

POULTRY AND GAME
Can get you fancy prices for Wild Ducks and other game in season. Write us for cash offer on all kinds of poultry, pork, etc.
Pearson-Page Co., Portland

A beautiful \$20 gold watch for only \$10, and at \$1 a week. See just what it is. This watch is hand-made in America, American movement, and a superb timekeeper. If you are not satisfied, watch back and we will gladly refund the money. Ladies' or Gents' style. Send \$5, pay rest at \$1 per week. Write to: Novelty Co., 200 Park Ave., San Francisco, Cal.

HOWARD E. HURTON—Assessor and Chief, Leadville, Colorado. Assessor, Colorado. Chief, Silver, Lead, & Gold, Hill, and Lead, Colorado. Chief, Copper, H. Mailing envelopes of all sizes. Send for list. Reference: Oronote National Bank.

PATENTS Watson E. Coleman, D.C. Adviser and location. Rates reasonable. Highest references. Best services.

Machinery Second-Hand Machinery, every kind, sold and exchanged. Engines, lathes, sawmills, etc. Write to: E. Martin, 1st St., Portland. Send for Stock List and prices.

Hours, 10 a. m. to 6 p. m. **DR. JOSEPH ROANE** Chiropractor SPINAL ADJUSTMENTS Scientific Treatment of All Acute and Chronic Diseases. Licensed Practitioner. Suite 214-57 Arcade Building, Seattle.

M. & M. SCHOOL OF TELEGRAPHY 533-535 (Chamber of Commerce Building) PORTLAND, OREGON. A school for the teaching of Telegraphy under the personal supervision of the proprietor, A. E. Myers, expert telegrapher. Day and night sessions. TERMS: Courses in one month, including materials, making you a professional telegrapher at little cost. Write for full particulars.

DAISY FLY KILLER Kills anywhere, always and kills all flies, mosquitoes, house flies, etc. Made of natural ingredients. No harm to anything. Write for sample and price. Send \$1.00 for 100. **HAZARD BOMERS, 150 Duane Ave., Brooklyn, N. Y.**

Chicken in Jelly. Clean and cut up chicken and put over fire with cold water and salt to taste. Let simmer until meat is readily removed from bones. Pick out bones, shred the meat, add a little shredded ham and sliced hard-boiled egg, put this in a mold and pour over the soup in which a little granulated gelatin has been dissolved. Season to taste. A little curry makes a palatable addition. A nice relish for tea or lunch, sliced and garnished with parsley.—Farm and Home.

When Your Eyes Need Care Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try It for Red, Weak, Watery Eyes and Irritated Eyelids. Illustrated Book in each package. Murine is compounded by our Ophthalmic—Patent Medicine for many years. Now dedicated to the Public and sold by Druggists at 25c and 50c per bottle. Murine Eye Remedy Co., Chicago.

One of the Joys of Coming Home. "About all the fidget that we average folks cut in life," ruminatingly remarked the old codger, "is after we have been off on a long visit to have some fellow that has known us for years notice our grip sack as we come totting it up the street, and inquire without emotion, 'Why, hello! You ain't away!'"

About Timepieces. Clocks often stop, but they seldom stop with the hands at any one hour. Clocks and watches are said to stop when their owners die, but such cases are scarce.

St. Helens Hall PORTLAND, OREGON. Resident and Day School for Girls in charge of Sisters of St. John Baptist (Episcopal) nuns. Academic and Religious Department. Music, Art, Elocution, Domestic Art, Domestic Science, etc. For circulars, write to: THE SISTER SUPERIOR, Office 30 St. Helens Hall.

Folly of Haste. To be in haste is to be in anxiety and distress of mind. It is to mistreat Providence, and to doubt that all that is in his hands is in his hands that our own. It is to disturb the course of nature, and put overmuch confidence in the importance of our own endeavors.—Henry Van Dyke, "The Ruling Passion."

