Last Spring My Health

Was completely broken down through prolonged watching at a sick bed. My appetite was gone. I was so nervous that I could not sleep. I became pale, thin, languid, tired, looked ten years older. Through physical weakness my mental condition was affected. Hood's Sarsaparilla restored me to perfect health. It aided the wornout nerves of my stomach to do their duty. I could soon eat and sleep peacefully and felt new life course through my veins. Within six weeks I was my former self, and for a year have enjoyed the best health." Julia C. Tison, Atlantic City, N. Poverty's Gradations.

"Poor" has many gradations of meaning. A small newsboy, who is a familiar figure at the city hall and shows great affection for Assistant Joe Ryan's dogs, overheard some one

other day, and exclaimed:

"That man has no right to call me poor boy. We ain't poor. Why, at our place on James street twe have three rooms, and six people sleep in one and seven in the other, and they pay us ten cents a night, too. We ain't poor. Lots of the other fellers only have one room."

Americans habitually misuse, but it is not often that the mistake leads to such absurdity as it does in the label of a certain stain-remover now on the market. "It will fix the stain," says the notice. Since "fix" means to make permanent, the manufacturers of the stain-remover have not said quite what they intended to say.—Youth's only have one room.

"How many sleep in the other room, George?" asked Ryan. "Why, only me and pop and mom and my two brothers and two sisters. Say, we ain't poor,"-New York Press.

ALL AUTHORS ARE TALKATIVE If You Know One, Be Tactful and Let

Him Converse About His

Work.

I know nothing about really great authors, but I think I speak for a large number of the followers of the trade when I say that they like to talk about their work, one great reatalk about their work, one great reason being that writing is a lonely profession. If you write, as a rule you must do it by yourself; or if you do attempt it in company, you or the company will be sorry. Therefore, when the writing is done, and a sympathetic listener offers, the writer is glad to wipe out some of the lonely hours with a little conversation.

So, if you know an author, don't be too breathless, about his calling; treat him like a human being. Let him talk a little, and do not be shocked if he

a little, and do not be shocked if he manages to keep the tears back when he itells you about his last short story. Only, be tactful.

Do not say, as an eager acquaint-ance once said to me: "Oh, I do think it is so interesting to write. It must be just fascinating when your manu-scripts come back!" I discovered af-terward that she meant proofs interward that she meant proofs in-stead of manuscripts, but the mistake of just that single word made me, who am usually so garrulous about my trade, feel for the time being that I really did not care ever to speak of it again.; So I repeat, let the poor author talk, but be tactful.—Atlantic

Recover Stolen Tombstone A stolen tombstone was unearthed during excavations following a recent fire in a shop in Girvan (Ayr.).
