied, "I have some lovely cheese." "It is not correct to call cheese 'lovely,'" she said. "How is that?" he inquired. "Because 'lovely' should be used to qualify only something that is alive." "Well," retorted the clerk, "I'll stick to 'lovely.'"

Way of the Truly Great.
It is easy in this world to live after the world's opinion; it is easy in solitude to live after one's own; but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.—Emerson.
Discovery of Carborundum.
Carborundum first was produced by a chemist who, while experimenting with electricity, happened to place carbon electrodes connected with a dynamo into a bowl containing some crushed coke and clay.
Red Cross Ball Blue, all blue, best bluing value in the whole world, makes the laundress smile.
What Could He Mean?
A young woman went to a grocery store and asked the polite clerk if he had some good cheese. "Yes, indeed," he replied, "I have some lovely cheese." "It is not correct to call cheese 'lovely,'" she said. "How is that?" he inquired. "Because 'lovely' should be used to qualify only something that is alive." "Well," retorted the clerk, "I'll stick to 'lovely.'"

NERVOUS DESPONDENT WOMEN
Find Relief in Lydia E. Pinkham's Vegetable Compound—Their Own Statements So Testify.
Pates, Pa.—"When I wrote to you first I was troubled with female weakness and backache, and was so nervous that I could not do the least thing, it would startle me so. I began to take Lydia E. Pinkham's remedies, and I don't have any more crying spells. I sleep sound and my nervousness is better. I will recommend your medicines to all suffering women."
—Mrs. MARY HALSTEAD, Pates, Pa., Box 93.
Here is the report of another genuine case, which still further shows that Lydia E. Pinkham's Vegetable Compound may be relied upon.
Walcott, N. Dakota.—"I had inflammation which caused pain in my side, and my back ached all the time. I was so blue that I felt like crying if any one even spoke to me. I took Lydia E. Pinkham's Vegetable Compound, and I began to gain right away. I continued its use and now I am a well woman."
—Mrs. AMELIA DAHL, Walcott, N. Dakota.
If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