Wan, Weary and Worn Out If You Feel Fagged to a Finish and Utterly Used Up Here is Quick Relief.

Half the people who meet complain of weary muscles, stagnant brain, jangled nerves, and a mournful desire to lay down and just quit. Most of these people have been using nervines that spasmodically flare up the nerves until they die down again, as die they must. Avoid nerve stimulants. Bear in mind that this worn out feeling is due to poor blood, to bacteria in the water you drink; to the multiplying of destructive germs in the blood faster than they can be overcome by the white corpuscles; and to what is known as auto-toxemia, that condition where the venous or impure blood accumulates faster than it can be replaced by the arterial blood.

One ingredient in S. S. S. serves the purpose of stimulating the cellular tissues to select from the blood the nutriment that renews its health and energy. If you feel pained out, go to any drug store and ask for a bottle of S. S. S., Swift's Sure Specific. Insist upon having it and do not be persuaded to take something else claimed to be "just as good." S. S. S. is a remedy that gets at work in a twinkling. It just naturally rushes right into your blood, scatters germs right and left, up and down and sideways. You feel better at once, not from a stimulant, but from the rational effect of a natural medicine just as active and just as timely as to a man who has been just in the mountains, is about starved and comes across a settler just cooking a savory meal of good beef. Do not neglect to get a bottle of S. S. S. today. It will make you feel better in just a few minutes. It is prepared only in the laboratory of The Swift Specific Co., 145 Swift Bldg., Atlanta, Ga. Send for their free book telling of the many strange conditions that afflict the human family by reason of impoverished blood.

SAVE EGGS FOR WINTER NOW Poultry Department of New York State College of Agriculture Gives Practical Directions.

Eggs at present prices on the farm are cheap food. Next winter, when eggs are scarce and high, why not have plenty of cheap eggs for home use?

The poultry department of the New York state college of agriculture at Cornell university gives the following directions for preserving eggs in water-glass.

The commercial water-glass solution may be obtained from any drug store at a cost of about 20 cents a quart. Mix 1 1/2 quarts of this solution with eighteen quarts of pure water. Water which has been boiled is preferable. Stir these until they are thoroughly mixed. Two eight-gallon jars are sufficient for thirty dozen eggs, using the amount of solution as prescribed above. After the water-glass is thoroughly mixed divide it into the vessels to be used. Be sure that the vessels are absolutely clean. Place the eggs in the water-glass, so that the tops of the eggs are covered by at least two inches of the liquid, and cover the jars to prevent evaporation. Place them in a cool place where they will be undisturbed during the year.

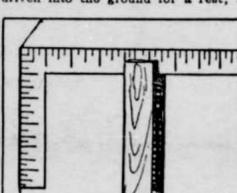

Preserve only absolutely fresh eggs. Stale eggs will not keep in any preservative. Have your preservative ready to put the fresh eggs into as you get them. If you are in doubt as to their freshness, candle them, or see if they sink when placed in a dish of water. If any egg sinks it is reasonably fresh. Do not preserve dirty eggs nor eggs which have been washed.

Water-glass eggs are practically as good as fresh eggs for most cooking purposes. If it is desired to boil them, prick a small hole through the large end of the shell before placing them in the water. The pores of the shell have been sealed with the water-glass solution, and without this pin hole the expanding air within the shell would burst it.

USEFUL TOOL FOR THE FARM Substitute for Spirit Level Found in Common Carpenter's Square and Plumb-Line.

The common carpenter's square and plumb-line may be made to serve as a substitute for the spirit level for many purposes on the farm or elsewhere, when a level is not at hand. The manner of getting the square in position for leveling a wall, for instance, is pen sketch.

A piece of board, three feet in length, having one end sharpened, is driven into the ground for a rest; a

notch is made in the top of the stick large enough to hold the square firmly in position, this notch is best made with a saw, one that will make an opening, slightly narrower than the thickness of the square.

