Wise Old Gentleman.
An old gentleman, whose character was unimpaired and unimpeachable, for some slight cause was challenged by a dissolute young hotspur, who was determined that the old gentleman should give him honorable satisfaction. The old gentleman very good-naturedly refused to fight, and the fellow threatened to "gazette" him as a coward. "Well, go ahead—I would rather fill 20 newspapers than one coffin," rejoined the old gentleman.

Happiness in Work.
To augment human happiness, a writer in the Edinburgh Review remarks, must be the purpose, main or incidental, of every person. Absolutely incidental with most, it must be believed. The activities connected with the business of living in a world with other men and women absorb us. Happiness is a by-product of these activities of the common life.

No thought of person uses liquid blue. It is a thought of person uses liquid blue. Ask for Red Cross Ball Blue, the blue that's all blue.

Called for Blood.
"Sandy looks as if he had been fighting." "Well, he has been fighting, a fellow said something in his presence about 'musicians and bagpipers,' and Sandy sailed into him."

Result, However, Is the Same.

Tree Absorbed Lamp Post.
When an old elm tree in the avenue at Bushy Park, near London, was cut down, the iron framework of an old street lamp was found embedded in the trunk to a depth of several inches about 25 feet from the ground. It is believed that the lamp must have been in the tree many years ago and gradually became surrounded by the wood.

AILING WOMEN OF MIDDLE AGE

Mrs. Hilbert Tells of Her Distressing Symptoms During Change of Life and How She Found Relief.

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do."

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong well woman. I am very thankful that I followed my friend's advice and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dizziness, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness, are promptly relieved by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism and builds up the weakened nervous system. It has carried many women safely through this crisis.

LIBEL SUIT LIKELY

Suffragists Closely Watched By Opposing National Organization.

Direct Charge That Liquor Interests Help Antis Is Invited—National Association Is Riled.

Washington, D. C.—A statement from the headquarters of the National association opposed to woman suffrage announces that the officers of the association have employed attorneys to examine all the speeches and literature of the suffragists "with a view to protecting themselves from abusive language which at times is practically libelous," and "for the purpose of instituting suits for libel against objectionable parties." The statement continues:

"The scrutiny of the material put out by the suffragists has become more thorough since Miss Inez Milholland, in a public meeting, stated that charges of an alliance between the anti-suffrage and the liquor interests had been made, and the fact that no suits for libel had been instituted was good proof that they were true."

"Miss Milholland ought to know, and probably does know, that no statement has been made either on the public platform or in the press, which is in any way libelous. The suffragists have skillfully avoided giving expression in public to a libelous statement, though they have approached dangerously near to it."

"To say that any interests, liquor or other interests, supporting a cause is not in itself libelous, but if the suffragists in public or in the press ever make a statement that the liquor interests are giving help to the National association opposed to woman suffrage or to any representative thereof, a suit for libel will be instituted within 24 hours."

"We are looking for this opportunity, and when it comes we will take advantage of it to the uttermost."

"One conviction for criminal libel will do a great deal to check the flood of malicious untruths about the women who are opposed to votes for women which have been circulated by suffragists."

POINCARÉ TO VISIT BRITAIN

Ruler of France to Follow Example of His Predecessors.

London—President Poincaré, of France, following the example of his predecessors since the conclusion of the friendly agreement between his country and Great Britain, has chosen England for his official visit after his election, and will arrive at Spithead on the Dreadnought Jean Bart to be the guest of King George and the British nation until June 27. He will be accompanied by Stephen Pinchon, French minister for foreign affairs, and other high officials.

Upon the president's arrival at Spithead he will be received by an immense fleet composed of England's latest warships, which will fire a royal salute. He will proceed to Portsmouth dockyard, where the Prince of Wales and the Duke of Connaught, representing the king, will offer him a formal welcome. King George will be at Victoria station, London, to receive his guest and escort him to York House, which has been placed at his disposal.

Many Violators Arrested.

Tacoma, Wash.—Fifteen violations of the government's regulations were found here Sunday on the steamers and launches that ply out of Tacoma harbor by the government cutter Corinne, with Captain Mark Gismervig and Customs Officer Ned C. Adams on board.

One captain of an excursion launch with a large party on board, was found drunk at the wheel. He was ordered below and the vessel turned over to the mate. A large fine awaits this master when the case is put up to Collector of Customs Harper.

Crack in Panama Canal Alarms.

