Insane Asylums.
The great Greek physicians had devoted much attention to insanity, and some of their precepts anticipated modern discoveries, but no lunatic asylum appears to have existed in antiquity. In the first period of the monastic life a refuge is said to have been opened for the insane at Jerusalem, but this appears to have been a solitary instance, arising from exigencies of a single class, and it may be said that no lunatic asylum existed in Christian Europe until about the time of the fifteenth century.

Daniel in Second Place.
Little Willie's grandmother had been telling him Bible stories, his favorite being that of Daniel in the lions' den. At the age of four he was taken to a circus for the first time. When the lion-tamer put his head into the lion's mouth little Willie's excitement knew no bounds. Jumping up and down, he gleefully screamed: "Oh, my! That knocks the spots off Daniel!"

Courage of Their Opinion.
Thirty-five is a very attractive age. London society is full of women who of their own free choice have remained thirty-five for years.—The Tatler.

His Line of Work.
"Sam, have you got a job now?"
"Oh, yes, sah." "What are you doing, Sam?"
"Why, I've gottin' my wife washin', boss."

Rheumatism Neuralgia Sprains
MISS C. MARONEY, of 2708 K. St., W. Washington, D. C., writes: "I suffered with rheumatism for five years and I have just got hold of your Liniment, and it has done me so much good. My knees do not pain and the swelling has gone."
Quiets the Nerves
Mrs. A. WILSON, of 403 Thompson St., Martine, Mo., writes: "The nerve in my leg was destroyed five years ago and left me with a jerking at night so that I could not sleep. A friend told me to try your Liniment and now I could not do without it. I find after its use I can sleep."

SLOAN'S LINIMENT
"Is a good Liniment. I keep it on hand all the time. My daughter sprained her wrist and used your Liniment, and it has not hurt her since."
JOSEPH HATCHER, of Boston, N. C., R.F.D., No. 4.

CUTTING BACK FRUIT TREES

Only Three to Five of Best Limb Should Be Treated, Says a Colorado Press Bulletin.

A great many factors enter into the determination of just how a tree should be cut back. In this article says a Colorado bulletin, only a general rule can be given. Only three to five of the best limbs should be cut

Pruning Young Apple Trees Before Planting.

back to 8 or 12 inches, making the cut just in the direction in which the limb should grow.

All trees should be kept low headed. Be careful not to cut off the lower limbs when it is not necessary, as they are usually the very ones to be left. Lowest limbs should be from 18 to 24 inches from the ground. If there is much higher than this, it is usually best to cut the entire top off about three feet from the ground and depend upon forming the top from limbs which come out below this point.

Peach trees can stand more severe pruning than either cherry or apple. Peach trees should generally be cut off about 18 inches from the ground, and if there are any branches below that point they should be cut back to the first or second bud. Cherries or plums when practically no pruning except to cut the branches of a foot or so from the trunk.

VINE CUTTINGS FOR SPRING

Should Be Kept Moist Until Rooted, and Then Given Frequent Cuttings—Hoe Often.

Current and grape cuttings, planted in beds in early spring, are mulched in late summer, preferably with sawdust or tan bark, and kept moist until the cuttings are rooted. Later on the propagating bed is given frequent and shallow cultivation. Hoeing is frequently done between the rows of plants, which are 18 inches apart. This keeps fresh soil around them, keeps down the weeds and water is given when the soil is very dry.

A propagating bed for strawberry plants also needs some attention. The weeds must be kept out. It is best to cut off the late runners, as the early ones make the strongest plants. If several varieties are in the bed set up boards between each to prevent them running together, and be sure to label each division with the name of the variety.

USEFUL AS INSECT CATCHER

Unique Arrangement Patented by Oregon Man Composed Mostly of Articles Around Home.

The illustration shows a unique arrangement for catching and destroying insects, patented by a resident of Canby, Ore. It is composed of articles ordinarily found around a house, and includes a barrel, dishpan, lantern, and

Insect Catcher.

three sticks for a tripod. The upper section of the barrel is cut out and the lower part contains fruit or other odoriferous materials. The pan contains liquid.

Preparations for Winter.
Currants and gooseberries may be pruned as soon as the leaves fall, or the work may be left until early spring. Cut back one-third of this year's growth, and thin out surplus, diseased or unthrifty shoots. Old bushes may have two-thirds of the present year's growth removed. Do not prune the new canes of raspberries and blackberries until spring; the old canes should have been cut out long ago. It is too early to prune grapevines.

Old raspberry canes should be removed from the patch before the freeze-up and the new ones mulched with oat straw or barnyard fertilizer.

DESTROY 25 TOWNS

Madero's Troops Wage War of Extermination on Zapatistas.

But Little Real Headway Is Made—Insurrectos Demand Heavy Tribute From Landowners.

