Mount Sinai Located.
The discovery of what is believed to be the real Mt. Sinai of the Bible is reported to the Academy of Science at Berlin by Prof. Dr. Al Muall from Damascus. Prof. Muall believes that the extinct volcano, Hala-Bedr, in the Hedjaz region of northern Arabia is the biblical mountain where the Ten Commandments were given to Moses.

Revised Version.
"I suppose that when you left the convention you exclaimed: 'I came, I saw, I conquered.'" "Not exactly," replied the delegate who changed his mind. "That is what I was going to say, but I modified it to 'I came, I was seen, I conquered.'"

Misunderstanding.
First Boarder—Will you pass the cheese?
Second Boarder—How fast is it traveling?—Judge.

MEXICAN MUSTANG LINIMENT
CURED A CUT HORSE.
Fred DeVette, Marshall, Wash., writes: "I have used Mexican Mustang Liniment for some time and am well pleased. One of our horses had a deep cut in her breast and we used all kinds of medicines without effect until we tried Mustang Liniment and it healed it up in less than 10 days."

SIGN WAS TRIFLE AMBIGUOUS
Placard Bearing Inscription "Families Supplied" Taken at Its Literal Meaning by Customer?

"The merchant can't be too careful in having his announcements perfectly plain," remarked Sir James Butler to some friends the other day. "For instance, a man went into a butcher shop recently and said to the man behind the counter: 'I want two boys and a girl, please.' 'Beg pardon, sir,' replied the man. 'I want two boys and a girl.' 'Beg pardon, sir.' 'The manager of the shop, seeing a little misunderstanding between the two, went to the gentleman and said: 'Please excuse my assistant, but he is a new hand and perhaps does not understand you. What is your wish?' 'Two boys and a girl, if you please.' 'I beg your pardon, sir, but I'm afraid I don't quite understand you myself,' replied the manager. 'I want two boys—and—a girl. Is that plain enough?' answered the gentleman. 'The manager then said, 'I'm sorry, but I don't keep them.' 'The gentleman then replied: 'But you have a sign outside, 'Families Supplied.'"—Exchange.

IF IT'S YOUR EYES
PETTIT'S EYE SALVE is what you need
World's Cables Made in America.
Practically all the world's cables are made in this country, the first having been made in 1857, the total length of the wire in the sheathing and core being sufficient to reach from the earth to the moon. When the sea is about three miles deep, and the ship is steaming at its usual rate, paying out a new line, over two and a half hours will pass before the cable reaches the bed of the sea. By the time the cable has settled to rest the ship is 25 miles away.

Cures While You Walk
Allen's Foot-Paste is a certain cure for hot, itching, swollen, and scaling feet. Sold by all Druggists. Price 5c. Don't accept any substitutes. Trial package FREE. Address Allen's Ointment, to Roy, N. Y.

United on Deathbed.
A pathetic marriage ceremony took place the other day, in a Budapest hospital. A German singer named Erdos, who was appearing professionally in the Hungarian capital, was suddenly taken ill with heart weakness a few days ago. He telegraphed to his sweetheart in Frankfurt, Germany, to come to him. The girl started at once, and arrived in Budapest promptly. They were married immediately in the hospital ward, and Erdos died an hour after the ceremony.

Grecian Head-Covering.
The Greeks wore a hat called a petasos, which was soft and light, being made of felt; it was strapped under the chin to fasten it firmly to the head. But only the lower classes among the Greeks, such as herds and travelers, wore hats, and both sexes wore hats of the same shape. The Greek nobility and gentry wore no covering for the head out of doors, and women only adorned their hair with a wreath of flowers.

Insuring Private Cup.
To insure the owner of a private shaving cup kept in a barber shop that he is its only user there has been invented a paper cap to cover it which cannot be removed without breaking a seal.

PLAQUE STOPS FARM WORK.
Kansas Farmers Without Horses Cannot Get Fall Plowing Done.
Topeka, Kan.—Farm work is going undone in Western Kansas for lack of horses killed by the plague. Crops remain ungathered and fall plowing is weeks behind. On many farms all the horses have died. Until experts ascertain a remedy for the disease, farmers are unwilling to purchase more horses.

