Comparatively few people realize that the gas bill may be very perceptibly reduced by exercising care to light the gas properly. Hold the lighted match to the burner, then slowly turn on the gas. Most people turn the gas on full force, and then apply the match. A slight explosion ensues, which affects the meter and sends it rapidly forward.

**YOUNG WIFE SAVED FROM HOSPITAL**—Tells How Sick She Was And What Saved Her From An Operation.

Upper Sandusky, Ohio.—"Three years ago I was married and went to house-keeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back ached, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches, too, and became almost a nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so when I wrote to you for advice, and have done you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health."

"If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. HENRY H. STANLEY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too long, but try Lydia E. Pinkham's Vegetable Compound now. For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy and should give every one confidence.

**PORTABLE LAMP FOR CAMPER**

Convenient Form of Light Consists of Acetylene Gas Generator and Reflector. A very convenient form of lamp has recently been devised for the use of campers, hunters, etc. It consists of a portable acetylene gas generator, and a burner arranged with a reflector which is open at the front for the escape of heat. The walls of the reflector are impervious, to prevent the passage of air through the reflector when the lamp is being moved about or is exposed to the wind. In this way the danger of extinguishing the light is avoided. The accompanying illustration shows in Fig. 1 how the lamp may be attached to the head of a man, while the gas generator is secured to his belt. The details of the head attachment are shown in the sectional view, Fig. 2. The burner, B, is attached to the flexible tube, H, which runs the generator. The reflector, C, in which the burner is fitted, is provided with a flange along its outer edge, to which the arms, D, are secured. These arms are fastened to a cage, E, provided with a strap, F, which is strapped about the head of the wearer. As an additional support to the lamp, a small bracket, G, connects the bottom of the reflector directly to the head. When it is desired to use this device on a boat or in camp, it is mounted on a stand, H, as indicated at Fig. 3. This stand is formed of two sections, one of which is hinged upon the other, so that the lamp may be moved laterally. By means of a thumb screw, I, the two sections may be clamped at any desired position. The lamp is taken out of the head gear by unscrewing the handle, J, and the burner, which is attached in a bracket, K, which is swiveled on the upper end of the stand. The swiveled bracket is provided with a handle, L, which enables one to move the lamp in any desired direction.

**MUTSUHITO AT REST.**  
Body of Late Emperor Placed in Mausoleum on Imperial Estate. Kyoto, Japan.—The body of the late Emperor Mutsuhito was placed Sunday night in the imperial mausoleum at Monoyama, an imperial estate about five miles from Kyoto. Mutsuhito had been exceedingly fond of the surrounding scenery and had expressed the desire that this should be his last resting place.

**Intervention Is Opposed.**  
San Francisco—Resolutions expressing the opposition of the San Francisco Labor Council to any intervention on the part of the United States in Mexican affairs are being forwarded to President Taft at Washington. They were drawn by Andrew Furuseth, president of the International Seamen's Union of America, and adopted by the council. It is the sense of the document that the fight being conducted by the revolutionists in Mexico is one intended to abolish the system of peonage there.

**Woman Seeks Rare Honor.**  
San Francisco—If the Roosevelt-Johnson electors named by the Progressive state campaign committee are elected at the polls in November, Mrs. Florence Collins Porter, of Los Angeles, will be the first woman in the history of the nation to vote for a president of the United States. Besides Mrs. Porter, the list of 11 electors contains the names of Charles S. Wheeler and Philip Bancroft, both of San Francisco, whom the committee on contests refused to seat as delegates to the Republican national convention.

**Irish Factions in Riot.**  
Belfast, Ireland.—A fierce fight was waged in the Celtic park football grounds in which 60 persons were severely injured, two of them being in a critical condition. The fight took place at half-time in a game in the league series between the Belfast Celtic team and a team representing Linfield. The Linfields were leading, Celtic supporters unfurled a green and white flag and started to parade. Linfielders displayed a union jack.

**Demonstrations Against Madero Stir Mexican Capital.**  
Mexico City—Barrel from the Chamber of Deputies by order of President Madero, because of the noisy demonstration in which he and his adherents were hissed, hundreds of residents marched through the streets shouting disapproval of the new executive and "vivas" for their exiled ruler.

Mounted police were ready to disperse the mob and the entrances to the chamber where the deputies were in executive session were heavily guarded.

The situation is almost identical with that immediately preceding the fall of Diaz, with the exception that shifts have been made in the cast of characters. The disorders had as a basis the same discussion—the seating of doubtful members of the chamber—when the gallery hissed Madero and shouted the praises of Diaz. They were precipitated by the rejection of Francisco Pasquel Garcia, leader of the Catholic wing, whose election was under question.

A deputy denounced him, saying no reason for his rejection was required other than that he was a Catholic. The fervid oratory and scenes of disorder on the floor were emulated by the galleries. One deputy, fancying himself insulted, drew a pistol to fire, when he was seized by a neighbor and overpowered.

Another deputy, Pedro de los Santos, declared justice and law were forgotten or confounded with personal issues and that more blood would have to be shed if necessary to secure justice.

An organized little group marched out of the chamber without the formality of adjournment and left the chamber without a quorum. When the house was reconvened late in the afternoon the doors were closed to all but members.

Ellensburg, Wash.—"Uncle Joe" Morrell, of Ellensburg, sole remaining survivor of the ship Golden Gate, which burned and sank off Manzanillo, Mexico, in 1864 with more than \$2,000,000 in California gold on board, has received a letter from a San Francisco syndicate asking certain details of the wreck and bearings of the spot where the ship sank. Morrell is promised a liberal share of the gold in return for his information, should the expedition prove successful.