Panama—Numerous alarming rumors of damage have gained currency as a result of the crack that recently developed in the cut-off wall of the northwest wing of the Miraflores locks of the Panama canal. One report had it that the crack had pulled away some portions of their supporting masonry and that the cost to demolish and rebuild the damaged structure would be \$1,500,000. The canal engineers say the crack is only a minor one and that it probably was due to a slight settlement of the masonry.

War on Cancer Outlined.

Minneapolis—The last day of the American Medical association's convention, was marked by a discussion of plans for a nation-wide organization and movement to combat cancer. Dr. J. Bloodgood, of Johns Hopkins university, outlined the movement, which has been started in New York. Dr. Bloodgood explained the nature of the American Society for the Prevention of Cancer, which will be launched formally in New York in soon. The organization was endorsed in addresses by several surgeons.

'Rain Follows Prayers.

St. Louis—An hour after prayers for rain had been ordered in the churches of Belleville, Ill., a suburb near here, a heavy rain storm broke the two months' drought throughout Missouri and Southern Illinois Sunday. A hail storm completely blanketed the lawns of Forest Park with ice, while streets here were flooded for several hours. Lightning did considerable damage to the property.

Nome Sends Out Million.

Seattle, Wash.—A million dollars in gold, the first shipment from Nome, Alaska, this year, was received by the steamships Senator and Victoria, which completed their first round trip of the season to Bering sea Sunday.

RIGHT TO SUSPEND TARIFFS

Senate Committee Would Give President Discretionary Powers.

Washington, D. C.—An amendment to the Underwood tariff bill adopted by the majority members of the senate finance committee would give the President of the United States authority to suspend certain rates in the proposed law and to proclaim special rates against nations which discriminate against products of the United States.

The amendment is appended to the clause giving the President authority to negotiate reciprocity agreements with other nations and in some respects resembles the maximum and minimum clause of the Payne-Aldrich tariff law eliminated in the house bill.

In substance the amendment would provide that when any nation discriminates against the products of the United States or imposes restrictions on United States exports or, in the opinion of the President, does not reciprocate in trade relations, the President by proclamation may suspend certain rates and put in effect other rates.

Only specified articles, it is understood, are to be included under the terms of this amendment, and the rates are specified also. Among the articles included in the list on which the President might suspend rates are fish, wheat, wheat-flour, coffee, tea, earthenware, wines and malt liquors, silk dress goods, gloves, jewelry, sugars and molasses. The duties prescribed vary as to different articles.

COAST WHEAT EXPORTS GAIN

Increase Over Corresponding Period Last Year About Million.

Washington, D. C.—During eleven months ended with May, Portland exported 7,705,119 bushels of wheat, valued at \$6,545,833, as against 6,829,943 bushels, valued at \$5,895,993 during the corresponding months of last year, as shown by the monthly statistics of the department of commerce. During May, Portland shipped 277,831 bushels of wheat.

Puget Sound during the last eleven months exported 5,387,735 bushels of wheat valued at \$5,534,581, an increase from 3,380,157 bushels valued at \$2,730,143 for the same months last year.

Puget Sound four exports for eleven months were 2,198,944 barrels, valued at \$8,597,697, as against 2,549,487 barrels, valued at \$9,905,554, last year.

Make Heavy Timber Sales.

Tacoma, Wash.—The annual meeting of officers and stockholders of the Weyerhaeuser Timber company was held in this city Friday. The feature of the session was the general manager's report of operations for the last year. The transactions in timber lands have been unusually heavy, said Manager Long, exceeding the sales of any year in the history of the company. The timber sold amounted to close to 750,000,000 feet, distributed between 40 and 50 mills. This, he said, is more timber than the government records show was sold from the United States forest reserves in Washington, Oregon and California in the corresponding time. These sales, he said, refute the imputation that the Weyerhaeuser Timber company is busy tying up all the standing timber in the country.

Socialists Fined \$500.

Kansas City—Rev. Thomas E. Green, pastor of the Bethany Congregational church, St. Louis, and S. B. Davidson and Thomas R. Sullivan, of Kansas City, members of the Socialist party, were fined \$500 each in Municipal court here on charges of blocking the street while speaking at a curb Socialist meeting. The police had ordered that no street meetings which might incite the labor element to violence be held during the progress of labor troubles between contractors and building laborers.

Denies Flies Carry Germs.