Nitrate Supply Limited.
New York—There will be no ammunition for British guns in time of war should Great Britain's enemy cut off her supply of nitrates from Chile, according to a declaration made by Colonel Samuel Eyde, of Christians, Norway, before the eighth international chemical congress at Columbia University. "Nitrate of ammonia produced from atmospheric nitrogen is pure, and according to the experience of the British navy has a great bearing upon the life of the guns, the purity of the product reducing the heat."

Convicts Honor Booth.
San Quentin, Cal.—Nearly 1000 men in stripes paid tribute to the memory of the late General William Booth, founder of the Salvation Army, at memorial services held at San Quentin prison. Abraham Ruef, the convicted briber, delivered the main address. He eulogized the great Salvationist and dwelt at length on his work for "the poor" and the man behind the bars. Prison inmates and members of the army corps in San Quentin had arranged a program consisting of sacred music and addresses.

Bombs Set by Black Hand.
New York—"Black Hand" agents made three attempts to blow up as many buildings in the city Sunday, the attempts in which the bombs were placed housing more than 75 families. Two of the infernal machines were discovered in time to prevent them from exploding, while the third shattered windows and doors on two floors of a building in West Thirty-fifth street in which it had been placed. No one was injured.

Chinese Troops Revolt.
Tientsin—A serious military uprising has taken place at Yunnan. The governor general has left the town, but his designation is not known to the public. Yunnan is the capital of the province of the same name and is in Southwest China. The province has 122,000 square miles and 12,300,000 inhabitants. Yunnan, the city, has a population of 100,000. It is a walled city.

RELIEF IS STOPPED

Arms for Americans in Mexico Are Captured By Rebels.

Trains Derailed, Bridges Burned, Passengers Sent Back—Cananea Believed in Peril.
Cheyenne, Wyo.—One detachment of the Ninth cavalry, under orders of the Mexican border, left here at 6:30 Sunday night. Other detachments will leave shortly.

Junction City, Kan.—Final orders directing the Thirteenth cavalry to proceed to the Mexican border were received Sunday by Colonel Charles Hatfield, commander of the regiment. The regiment, nearly 1000 men, and a machine gun platoon will leave Fort Riley in a few days for El Paso.

Naco, Ariz.—Mexican rebels have cut all traffic and communication between here and Cananea, Sonora, Mexico, where about 500 Americans reside. Shortly afterward a passenger train arrived here carrying 500 rifles and 150,000 rounds of ammunition, sent by the United States government from the arsenal at Fort Sam Houston, San Antonio, Tex., to arm the American residents in Cananea.

Roosevelt Third.
Regular Republicans Maintain Lead in Vermont Election.
Montpelier, Vt.—The Roosevelt Progressive ticket ran a poor third in the state elections in Vermont, with the Taft Republicans winning by a vote of almost double that of the Progressive candidate and the Democrats far outnumbering the Bull Moose party's vote. In fact the Roosevelt ticket obtained less than one-quarter of the total vote of the state, according to almost complete returns.

ARMY POLICE FOR ALASKA.
System Like That of Canada Being Considered by War Department.
San Francisco—The problem of giving Alaska a thorough military police system may be solved in the near future, not by the stationing of a regiment or more of soldiers there, scattering the troops through the territories by companies, but by establishing a constabulary system modeled somewhat along the lines of the Northwest mounted police, which has accomplished wonderful results in Canada.

EMPLOYEES GET BONUSES.
Aggregate of \$70,000 Distributed by Carpet Mills Company.
Yonkers, N. Y.—Bonuses aggregating \$70,000 were distributed to 3100 employees in the mills of the Alexander Smith & Sons Carpet company Wednesday. Men and women who have been in the employ of the company 10 years or more received checks for amounts equal to 10 per cent of their wages for the six months ending June 30. Those of between five and ten years' standing received 5 per cent bonuses.

Vancouver Has Tong War.
Vancouver, B. C.—Following reports of a battle in China, representatives of the two factions in Vancouver began a riot in Market Lane. All day the Orientals hovered about the bulletin boards, growing more excited to word evening and finally some 300 Chinamen mingled in battle, using clubs and stones with disastrous effect. Heads were broken right and left, and the windows of Chinatown were smashed indiscriminately. Although many were struck unconscious, they were spirited away by friends.

