

Always Making Friends

Is the fortunate experience of Hood's Sarsaparilla. Whole neighborhoods love and praise it for the cures it has made. "I know by experience that Hood's Sarsaparilla is a grand, good medicine. I am more glad in taking it than its proprietors are in selling it. In malaria and loss of appetite it drove out the chills, gave me a good appetite and digestion. For twenty years I have known and used it, so I call it a good old reliable family medicine. We recommend it to all our friends." James Johnson, 551 E. Indiana Avenue, Philadelphia, Pa.

Hood's Sarsaparilla

Is used as a Spring Medicine and blood purifier. It should be in yours.

POULTRY AND GAME

Can get you fancy prices for Wild Ducks and other game in season. Write us for cash offer on all kinds of poultry, pork, etc.

Pearson-Page Co., Portland

PATENTS

Watson E. Coleman, Patent Lawyer, Washington, D.C. Advice and book free. Rates reasonable. Highest references. Best services.

MONEY TO LOAN

Lowest rates. Write for application blank. Western Bond & Mortgage Co., Commercial Club Bldg., Portland.

\$100 to \$500 SAVED

On Each Automobile.

Our co-operative sales plan enables you to buy a brand new automobile only \$450 required. Balance easy terms. For full particulars, write for literature.

GERLINGER MOTOR CAR CO., 600 Washington Street, PORTLAND, OREGON.

Be Honest.

Honesty is the greater part of achievement. When you know that you're doing the best within you, you can't be downed. Self-respect is an eternal life preserver—no matter how often circumstances wreck you, you're bound to float back to solid ground again. When men strive for posts of trust, they must be somewhat post-like themselves—and stand steady.—Herbert Kaufman.

Feminine Ambition Rebuked.

The inactive masculine attitude toward feminine ambition is sometimes manifest in early years. Three-year-old Richard was observed in the barnyard one day, following with solicitous attention the movements of a hen who was trying to crow. Finally he inquired kindly, though with evident disapproval: "Is anything the matter with you?"

Three Babes Walked Fifteen Miles.

Three children—Ida Farrow, eight years old, Willie Farrow, five, and Linda Denton, six, of Petrolburg—walked 15 miles to Whalpole Drove one recent Sunday to see their grandmother. The children, who undertook the journey unknown to their parents, arrived exhausted, and after being fed and rested were driven home again.—London Mail.

Keeping Mind in Condition.

No mind is first class that is not continually reading books and conversing with men that require an effort to be understood. The novel-soaked intellect, gormandizing upon easy reading, grows flabby.

GOOD DIGESTION

IS THE BEST SAFEGUARD AGAINST ALL BODILY DISORDERS.

THE BEST SAFEGUARD FOR A GOOD DIGESTION IS

WRIGHT'S INDIAN VEGETABLE PILLS

A REAL VEGETABLE PURGATIVE

COMPOUND OF THE LATE DR. W. M. WRIGHT

Exempted from Taxation.

For reasons of public policy the law exempts from taxation churches and church property, cemeteries, school and college property, buildings used for educational, literary, scientific or charitable purposes and property owned by a city, county, state or the United States.

The Fly with spongy feet collects the invisible germs of disease—spreads them over our food and poisons us with typhoid.

The Mosquito with its bill injects into our veins MALARIA.

WE ARE all exposed to such dangers—our only armor is good red blood! Let your stomach be of good digestion, your liver active and your lungs full of good pure air and you'll surrender to any of the disease-bearing germs. The best known tonic and alternative, that corrects a torpid liver, and helps digestion so that good blood is manufactured and the system nourished, is

Dr. Pierce's Golden Medical Discovery

This famous medicine has been sold by medicine dealers in its liquid form for over forty years, giving great satisfaction. If you prefer you can now obtain Dr. Pierce's Golden Medical Discovery tablets of your druggist at \$1.00, also in 50c size or by mail—send 50c—sent stamps, R.V. Pierce, M. D., Buffalo, N.Y., for trial box.

Questions of Life

are fully and properly answered in the People's Medical Ad. A young man or woman, wife or daughter should have, in addition to this Big Home Doctor Book containing 1000 pages, with engravings bound in cloth, sent free to anyone sending \$1.00 cent stamps to prepay cost of wrapping and postage.

SOUTHERN PACIFIC IS LOSER

2,373,000 Acres Forfeited by Violating Terms of Grant.

Portland—Lands in Oregon aggregating 2,373,000 acres, held by the Southern Pacific by virtue of grants made by congress to its predecessor, the Oregon & California Railroad company, in 1866 and 1870, were declared forfeited to the United States government in a decree pronounced by Judge Charles E. Wolverton, of the United States District court.

The decree was based on the fact, which Judge Wolverton assumed to have been proved, that the railroad company violated the terms under which the grant was made, in not selling the lands to actual settlers at \$2.50 an acre, in selling lands at a higher price than \$2.50 an acre, and in selling more than 160 acres to one person.

