Constantinople—The situation has taken a change for the worse. A grave international crisis seems pending. On the one hand the position of the government is seriously compromised because the army repudiates the mediation proposition.

London—The Daily Telegraph's correspondent says: "The decision has been reached that the sultan and government shall remain in the capital, even if the troops of the allies enter. The heir apparent and the other princes have expressed strong opinions that it would be shameful and exceedingly dangerous to abandon Constantinople and retreat to Bregusa."

"I heard Gov. ## INDUSTRIAL DEVELOPMENT OF THE STATE

### NO FRUIT PEST IN JOHN DAY

Apples Measuring 13 Inches in Circumference Are No Rarity.

Prairie City—Apples weighing a pound each, measuring 13 inches in circumference, of perfection in coloring, of perfect shape and without a blemish are no rarity in the John Day valley. In a shipment made from Prairie City many such apples were in evidence.

While as yet there are no extensive commercial orchards of bearing age in the valley, apples have been grown here for more than forty years in small family orchards, of which there are many in all parts of the valley. Up to the present time orchard pests have been absolutely unknown. It is asserted by old residents that a wormy apple has never yet been found in the orchards of the valley. The crop this year is a large one and the fruit is of the best quality in every respect, and shipments in small lots are being made to outside markets. Several hundred boxes have already been shipped from this place.

### MALHEUR COUNTY HAPPY.

Thousands of Acres of Finest Fruit Land Will Be Reclaimed.

Vale—With the completion of the Bully Creek irrigation project another portion of Oregon will have made great progress and 40,000 acres of new arid land will be thrown into cultivation. The Many Bros.' construction left Vale for the site of the reservoir, and, as the procession, three blocks long, passed through the streets, it caused considerable excitement. The old farmer who came to this section in the early day realized that soon he would no longer need to dread the time when his crops might dry up because of the shortage of water. The dry land farmer, who took up a claim on the high lands when the government was in here considering the construction of the Malheur project, was made to feel that, after all, his wait was not in vain. It seems that at last a great transformation is promised for Malheur county in the very near future.

### Vale Scene of New Plant.

Vale—That Malheur county is to see the beginning of another storage reservoir and irrigation system in the near future, is the news given out by W. W. Caviness. James Frost, a wealthy mining man of Seattle, has become interested in its early completion. The site is about 30 miles southeast from Vale, three miles from the Oregon-Eastern railroad. It will cover about 25,000 Mr. Caviness has been working on the project for some time, and it is assured now that it will be built.

### Caves Will Be Exploited.

Grants Pass—The Josephine county caves will attract more attention than ever next year when the season opens for tourists and travelers. There is a movement on foot to invite the Mazamas, who have been exploring the wonders of Oregon, to visit the caves the coming summer and witness the extraordinary geological formation. A strong effort will be made this year to have representatives in congress pass a bill creating a park of the grounds surrounding the caves, assuring their permanent protection.

### Packing Season Nears End.

Astoria—Practically all the gillnetters, who have been fishing during the fall season, have taken their gear out of the water and the packing season is almost at an end. Only a few silversides are being taken and the bulk of the fish caught are dogfish, although a small number of winter steelheads are beginning to come in.