**Aviator Meets Death.**  
Chicago—Aviator Paul Peck, of Washington, D. C., holder of the American duration flight record, was killed in a fall with his biplane Thursday afternoon, when flying in a gusty wind. He attempted to steep a spiral and when he struck the ground the heavy engine came through the wreckage, striking him in the neck. Physicians said his skull was fractured and he was injured internally. Death occurred several hours after the fall, the aviator never regaining consciousness.

**Turks Capture Airship.**  
Tripoli—The Turks, who on several occasions have tried vainly to smuggle into Tripoli an aeroplane for scouting purposes, are at last in possession of a machine through a mishap of Captain Moizo, of the Italian army. Captain Moizo was making a flight from Zouara to Tripoli when the motor of his machine stopped and he was obliged to descend in a hostile country. He was promptly captured and the aeroplane appropriated.

**Auto Freight Protested.**  
Washington, D. C.—The existing freight rate of \$7 a hundred pounds on automobiles, in less than carloads, from New York and other Eastern points to Pacific Coast terminals was attacked before the Interstate Commerce commission. The charge for other self-propelling vehicles, less than carloads, is \$4.50 a hundred. Demand is made that the roads reduce the rate on automobiles to \$4.50.

**Butterfly Farm Pays.**  
Truckee, Cal.—Miss Xenena McGlashan, of Truckee, is a butterfly farmer and is making money at it. In the past six weeks she has propagated and sold 6200 mounted butterflies, for which she received \$310, or 5 cents apiece, which amounts to more than \$50 a week.

**MAINE GOES REPUBLICAN.**

**Haines Leads for Governor by 4000**—Local Issues Rule. Portland, Me.—Maine turned back to the Republican party in the state election, William T. Haines, of Waterville, being elected governor over Governor Plaisted, his Democratic opponent, who sought a second term, while the Republicans regained one of the two congressional districts lost to the Democrats two years ago.

The new legislature is expected to have a small Republican majority, although returns before midnight were not sufficient to show whether Edwin C. Burleigh, ex-representative in congress, Republican, or Senator Gardner, Democrat, will be chosen to the United States senate.

Returns for governor from all but 37 small towns give: Haines, Republican, 69,615; Plaisted, Democrat, 66,152. The missing towns in 1910 gave: Republicans, 1157; Democrat, 394. Haines' plurality is estimated at 3840.

These returns show a Republican gain of 9 per cent and a Democratic loss of 8 per cent.

**COLORADO VOTE LIGHT.**  
Democrats Outnumber Republicans, But None Show Interest. Denver, Colo.—Returns from Colorado's first state-wide primary at a late hour were meager. The Democratic returns received outnumbered the Republican three to one.

Rough estimates show only one-third of the registered vote in the state was cast. In Denver the percentage is estimated at only one-fifth.

Results so far can indicate that the Democratic gubernatorial nomination, Clifford C. Parks, regular Republican, is leading Phillip B. Stewart, Roosevelt Progressive Republican, for the head of the Republican ticket. Governor Shafer's leading Alva Adams and T. J. O'Donnell for the Democratic long-term senatorial nomination, while Merl D. Vincent, Roosevelt Progressive Republican, heads Clyde C. Dawson, regular Republican. Charles S. Stone is unopposed for the Democratic nomination for the short term in the United States senate.

James H. Brown is leading C. W. Waterman for the Republican short term in the United States senate. The light vote in the rural districts was due to the fact that farmers took advantage of the clear weather to harvest their hay crops. From what was voted, some explaining the fact that the ballot seemed so complicated they were afraid of losing their vote and so, paradoxically, they stayed away from the polls.

**EMERGENCY VESSEL READY.**  
Three Troopships at Fort Mason Have Steamed Up for Rush Trip. San Francisco—For the past few days there has been unusual activity on board the army transports Crook and Buford, which, with the troopship Sheridan, are tied up at the transport docks at Fort Mason. There is steam up in all three ships and they would be ready for sea in an hour, should the Mexican situation require the sending of troops South.

While the authorities in charge of the transports deny any authorization to arrange for movements of troops toward the Mexican border, the fact remains that the transports are ready for any emergency.

**30 DAYS FOR MADERO**

**Mexican President Must Give Full Protection to Americans.**  
Failure to Meet Ultimatum of United States Will Be Followed by Immediate Intervention. Washington, D. C.—President Taft has given President Madero 30 days in which to protect American property and lives in Mexico. If Madero fails to do this the United States will require that he resign immediately. If Madero should refuse to resign intervention will follow speedily.

This statement was made here Thursday by a high official of the Department of State to Juan Pedro Diapp, representative of the Mexican revolution in Washington.

The name of the official is withheld, but full credence is given the statement here, in view of recent events in the Mexican situation.

Don Manuel Calero, Mexican ambassador here, hurriedly left Washington last week for Mexico City, bearing a personal message from President Taft to President Madero. It is believed the message he took from the administration to Madero was of the tenor described. Diplomats say that Calero would not have made a personal trip from Washington all the way to Mexico City unless the issue was extraordinarily urgent.

Developments this week showing the strong exertions of the Madero administration to get troops to Northern Mexico to protect American interests, which quickly followed Calero's arrival in Mexico City, also lend weight to the reported threat of the United States.

Officials at the State department were reticent when questioned concerning this development in the Mexican situation. It was intimated that the administration intends to force Madero to protect foreign interests in the republic but none would discuss the report that this government plans to compel the Mexican president to resign if he fails to get a better grasp on affairs along the Rio Grande.