Mexico City—No fewer than 25 villages have been destroyed in the state of Oaxaca in the last ten days by government troops. The administration believes the revolutionists in that vicinity have been cowed by the terrible warfare that has been waged, and sanctioned orders for the retirement of the greater part of the federals from that state.

Five hundred Indians have surrendered, but a large part of these were without arms, affording some basis for the unofficial declarations that little of real value had been accomplished towards the subduing of the rebels, who it is feared by the residents of the City of Oaxaca will redouble their efforts with the added motive of revenge.

In spite of the fact that the federals in all districts containing Zapatistas have been using the right conferred by the suspension of the guarantees to execute summarily, there is little, if any, improvement in the general situation. In no fewer than 40 engagements reported last week the federals claim victories, but these for the most part have been insignificant, since the rebels ordinarily retire as soon as possible, doubtless to save ammunition.

Two circulars have been issued, signed by Zapata. One demands that the owners of the haciendas unite to contribute 3000 pesos a week to the rebels' cause in certain fixed areas, the other urges planters to hurry the work of the peons on their plantations as much as possible, because Zapata soon will require all able-bodied men. Destruction of their properties is the alternative offered.

Plans for withdrawing a large number of federals from the north to join the campaign against rebels in the south are maturing. Many volunteers who enlisted to fight Orozco are being mustered out, having served the stipulated six months. Efforts are being made to maintain the strength of the army, however, and as a result many prisoners are being drafted, and rebels taken in battle are being forced into the government ranks.

The government is not inclined to regard seriously the movements in Northern Mexico. It insists that the situation throughout the republic is much improved.

DEBS IS INDICTED.

Socialist Leader Charged With "Obstruction of Justice."

Fort Scott, Kan.—On a Federal indictment returned here against Eugene V. Debs, Socialist candidate for president; Fred D. Warren, editor of the Appeal to Reason, a Socialist newspaper published at Girard, Kan., and J. I. Shepard, Warren's attorney, Warren and Shepard were arrested here by a deputy United States marshal.

The indictment charged "obstruction of justice by inducing witnesses to leave the country."

Warren and Shepard were released on \$1000 bond each. The offense charged in the indictment is alleged to have been committed in connection with the case of J. A. Wayland, owner of the Appeal to Reason, City Editor Piffner, of that paper, and Fred Warren, charged in a Federal indictment issued last May with misuse of the mails in posting obscene matter concerning the Federal prison in Leavenworth, Kan. Wayland committed suicide recently.

Speeder Runs Into Lake.
Chicago—Two Chicago motorcycle policemen pursued a speeder on a machine through Lincoln Park at the rate of 40 miles an hour and were astonished to see the man turn his motorcycle into the lagoon, in which he vanished in a cloud of spray. The officers arrived in time to drag the man from the water. Instead of saying he was going only eight miles an hour he thanked them for saving his life, as it was his maiden ride on a motorcycle and he had forgotten how to stop it.

Wilson Attends Church.
Hamilton, Bermuda.—The President-elect, accompanied by Mrs. Wilson and family, attended the oldest Presbyterian church in Hamilton. The pastor, the Rev. Archibald Cameron, offered a prayer for the king and then for the success of the close of President Taft's administration, and that the "new president of the United States be imbued with his spirit, and fearing thee, have no other fear; that he be honored as the leader of a nation and that his administration be one of peace, honor and prosperity."

30,000 March for Peace.
Basel, Switzerland.—The opening session of the Socialist International congress, which is being held here in opposition to war, was attended by 500 delegates, representing all nations. Thirty thousand persons joined in a parade through decorated streets to the cathedral, where addresses were delivered in various tongues. Four platforms were erected outside and speakers harangued great crowds unable to find room within.

Anti-War Riots Fatal.
Berlin—According to messages to the Berlin morning papers from Budapest, serious disturbances occurred there Sunday on the occasion of Socialist anti-war meetings. A great procession marched through the streets and sanguinary encounters occurred between the police and demonstrators. Many were wounded by revolver shots and sword thrusts, 14 mortally. Thirty arrests were made.

MANIAC TERRIFIES OFFICIALS

Nervy Detective Disables Man Loaded With Dynamite.

Los Angeles—Armed with an infernal machine containing enough dynamite to destroy an entire city block, a bottle of nitro-glycerine and a 45-caliber revolver, a masked maniac took possession of the central police station and held it for more than an hour, while hundreds of occupants of the building and those for blocks around, panic-stricken, sought the safety of distance.

When Detective James Hosick knocked the man unconscious with a leather billy after slipping up behind him, the fuse of the infernal machine was automatically ignited, and without thinking of the consequences, Detective Samuel L. Browne carried the box outside, the fuse sputtering and spitting sparks, and buried it into the street.