Judge Wolverton's decision is another step in the upward march of the celebrated case toward the United States Supreme court. The entrance of the decree will be suspended for a few days to allow for the clearing up of some minor matters connected with the case.

As soon as the decree is formally entered the Southern Pacific will appeal the case to the United States Circuit Court of Appeals, which means that it will be tried in the Ninth Circuit District at San Francisco. This court convenes the first Monday in October, 1913, and the case probably will be assigned to a hearing for the following November.

45 INCHES IS BAGGAGE LIMIT

Railroad Restrictions on Size of Trunks Effective June 1.

Washington, D. C.—Restrictions on freight baggage and baggage of extreme length or width will be placed in effect about June 1, according to plans now being made by the Interstate Commerce commission.

It is understood that these new regulations, which will limit the size of the trunks that will be handled by the railroads to 45 inches in length, will work no hardship on the traveling public, but will serve to check effectively the tendency of commercial salesmen and the houses that employ them to carry queer-shaped trunks and baggage of unusual proportions. It is probable that the commission will stipulate that baggage exceeding 72 inches in any dimension will not be accepted for checking at all.

The change for handling baggage over 45 inches in length, width or height will be equivalent to five pounds of excess weight for each inch of excess measurement.

These regulations were adopted by the railroads nearly two years ago, but agitation of the trunk manufacturers has postponed their enforcement.

POKING FUN AT SUFFRAGISTS

England Laughs at Threats of Rich American Contingent.

London—London papers are poking fun at Mrs. O. H. P. Belmont, the American suffragette sympathizer, over her declaration that she would not spend a penny in London because of the treatment of English suffragettes by the government. William Waldorf Astor's Pall Mall Gazette exclaims: "O si sic omnes."

The Star compares Mrs. Belmont to a little boy who went into the garden to eat worms.

The Evening News says: "Despite Mrs. Belmont's refusal to scatter her millions among the inhabitants of this country the government will maintain more or less a firm attitude."

Mrs. Belmont, who is staying at a London hotel, said: "I mean just what I say when I declare that if New York fails to awake, we shall introduce militant methods of the type used in England."

It also meant what I said before leaving America about spending no money in England. But I was compelled to stay in this hotel because I found spring cleaning under way in my daughter's home."

Old Age Pension Bill Up.

Washington, D. C.—The progressive old age pension bill to provide \$1 to \$4 a week for all those more than 65 years old whose incomes are under \$10 a week, was introduced in the house by Representative Kelly, of Pennsylvania. His plan would pension those with incomes of less than \$5 a week at \$4 a week; incomes of from \$5 to \$7 at \$3; between \$7 and \$8, \$2 a week, and from \$8 to \$9, \$1 a week. The bill would disqualify all criminals, lunatics and inmates of almshouses.

Rich Man Dies as Hermit.

New York—Dudley Jardine, of Brooklyn, a wealthy builder of church organs, lived a hermit, died under an alias and was about to be buried in the poorest field when a relative, by the merest accident, identified his body. These facts became known with the filing for probate of his will, leaving \$50,000 to charity and the remainder of his estate, estimated at the same figure, to relatives. Jardine had lived for years, according to his heirs, in Bowery lodging houses under the name of William Smith.

Balkan Allies Are Fighting.

London—A Bucharest dispatch, dated April 24, to the Daily Telegraph, expresses the conviction that immediately peace is signed between the allies and Turkey, a new war will commence between Serbia, Bulgaria and Greece. A Bulgarian correspondent says that large concentrations of opposing troops are in readiness for these new campaigns, and adds that he has heard from reliable sources that fighting has already occurred.

835-Pound Fish Caught.

Centuria, Wash.—A sturgeon 11½ feet long and weighing 835 pounds was caught here by C. H. Catlin, a Kelso fisherman, and was sold to the Doty Fish company at Kalama. It was one of the largest sturgeon to be caught in the Columbia in recent years. The fish was worth \$150.

Yuan Shi Kai Threatens.

Pekin—President Yuan Shi Kai has issued a manifesto warning the people that, although he has refrained, up to the present, from employing military force against plotters, in the hope that conspiracies would cease, he would not permit conspirators in the future to stir up trouble.

SERUM DON'T CURE

Many Friedmann Patients Steadily Growing Worse.

Health Department Makes Strong Criticisms and Public Warned to Be Careful.

New York—The Friedmann patients in New York are not doing well. In fact, some of them are decidedly ill. This fact, combined with a knowledge of the nature of the sale Friedmann has recently accomplished, has made all physicians connected with the Friedmann tests anxious not only for their own patients, but for the welfare of the public in general.

Before the week is out it is most probable that three, and perhaps four, public statements will be made from public institutions, none of which will be favorable to Dr. Friedmann or his treatment.

This information has been placed in the hands of the New York health department, telling of the poor showing which the Friedmann patients, all of whom have been watched for the department, have made.