San Francisco—That flies do not transmit the germs of infantile paralysis is the assertion of Professor William B. Herms, the noted parasitologist of the University of California. This is a direct refutation of the theory recently advanced by Dr. Roseau, of Harvard University, and was only arrived at after months of experiment in the Berkeley laboratories. Fifteen thousand flies and 13 monkeys were used during the experiments conducted by Professor Herms on the above lines.

Long Reprieves Granted.

Phoenix, Ariz.—Five murderers, all of whom were to have been hanged Friday, were reprieved by Governor Hunt until December 19, 1914. The governor's action was the result of his determination to leave it to the people of the state to say whether the men shall die or live as the result of a vote on the recently initiated bill to abolish capital punishment. The initiative measure cannot be voted upon until November, 1914.

Friedmann Sails for Home.

New York—Dr. Friederich Friedmann, the Berlin physician who announced several months ago that he had a cure for tuberculosis, has sailed for home. His institute here was closed recently after the board of health had forbidden the use of his vaccine. The doctor did not say whether he would return.

Japan Guards American Embassy.

Tokio—The government has arranged for a stricter police surveillance of the American embassy in consequence of the action of unidentified persons who wrote on its walls recently a violently worded inscription in English directed against the United States.

Locust Scare Is Past.

Kansas City—The threatened plague of "17-year locusts" in this vicinity, at least, has ended. Three weeks ago the woods about Kansas City fairly swarmed with locusts. Now they have disappeared almost entirely, having caused little if any damage.

HIGH PEAK SCALED

Episcopal Missionary and Party Ascend Mount McKinley.

Barometer Reads 20,500 Feet—U. S. Flag Hoisted—"Te Deum" Sung by Minister.

Fairbanks, Alaska—The ascent of the highest peak of Mount McKinley was accomplished successfully for the first time June 7, when the party led by Archbishop Hudson Stuck, Episcopal missionary for Alaska, accompanied by Robert G. Tatum, Harry P. Karstens and Walter Harper, reached the top of the south peak of the mountain, the highest on the continent.

News of the success of the expedition was brought here by a messenger sent by Dr. Stuck, who is resting at the Base camp. Archbishop Stuck expects to return to Fairbanks in August and will go to New York in October.

Dr. Stuck and his assistants erected a six-foot cross on the summit of the great mountain and said "Te Deum" on the highest point. Observations made with the mercurial barometer indicated the height of the mountain is 20,500 feet. Dr. Stuck said this can be checked by comparing the reading of his barometer with the records taken at Fort Gibbon on the same date.

The expedition, which left Fairbanks March 13, expected to reach the summit of Mount McKinley early in May, but was delayed three weeks cutting a passage three miles long through ice thrown across the ridge by an earthquake last summer.

The party found much evidence of seismic disturbance on the upper ridges. The upper basin shows evidence of a violent upheaval and the ridges are badly shattered, but the summits are not marred.

AGUINALDO VISITING JAPAN

Secret Mission Believed to Be to Get Philippine Independence.

Tokio—The newspapers here report the arrival in Tokio of John Aguinaldo, son of Emilio Aguinaldo, the former Filipino revolutionary leader. They say he wore Japanese dress and came to Tokio secretly, being followed later by a suite of five Filipinos. The newspapers reflect the impression that Aguinaldo is in some quarters believed to be a secret agent of the Japanese, and in some quarters it is believed that his visit had to do with a movement for the independence of the Philippines. The foreign office at Tokio said it had no knowledge whatever of Aguinaldo.

Egg Breakage Causes Big Loss.

Washington, D. C.—Nine per cent of all the eggs shipped to market in the United States are broken in transit, according to statistics gathered by the department of agriculture. To reduce this enormous breakage, which yearly causes a loss of millions of dollars to producers, and raises the price of eggs for consumers, the department is conducting extensive experiments to determine the safest manner of packing eggs for shipment.

Japan Again Apologizes.

Tokio—A further apology was offered to Arthur Bailey-Blandford, United States charge d'Affaires, by Keishiro Mutsumi, under secretary of state for foreign affairs, for the action of the persons who wrote on the walls of the embassy in Tokio an inscription directed against the United States and calling Americans the enemies of liberty and justice. The under secretary called and voiced his government's regret. The foreign office had sent a formal apologetic message immediately after the occurrence.

Snake Kills Two Children.