Sticks of high-power dynamite scattered over the pavement, while hundreds of spectators stood apparently paralyzed by fright, awaiting a detonation that would send them into eternity. Through a freak of chance there was no explosion. Browne continued kicking the sticks of dynamite and jumping on the fuse until he had broken the connections and extinguished the fire.

Lying manacled to a cot in the receiving hospital the would-be dynamiter, who was identified as Carl Warr, a German laborer, is suffering from several severe scalp wounds, but police surgeons say that his injuries are not serious.

TURKS STOP BULGARS.

Fresh Troops and Supplies Enable Firm Stand at Tchatalja.

London—Dispatches from Nazim Pasha, the Turkish commander-in-chief, show that the artillery duel along the Tchatalja lines has continued for two days, but the Porte announced that Bulgaria had consented to negotiate, with a view to an armistice and to a discussion of peace terms.

The Turks claim successes against the Bulgarians, but there is nothing to indicate that the Bulgarians have made any serious attempt to penetrate the lines. The battle may be ended at any moment by Turkey accepting the allies' terms for an armistice, which are said to include the surrender of the Tchatalja lines, Adrianople, Durazzo and Scutari.

There is a possibility, however, that Turkey may decline to surrender Tchatalja. While her western army has been completely defeated, she still possesses, according to the correspondents at the front, a homogeneous army behind the Tchatalja fortifications largely composed of some of her best fighting material from the Asiatic provinces, which has not yet been in action.

Moreover, the demoralization and disorganization that followed the Kirk Kilisheh and Lule Burgas retreats appear to have been remedied and the army is now well supplied with food and ammunition.

INDIAN AGED 131 TRAVELS.

Chief Firemaker, Blackfoot, to See Eastern Land Show.

Chicago—Wahwah Gun Ta, Chief Firemaker, the 131-year old Blackfoot Indian from Glacier reservation, is on his way east to attend the United States Land show.

Chief Firemaker is believed to be the oldest human being in the world, having been born in the region now known as Glacier National Park in 1781, according to well-authenticated traditions. He was the first red man in that territory to visit the Great White Father, and his journey to the national capital when President Jefferson was in the White House was a memorable event in his life.

He is regarded in his tribe as an oracle. At the time of his birth, so the Indian legend goes, the Father of All Spirits, standing on a mountain, shot an arrow near his father's tepee. The prophecy as interpreted by the medicine men is that he would live forever, and assist the gods in their councils.

Mena is Not Set Free.
Washington, D. C.—Chief Justice Guggler, of the Supreme court of the Panama canal zone, has refused to grant a writ of habeas corpus in the case of the Nicaraguan revolutionist leader, General Louis Mena, "detained" by the United States.

General Mena and his son were taken to Ancon on a United States warship after their surrender to American marines September 26, following the battle at Barranca. It is the intention to restrain them until conditions become normal.

Travelers in Quarantine.
Denver—Eight passengers and a Pullman porter will be compelled to remain under quarantine for two weeks in the sleeper at Castle Rock, Colo., as a result of the discovery of a case of smallpox by the conductor of a Santa Fe passenger train No. 5, en route to Denver from Chicago. R. C. Jones, the patient, boarded the sleeper at La Junta, Colo. State Board of Health officials ordered the Pullman cut off the train and the passengers in the car were thoroughly fumigated. Jones was hurried to the pesthouse.

Mountain of Paint Found.
Vanouver, Wash.—Believing that they have a mountain of material which in its present raw state is nothing less than valuable raw paint, three men of Battleground have organized a company and filed articles of incorporation for \$500,000. The large deposit of the mineral there owned by the incorporators, when pulverized is said to have the quality of being made the body of any kind of paint desired.

Relieve Given Ailens.
Richmond, Va.—Governor Mann has granted a reprieve for Floyd and Claude Allen until December 15. They were sentenced to death in the electric chair November 22 for their part in the Hillsville, Va., courthouse murders.

DAIRY SHOW GREAT

City Men Vie With Farmers in Studying Exhibits.

Wisconsin Men Take First Honors in Butter and Cheese—Oregon Scores High.

Portland—Attendance boomed at the Dairy Show. Every streetcar to the stockyards was crowded, and hundreds came in automobiles. Members of the Ad club, wearing badges telling their names and lines of business, put in much time admiring the aristocratic milk producers, and with a large delegation of the Progressive Business Men's club, and representatives of the Commercial club and Chamber of commerce, learned a few of the fine points of the game of breeding superlatives in dairy stock.

Fully 5000 in all saw the show, including the milk, butter and cheese displays. Hundreds were given an insight into the business of preparing meat for market by a tour of the Union Meat company's mammoth plant, conducted by uniformed guides, who explained each step in the animal's progress from the hoof to cold storage. Many "made a day of it" by visiting the Land Show in the morning and the Dairy Show in the afternoon.