A line and weight, held near the short arm, and parallel to it, will leave the long arm of the square level. By sighting over the square, the long arm, irregularly in the subject to be leveled, is readily discovered.

Clean Nests Essential. Clean nests are very essential in producing clean nests. Change the nest material occasionally, and as a precaution against insects burn the discarded material that is taken from the nests. Too much care cannot be given to cleanliness in the poultry yard.

Apple Trees May Be Saved. If there are any old apple trees on the farm that seem next to worthless, think seriously before cutting them down. If necessary get the opinion of an expert orchardist. Under proper treatment they may be made quite valuable, if taken in time.

Use Water Five Times. On its way to the sea the water of a river in southern California is used three times to produce power, thrice for irrigation and at two points to supply municipalities in the usual way, all within 100 miles.

Fruit Growing Cares. Getting a good orchard started is a step in the right direction, but that it is not all. It is only a beginning. Fruit growing requires care and attention the same as any other business.

Care of Sows. After weaning the litters sows should not be fed heavily but should have plenty of good pasture and bred again in the early winter.

Pastures Require Assistance. Pastures can not be continually cropped without something being returned to prevent loss of fertility.

ARMY TO TAKE HAND Mexican Rebels Will Be Forced to Release Prisoners.

Washington, D. C.—Secretary Garrison has ordered Colonel Edwin P. Brewer, of the Fourteenth Cavalry at Fort McIntosh, Tex., to demand the release of five Americans, together with 350 cattle and 30 horses, held by Mexican revolutionists at Hidalgo, Mexico. Secretary Bryan requested the action.

Secretary Bryan, who made public the order to Colonel Brewer, declined to discuss what would be done in the event the revolutionists declined to give up the Americans and their property. It was regarded as certain at the State department that Colonel Brewer's demand would be complied with promptly.

Hidalgo is on the Texas border about 50 miles northwest of Fort McIntosh and it is expected that the colonel will execute his mission with alacrity.

The attention of the State department was called to the imprisonment of the Americans and the seizure of their property by Consul Garrett at Nuevo Laredo, Mexico. When Consul Garrett demanded the release of his countrymen the revolutionists told him they must await orders from Piedras Negras.

So great is the lawlessness around Tampico that the better class of Mexicans have joined Americans in organizing vigilantes under commission of the Federal military governor of San Luis Potosi. Already 14 bandits have been hanged. It is expected that a military governor will take charge of the state Tampico, as has been done in Vera Cruz and San Luis Potosi.

The consul at Mazatlan has reported to the State department that many destitute Americans are arriving at that port and that he has already sent 24 refugees to San Francisco.

CALIFORNIA HAS HEAT WAVE Desert "Slops Over" and Ocean Breezes Fail.

San Francisco—At 1:30 o'clock Saturday afternoon the temperature in San Francisco, taken on top of the Merchants' Exchange building, reached 89 degrees. The temperature in the streets was more than 95.

The day was by far the hottest of the year, and much discomfort was experienced.

In spite of the high degree of heat, with even the generally dependable San Francisco breezes turning traitor and blowing torridly, no prostrations were reported.

No hope of early relief is held out by the local weather bureau, and the only sorry comfort that San Franciscans can derive from the general situation is the fact that other cities of California are in harder lines.

One heat prostration was reported from Oakland, making the second for the week. Charles Harris, 38 years old, was overcome while at work at Fifteenth street and San Pablo avenue. He was hurried to the receiving hospital.

The unwelcome weather is escaping from the direction of the Mojave desert and spreading out.

The hottest previous day this year in San Francisco was April 24, when the mercury stopped at noon on the 85 mark.

Oleo Tax Is Investigated. Washington, D. C.—Commissioner Osburn, of the Internal Revenue bureau, has begun an investigation to determine whether there is due to the Federal treasury \$900,000 in oleomargarine taxes from the manufacturers in Chicago and elsewhere, as recently reported by the Chicago grand jury.