Grand Forks, N. D.—Between the bodies of her two children, aged 5 and 7 years, whom she found dead when she attempted to awaken them Sunday morning, Mrs. David Grant, of Beach, N. D. found a huge rattlesnake sleeping soundly. The bed clothes had been out for an airing Saturday, the snake evidently being brought in with the quilts. When the children retired, both complained of being "pinched," but soon went to sleep. It was the latter that had dealt them a death blow.

Meteor Is of Pure Gold.

Fresno, Cal.—Fred Williams, a farmer of McFarland, near Bakersfield, brought to Fresno for the purpose of having it assayed a chunk from a meteor which he says he discovered on his ranch at a depth of 16 feet when digging a well. The chunk has the appearance of solid gold. Williams was unable to find an assayer, but took the chunk to several jewelers, who pronounced it crystallized gold. Williams says the mass weighs 20 tons.

Arabs Are Put to Rout.

Rome—A severe battle fought between the Italian troops and the Tripolitan Arabs at Ettang cost the lives of one Italian officer and 19 soldiers, while five officers and 217 men were wounded. The Arabs were completely routed.

DESSERT DISHES OF RHUBARB

Pudding, Tapioca or Shortcake, Make Delicious Confection.

Rhubarb Pudding—Mash half a pound of bag or pulled figs, or use dates or raisins, or a mixture of all or any two of these fruits. Cover with boiling water, with a scant cup of sugar is nearly absorbed. Cut a pound of rhubarb in inch pieces, put a layer of the cooked dried fruit, and repeat until all is used. Add a quarter of a cup of hot water and bake in a slow oven until the rhubarb is soft. Serve cold alone or with cream.

Rhubarb Tapioca—Soak half a cup of tapioca over night and cook until clear in a double boiler. Place in a buttered pudding dish two cups of rhubarb, cut in small pieces; one cup of sugar and a pinch of ginger. Pour the hot tapioca over this, stir in one teaspoonful of butter, cover and bake one hour. Put a meringue on it before serving, if you like, or serve it cold, with plain or whipped cream.

Rhubarb Shortcake—Put two cups of rhubarb, cut small, with a scant cup of sugar in a double boiler and cook until rhubarb is tender and sugar dissolved. Add the juice and chopped rind of one lemon. Make a shortcake by your favorite recipe, but cut and bake it like biscuit. When done, break open, butter them and arrange on a hot dish. Put the rhubarb in between, and when serving pour the juice over them.

Not Infantile Necessities.

To be an "infant" in a legal sense is not the same as being an infant. A recent case in London was concerned with the question of what constitutes an "infant's" necessities. The young man, who was sued by a furniture dealer, had bought, among other things, 24 candlesticks, 38 weapons, 61 pictures, an Indian spinnaker, Burmese and Chinese gongs, 23 snuff boxes and two stuffed animals. Refusing to pay the bill, the young man pleaded "infancy." The judge gave judgment for the plaintiff.

Great Virtue.
There is no greater everyday virtue than cheerfulness. This quality in a woman is like sunshine to the day, or gentle renewing moisture to parched herbs. The light of a cheerful face diffuses itself and communicates the happy spirit that inspires it.

The sourest temper must sweeten in the atmosphere of continuous good humor. As well might fog and cloud and vapor hope to cling to sun-lit landscape as "the blues" and moroseness to combat jovial speech and exhilarating laughter.

There is no path but will be easier traveled, no load but will be lighter no shadow on heart or brain but will lift sooner in the presence of a determined cheerfulness. It may at times seem difficult for the happiest tempered to keep the countenance of peace and content, but difficulty will vanish when we truly consider that sullen gloom and passionate despair do nothing but multiply thorns and thicken sorrows.

Raw Meat Popular in Italy.
Travelers report that in Italy the devouring of raw meat in restaurants is now so common as to be—to women, at any rate—a public annoyance. The waiter brings the slab of beef, steak and exhibits it to the eyes of the man about to lunch, who watches the process of cutting and of sprinkling with a little oil and vinegar. Over the dish is then poured a raw egg.

Moral Lesson Wasted.
"Say, mother," asked a dreamy Edgar, "when I grow up I'll be a man, won't I?" "Yes, my son," said the opportunity to press home a needed moral, "but if you want to be a real man you must be very industrious at school and learn how to behave yourself. You must not be dull or lazy, if you want to be a man." "Why, mother," came the wondering query, "do the lazy women turn out to be women when they grow up?"