Interest centered in the judging of the Jerseys and the agricultural college students' general stock judging contest. Competition was keen in the Jersey class, but in the Guernsey class the splendid herd of D. H. Looney, of Independence, Or., was opposed by no other entries.

Washington Agricultural college took first in the students' judging contest, with 1750 out of a possible 2500 points. The first team of the Oregon Agricultural college was second, with 1714, and the second team of the same school third, with 1600. Utah was fourth with 1530. For a time it was thought the Oregon team won, but final averages gave first place to Washington by 36 points.

Many of the blue and red ribbons for Jerseys were hung on the stalls of the Utah cattle, herd entered under such well-known names as Smoot, Smith and Cannon furnished prize-winners. However, John B. Stump & Son's Descombe herd, of Gresham, Or., were the leaders, taking seven firsts and four seconds. W. O. Morrow, of Independence, Or., was a strong contender in this class, his fine herd taking several firsts and seconds.

In the butter and cheese competitions Wisconsin appears to have carried off first honors, with Oregon a close second in both cases. L. W. Turner, of Montfort, Wis., took first for butter, with A. A. Oswald and Peter Beier, both of Portland, second and third, the scores being 97, 96 1/2 and 96 1/2. It is possible that when the judges complete their grand averages Oregon will be found leading although the highest single score goes to the Badger state.

Her Experience.
Mrs. Bacon—"I understand one can learn different languages from the phonograph." Mrs. Ebert—"Well, since our neighbor got his I know my husband has used language I never heard him use before."

Red Cross Ball Blue. all blue, best bluing value in the whole world, makes the laundress smile.

LAND SHOW BIG SUCCESS.

Exhibit of Products at Portland Interesting and Instructive.

Portland—Diversified farming is receiving a whole lot of substantial encouragement at the land show. Many Portland people, who heretofore thought the Northwest could not produce much other than wheat and fruit, have acquired some beneficial education in the last few days. They have learned particularly that Oregon is a corn state and that all varieties of vegetables can be grown here with almost unvarying success.

Thus the land show is fulfilling its mission—bringing the people of the city into contact with the land, showing them what the land is capable of producing.

The exhibit of the Oregon Agricultural college was one of the most interesting of the whole show. It consists entirely of a demonstration of the various experimental methods practiced at the big school in Corvallis.

"Idle Women" Are Blamed.
St. Louis—Delegates to the first annual convention of the National Federation of Retail Merchants were warned against making false statements in advertisements and against cutting retail prices until profits were absorbed, by H. D. Robbins, of New York, chairman of the vigilance committee of National Ad clubs.

"Too many idle women in the world" was the cause assigned for the high cost of living by Mrs. Nellie Henke, proprietor of a dry goods store in St. Louis.

Stone Leads Coon Hunter.
Moberly, Mo.—Coon hunter, 150 strong, mounted, booted, and equipped like days of old, with United States Senator Stone heading the procession, paraded down main street amid the hooting of horns and barking of dogs. They were on their way to Milton, where a three days' hunt will be held. Many were mounted on mules and carried old-fashioned powder and ball muskets. Visitors are arriving on every train to take part, among them many leading Democrats of the state.

Carnegie Gives \$2,000,000.
New York—An addition of \$2,000,000 to the endowment fund of the Carnegie foundation for the advancement of teaching was announced by Andrew Carnegie at a meeting of the trustees of his foundation. The endowment now stands at \$14,000,000 with a million dollar surplus. The gift was part of a grant of \$5,000,000 made in 1903 on which another \$2,000,000 is yet to come. The money was in Steel corporation bonds.

IMPORTANT!

For the protection of the public we have brought suit against a firm of dentists near our office, to prevent them from placing our name in large white letters on the front of their building. It has taken us 25 years of conscientious, painstaking and skillful work to make THE WISE DENTAL CO. known throughout the Northwest as absolutely reliable and at the top of the profession. We

Whale Whips Five Crews.
The largest whale ever captured in that vicinity was caught in Fred Perez' fish nets, near Santa Cruz. Five launches tried to tow the monster to the pier without success. Nets and ropes broke and the task was abandoned. The whale was fifty feet long.

No Wife for Him.
"What do I want with a wife?" snorted Bachelor Bookwelder, on reading an old maid's reasons for not wanting a husband. "I have a game rooster that is vain about his fine feathers, a goat, that chews the rag, an aeroplane that gets me up in the air, and an automobile that keeps me all the time broke!"—Judge.

Unforgivable.
Blobs—"Why do those two girls both hate you so?" Blobs—"I once innocently remarked that they looked alike."—Philadelphia Record.

Ancients Knew of Elevators.
That the ancient Romans knew how to work lifts is the latest discovery reported from Rome in connection with the Palatine excavations. Pre-Roman remains have been found, including 12 ancient lifts. One of the latter, which descends into the earliest known city, is now being cleaned and put into working order for the Archaeological Congress.