The statements made are strong. One of them is supposed to be that some of the cases treated would have been better off if they had not had the Friedmann injection and that the presence of the culture in their systems seems to have given the bacilli a chance to work in places which they might not otherwise have attacked.

It was learned Monday from the best sources that the Friedmann pulmonary patients at Bellevue have not only failed to show any improvement, but that with many of them the disease was having its course uninterrupted. Many of the pulmonary sufferers there treated by Dr. Friedmann at first showed gains, such as increased weight, but have since fallen back. Actual conditions of the lungs have either remained the same or become worse. Only one case was mentioned in which the lungs had improved, and that in an incipient stage.

It was also said that at Mount Sinai hospital the patients have not made progress and that the disease is running its own course. The same is understood to apply to the Montefiore Home, where Dr. Friedmann also treated a great number of tubercular sick.

FARMS WILL NEED 40,000 MEN

Prospective Wheat Crop in Kansas Largest Ever Known.

Topeka, Kansas—Facing the prospect of a wheat crop of more than 120,000,000 bushels, the lowest estimate based on Secretary Coburn's report of acreage and condition, the State Employment bureau already has begun plans for bringing into Kansas an army of nearly 40,000 harvest hands.

Secretary Coburn's report of conditions of 90 per cent in the greatly increased acreage of wheat was based upon reports sent previous to the recent soaking rains which fell all through the wheat belt.

Basing their estimates on his report, grain dealers, farmers and millers estimated that the wheat yield, if conditions remain the same, will be 124,000,000 bushels of wheat. The soaking rains so improved conditions that men whose opinions carry weight, declared that only a continuous drought from now until harvest time could pull the crop under 120,000,000 bushels. There is no doubt but that competition will be so keen as to make wages unusually high.

Anarchist Attacks Duke.

Manheim, Germany—A workman armed with a knife attacked Grand Duke Friedrich of Baden as he was leaving the railroad station. The Grand Duke threw off his assailant and was not harmed. The Duke was about to drive to the races when the man jumped on the carriage steps and apparently tried to grasp the lapel of his coat, but the Duke knocked him to the ground with the hilt of his sword and proceeded. A crowd gathered and attacked the man, intending to lynch him, but the police arrested him.

Huerta Is Recognized.

Mexico City—President Huerta has been formally notified of the recognition of his government by Great Britain. The British minister, Francis W. Strange, with due ceremony, presented the King's autograph letter, replying to that of President Huerta. The minister expressed in the name of his government good wishes for the welfare of the Mexican government. In reply the president expressed his appreciation of Great Britain's attitude. It is announced that recognition from Spain, will be presented soon.

Ironworkers Leave Prison.

Leavenworth, Kan.—Only 15 of the 33 men convicted of complicity in the dynamite plot at Indianapolis last winter are now left in the Federal prison, the others having been released on bond. These 15 men nearly all are engaged on the steel work of new cellhouses at the prison, and more work in that line has been done in the last four months by these men than was done in the year before by the unskilled convicts.

Proper Care of Cut Glass

Elaborate Precautions Necessary to Preserve the Beautiful But Extremely Delicate Article.

Cut glass is very fashionable now, and is used upon the dinner table and in the drawing room with great success. But alas! How easily it can be chipped and spoiled. What precautions can be taken with the precious pieces?

Cut glass must be handled very carefully when it is washed, so that no risk is run of chipping it. A wooden bowl will help.

Place in a wooden bowl some shavings of mild white soap and pour over these boiling water.

When the water has become lukewarm wash the glass in the suds, using a soft nail brush. Then dip the glass in a second wooden bowl, this time filled with clear lukewarm water, until all traces of soap is removed.

Now dip the glass into a third bowl of lukewarm water to which bluing has been added (for the bluing will give a brilliancy to the glass) and then dry it with a very soft cloth. Polish it with soft tissue paper.

Glided and patterned china may well be washed in the same careful way, but the bluing should be omitted.

When Your Eyes Need Care

Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes in each Package. Murine in the eye is used in successful Physicians' practice. It is sold by druggists at 25c and 50c per bottle. Eye Salts are dangerous.

Murine Eye Remedy Co., Chicago

W. L. DOUGLAS

\$3.00 \$3.50 \$4.00 \$4.50 AND \$5.00

SHOES FOR MEN AND WOMEN

THE LARGEST MAKERS OF MEN'S \$3.50 AND \$4.00 SHOES IN THE WORLD.

Ask your dealer to show you W. L. Douglas shoes. Just as good in style, fit and wear as other makes costing \$5.00 to \$7.00—the only difference is the price. Shoes in all sizes and styles to suit every taste.

If you could visit W. L. Douglas large factory, you would understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price.

W. L. Douglas shoes are not for sale in your vicinity, order direct from the factory and save the middleman's profit.

Now dip the glass into a third bowl of lukewarm water to which bluing has been added (for the bluing will give a brilliancy to the glass) and then dry it with a very soft cloth. Polish it with soft tissue paper.

Glided and patterned china may well be washed in the same careful way, but the bluing should be omitted.