The grand jury report which is before the commissioner, criticized the treasury officials of the previous administration for compromising for \$100,000 a \$1,000,000 oleomargarine tax claim by the government and found indication that \$900,000 was still due the government for taxes on the products at periods other than the dates covered by the compromise.

The question involves whether cotton seed oil used in making the oleo was colored or uncolored.

President Seeks Byways. Cornish, N. H.—President Wilson went exploring in his automobile Saturday. He took an unfrequented road, and his big car picked its way slowly and cautiously over a mountain side. The machine negotiated the hills with little difficulty, but frequently in the descents the brakes were thrown on tight. The trip was made without mishap and the view of the surrounding hills amply repaid the president for the bumping he got, as both he and Mrs. Wilson saw the Green Mountains from unusual vantage points.

Boy of 11 Is Hero in Water. Lewiston, Idaho—Waldo Sloan, a 11-year-old boy, rescued a 12-year-old boy named Treadwell from the bottom of the Clearwater river Saturday. The Treadwell boy was seized with cramps while bathing and went down twice. When Treadwell did not come to the surface Sloan jumped from a bridge and dragged the unconscious lad's body to shore and resuscitated him. The Lewiston Commercial club has been asked to take up with the Carnegie Hero association the matter of securing for the lad a medal.

Governor Offers Trophy. Olympia, Wash.—Governor Lister has offered a handsome trophy cup to the high school entering the best team of three in a public competition in carpentry, sewing and cooking at the state industrial contest at Spokane this fall. Any high school with an enrollment of more than 200 is eligible to compete.

TRAINMEN THREATEN STRIKE 76,000 Employees of Eastern Roads Declare for Raise.

New York—Peace overtures have ceased between 45 Eastern railroads and 100,000 members of the Order of Railroad Conductors and the Brotherhood of Railroad Trainmen, after the employees' representatives in conference with the railroad managers announced that 94 per cent of the men had voted to strike if increased wages. Final action on the proposed strike remains with the general committee of 100 of the conductors and trainmen's organizations.

It is the unanimous opinion in operating circles that the strike vote will be ratified unless the companies meanwhile offer to pay higher wages or agree to submit the dispute to arbitration.

During the negotiations the Erie railroad and its two subsidiaries, the New Jersey and New York and the New York, Susquehanna & Western, withdrew leaving 42 roads in the conference. The Erie system contends that the increase demanded represents an annual cost to the three roads of \$1,200,000, and that the system in paying this sum would suffer in safety appliances and equipment.

The conference committee of managers will meet soon to consider the decision of the employees' general committee. The railroads are then expected to make their ultimatum.

It was said that at no time during the session was the Erdman arbitration act mentioned, but comment among railroad officials and union representatives showed a general expectation that the men would appeal for arbitration before definitely deciding to walk out.

T. H. O'Brien, representing the trainmen, said: "The Erie men will insist on a compliance with their demands for a wage increase, and unless the Erie meets their demands, the men will strike."

FINANCIAL PANIC AVERTED Depositors Receive Limited Sums and Run Is Checked.

Pittsburg—The decisive statement of Secretary of the Treasury McAdoo, is attributed the restoration of almost normal conditions in financial Pittsburg despite the closing of the First-Second National bank, an institution that has been accredited one of the strongest in the country.

The closing of the First-Second was followed naturally by suspension of its affiliated bank, the First National of McKeesport, and the appointment of receiverships for the banking house of J. S. & W. S. Kuhn, incorporated, and a like action with the American Waterworks & Guarantee company.

Another Kuhn interest affected, the Pittsburg Bank for Savings, suffered a run Wednesday, chiefly by small depositors. This was continued in somewhat greater magnitude Thursday, but appeared to abate as the day wore on.