Stimson Reaches Coast.
San Francisco—Secretary of War Stimson is in San Francisco on a tour of the Western military posts. He is the guest of the Panama-Pacific International Exposition company and of United States army officers. He was met by Troop A, of the Presidio, at Oakland, which was lined up at the railway station at military attention. The secretary of war refused to discuss his plans in detail, but said extensive improvements were contemplated in Western posts. He will formally inspect the Presidio.

Battle Won by Chinese.
Chicago—"Governor Chao Erh Hsun, of Manchuria, has telegraphed to the government," says a dispatch from Peking, China, to the Chicago Daily News, "that General Chang Cho Lin attacked a large force of Mongolians near Tomafu, defeating them after a 12-hour engagement. The Mongolians lost 1000 killed and 700 taken prisoners. The Chinese captured five guns and much ammunition."

Storm Dead Number 40.
Pittsburg—The task of clearing away wreckage caused by the storm of Sunday night and Monday progress went at hundreds of points throughout Western and Northern Pennsylvania, West Virginia and a portion of Ohio. The list of fatalities now reaches 40. The loss is placed at \$2,000,000. The principal sufferers are farmers and railroads. Salineville, O., was almost wiped out by the flood.

OHIO REFUSES SUFFRAGE.

Initiative and Referendum and Liquor Amendments Are Carried.
Columbus, Ohio—The women of Ohio failed in their effort to gain the ballot, according to early returns. While the earliest figures on which this result is based come almost from Cleveland, Cincinnati, Columbus, Toledo and Dayton, it was in those places where the suffragists waged their most determined fights and politicians said the result would not be changed by the final returns.

Washington, D. C.—In diplomatic circles here it is believed that the delay by Great Britain in asking for arbitration of the free tolls section of the Panama canal act is an indication that the London foreign office eventually will abandon that plan.

It has been said that the foreign office was withholding formal action pending a careful study of the act. It is believed that when the British government comes to understand that the free toll provision of the act applies only to American coastwise trade, in which British shipping cannot participate in any event, the reason for an appeal for arbitration will disappear.

"Diplomacy Likely to Fail.
London—Regret at the spirit in which the Panama question is being discussed on this side of the Atlantic is expressed by the Westminster Gazette, the government organ, whose editor, J. Alfred Spencer, is considered as possibly the next British ambassador to Washington.

The charges of "Yankee perfidy," it says in an editorial, have had the effect that might have been expected in the American retort that Europe is strewn with examples of this perfidy. This only serves to "generate heat where light is wanted."

It is likely, continues the Gazette, that diplomacy will fail to arrive at a settlement, in which case the government's course clearly is to ask for arbitration. The conclusion, it says, President Taft is so deeply committed to the principle of arbitration that his refusal to submit the question cannot be conceived.

ARMY POLICE FOR ALASKA.
System Like That of Canada Being Considered by War Department.
San Francisco—The problem of giving Alaska a thorough military police system may be solved in the near future, not by the stationing of a regiment or more of soldiers there, scattering the troops through the territories by companies, but by establishing a constabulary system modeled somewhat along the lines of the Northwest mounted police, which has accomplished wonderful results in Canada.

Officers at the Presidio say that such a system of mounted police being considered and may go through. If so, it would be under the jurisdiction of the War department, the mounted officers being recruited from the ranks of the army.

Major George H. McManus, of the inspector general's department, who has just returned from an inspection tour of Alaska army posts, acknowledged that such a constabulary was being contemplated. "Personally," he said, "I believe that a system of this kind would work out well. Certainly if a corps as efficient as that of the Northwest mounted police could be developed, it would do much to preserve law and order in Alaska, possibly far more than a large number of soldiers."

"AMERICAN" CANAL LOOMS
Spokane Chamber of Commerce Would Drop Panama Appellation.
Spokane—Instead of the Panama canal, why not the American canal? Make Uncle Sam's big ditch joining the Atlantic and the Pacific distinctly American.

This is a suggestion which the chamber of commerce will make to the members of the American Geographical society, who will be in Spokane on a special train early in September. This action was decided upon at an executive meeting of the trustees of the chamber of commerce. The Geographical society party will be the guests of the chamber.