Small groups of depositors who entered the bank promptly received \$50 on demand, as previously, and were required to give the legal notice of 30, 60 and 90 days to withdraw other amounts above the stated figure.

About \$570,000 was withdrawn from the bank, while deposits were \$20,000. Announcement was made that J. S. Kuhn, the president, and W. S. Kuhn, vice-president, had resigned and that W. J. Jones, the former secretary and treasurer of the bank, had been made president, with A. N. Voegtly, former assistant to Mr. Jones, as secretary and treasurer, while L. M. Plummer, auditor, was made vice-president.

From the time of this announcement the run perceptibly abated and the crowd disappeared, until at closing time the victory of the bank differed from no other business day.

President Wilson Gains Weight. Cornish, N. H.—President Wilson has so improved in health in the last three days and likes his summer home here so well that he virtually decided to prolong his visit. Should affairs in Washington, however, become pressing, he will start back immediately.

The satisfactory progress of the tariff bill, especially the adoption of the caucus method by the senate Democrats, inspiring a safe majority for the measure, removed the last bit of anxiety the President had about spending the week away from Washington. The President has not only taken on weight, but his face bears a ruddy tan and a glow of health, the result of brisk motor riding in the cool mountain air and plenty of golf. The President found an ideal link, at Hanover, N. H., and probably will play golf there frequently hereafter. Professor Cox, of Dartmouth college, invited him over and assured him that he could play inconspicuously there.

Banana Finds Advocate. New York—President Wilson may be deluged with hundreds of letters in defense of the banana as the "poor man's fruit," it was said by some of those present Saturday night at a meeting in Cooper Union, at which speakers advised protest against the proposed tax of one-tenth of 1 per cent a pound on bananas imported into this country. Mrs. Julia Heath, president of the Housewives' League, and other women speakers urged that all present send to President Wilson a personal letter of protest.

Injured Man Shows Grit. Portland—Gripping a nearly-severed artery in his hands for 10 hours until he could be given medical assistance, J. W. Livingstone, a timberman, 24 years old, saved his life by a display of nerve which doctors regard as unusual. Livingstone was splitting timber at Newberg, Or., when a part of the steel wedge flew off and went into his thigh and pierced the femoral artery. He held it in his hands, stopping the flow of blood from 10 o'clock in the morning until he arrived at the hospital about 8 o'clock at night.

Aviator to Attack Ship. Nogales, Ariz.—Diddier Masson has invented an apparatus to carry 12 bombs on each flight, together with a sighting system for dropping bombs from his aeroplane. The French aviator declares that within a few days he will attempt again to sink the Federal gunboats lying in Guaymas harbor.

JOKE KILLS TWELVE Boys Pull Whistle on Los Angeles Electric Car.

Los Angeles—"To horse play" by youths who played with the train whistle is attributed the loss of about 12 lives and the injuring of some 200 persons near here Sunday night. Two Pacific Electric trains collided, telescoping two cars and wrecking another at Vineyard station, in the city limits.

Three trains loaded with excursionists from the beaches at Venice had stopped at a curve where a switch is turned. The last train began moving forward while the foremost trains remained at a standstill.

Carroll Bartholomae, the conductor of the last car on the center train, jumped to the track with his light to "flag" down the approaching car. Some youths on his train, say some passengers who escaped death, pulled the whistle in jest. This, it was explained by railroad men, was interpreted by the motorman of the moving train, as the signal to come ahead.

With a crash of breaking glass, splintering timbers, men's groans and women's screams, the motor car of the last train plunged into the rear of the center train. The youths who had played with the whistle were crushed in the debris.

The two colliding cars were nearly telescoped. The second car of the stationary train was almost demolished. The motorman of the moving train, hearing the whistle, had given full speed ahead. The curves evidently had prevented his seeing the standing cars of the next train. The third train was not affected. The three trains were said to have been running at three-minute intervals.