Wheat Movement Heavy.
Spokane—The Spokane & Inland is moving 100 carloads of wheat a day from the Palouse to Seattle, Tacoma and Portland, according to a statement made by E. R. Lillie, superintendent for the Bill electric interurban system. The Palouse wheat handled by the Spokane & Inland is distributed among the three Hill steam roads between Spokane and the Coast cities, the Northern Pacific and Great Northern getting the haul to Seattle, and the Spokane, Portland & Seattle the Portland freight.

Goods Come Via Suez.
Seattle—Part of the cargo of the Blue Funnel liner Titan, which arrived here from Liverpool via the Suez canal and the Pacific, is a consignment of household furniture shipped by a group of 100 emigrants, who are now on their way to the Pacific Northwest from England. They found that they could save money by shipping these goods three-quarters of the way around the globe, as against paying the high rates across the Atlantic and the railroad freight from the Atlantic Coast to the Northwest.

Forty Coal Miners Dead.
Lens, France—At least 40 coal miners are dead as the result of the explosion of firedamp in the Clarence pit, near Bruay. Three of the rescuing party were among the killed and others were injured trying to aid their entombed comrades. Further explosions occurred and the entire pit is on fire. Mining engineers have decided that it must be sealed. Twenty-one bodies had been brought to the surface at last accounts.

Trainmen Urge Muzzles.
Salt Lake City—Muzzles for dogs is one of the demands of the Western Association of Baggage Agents, which concluded its semi-annual convention here Thursday.

PROTEST MAY CEASE

Britain Likely to Abide By Panama Canal Toll Rates.

English Study Question—Washington Believes Objections Will Stop When Fully Understood.

Washington, D. C.—In diplomatic circles here it is believed that the delay by Great Britain in asking for arbitration of the free tolls section of the Panama canal act is an indication that the London foreign office eventually will abandon that plan.

It has been said that the foreign office was withholding formal action pending a careful study of the act. It is believed that when the British government comes to understand that the free toll provision of the act applies only to American coastwise trade, in which British shipping cannot participate in any event, the reason for an appeal for arbitration will disappear.

"Diplomacy Likely to Fail.

AUNT JENNY'S JOHNNY CAKE
How This Most Popular of Table Dainties is Put Together by Southern Cooks.

A cupful of sweet milk, a cupful and a half of buttermilk; a teaspoonful each of salt and of soda—the latter sifted three times in a cupful of meal; one tablespoonful of melted butter. Enough meal to enable you to roll the dough into a sheet half an inch thick. Begin with two cupfuls and add at discretion.

Knead the dough briskly before rolling it out. Have ready a clean, sweet board of oak, hickory, or hickory (never of resinous wood), buttered and heated. Set before the red coals under the grate at an angle that will not let the cake slip down, and prop it in place. Spread the dough upon it, patting it gently to make the surface even, and bake. As soon as it is hard enough to keep its place, set the board upright. Begin then to bake it with butter, lightly going all over the sheet. Do this three times. The cake should be nicely browned and crisped.

Cut with a sharp knife, held perpendicularly, into squares. Virginia water ground meal should be used for this delicious cake. The northern cornmeal will not do. Nor does the southern cook put sugar into corn bread. She holds that the meal should be sweet enough without it—Chicago Tribune.

Be thrifty on little things like this. Don't get water for bluing. Ask for Best Cross Blue, the extra good value blue.

The Reason Why.
"Madam, I am just out of the hospital, and—" "Don't tell me any such story as that! You are the same man I gave a piece of pie to not two weeks ago." "Yes, mad, was just for I went to be hospital."—Houston Post.

Putting the Garters On.
Mrs. Brown was preserving peaches in the kitchen amid an array of glass jars, covers, rubber bands, etc. Margaret, aged four, watched the process quietly until the fruit was in the jars and the covers ready, then she exclaimed, "Oh, mother, please let me put the garters on!"

Major George H. McManus, of the inspector general's department, who has just returned from an inspection tour of Alaska army posts, acknowledged that such a constabulary was being contemplated. "Personally," he said, "I believe that a system of this kind would work out well. Certainly if a corps as efficient as that of the Northwest mounted police could be developed, it would do much to preserve law and order in Alaska, possibly far more than a large number of soldiers."