Most of the killed were cut into pieces. Their identification was slow. Special trains rushed the injured to Los Angeles hospitals and the dead to morgues here.

The cries of the wounded could be heard above the din of the crowd, which became frantic and which mobbed the newspaper photographers who tried to take pictures of the wreck.

HUSBAND AND WIFE PERISH Portland Couple Lost in Blizzard on Mt. St. Helens.

North Fork Logging Camp, Wash.—Giving up all hope of recovering, for at least four or five days, the bodies of Mr. and Mrs. C. B. Smith, of Portland, who were lost in a blizzard on Mount St. Helens Sunday, July 6, 26 mountaineers returned here.

They were completely exhausted from hardships and exposure encountered in the week they have been searching the snow fields.

Settlers of the North Fork of Lewis river and mountaineers and trappers of the Mount St. Helens country, who have been scouring the snowfields for a week, have narrowed the search down to one particular place on the mountain which cannot be reached until the weather is good and the snow has melted.

The tracks of the missing couple were found near the top of the mountain on Friday, and were followed to a point where they went down a steep slope with a rock formation on one side and a snow field on the other. It is believed the couple went down over the snow and perished. Because of the storms on the mountain it has not been possible for the searchers to make their way down this slope.

Mysterious Power Guides. Tacoma, Wash.—Directed by some mysterious power to the spot where her son, E. B. Mygatt, on June 20, leaped from Lincoln bridge, Mrs. C. P. Mygatt, of Independence, Mo., accompanied by W. H. Mygatt, her other son, went straight from the depot to the scene of the tragedy and announced to the young man that they were on the spot where his brother died.

Mrs. Mygatt had no guide, she only knew Edward Mygatt met his death by leaping from Lincoln bridge. She did not know the location of the bridge, and asked no questions, but found the exact spot.

Banana Finds Advocate. New York—President Wilson may be deluged with hundreds of letters in defense of the banana as the "poor man's fruit," it was said by some of those present Saturday night at a meeting in Cooper Union, at which speakers advised protest against the proposed tax of one-tenth of 1 per cent a pound on bananas imported into this country. Mrs. Julia Heath, president of the Housewives' League, and other women speakers urged that all present send to President Wilson a personal letter of protest.

Injured Man Shows Grit. Portland—Gripping a nearly-severed artery in his hands for 10 hours until he could be given medical assistance, J. W. Livingstone, a timberman, 24 years old, saved his life by a display of nerve which doctors regard as unusual. Livingstone was splitting timber at Newberg, Or., when a part of the steel wedge flew off and went into his thigh and pierced the femoral artery. He held it in his hands, stopping the flow of blood from 10 o'clock in the morning until he arrived at the hospital about 8 o'clock at night.

Aviator to Attack Ship. Nogales, Ariz.—Diddier Masson has invented an apparatus to carry 12 bombs on each flight, together with a sighting system for dropping bombs from his aeroplane. The French aviator declares that within a few days he will attempt again to sink the Federal gunboats lying in Guaymas harbor.

A Human Match Factory

The body contains phosphorus sufficient to make 483,000 matches. Phosphorus is one of fourteen elements composing the body—divided among bones, flesh, nervous system and other organs. The perfect health of body requires a perfect balance of the elements. These elements come from the food we eat—the stomach extracts and distributes them.

But if stomach is deranged—the balance of health is destroyed and the blood does not carry the proper elements to the different organs, and there is blood trouble—nervous trouble—heart trouble. Pain is the hungry cry of starved organs. Put the liver, stomach and organs of digestion and nutrition in a condition of health. That is just what is done by

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

which has been so favorably known for over 40 years. It is now put up in tablet form, as well as liquid, and can be obtained of medicine dealers everywhere or by mail by sending 50 cents in 1c stamps for trial box—address R.V. Pierce, M. D., Buffalo, N.Y.

THE COMMON SENSE MEDICAL ADVISER is a book of 1000 pages, handsomely bound in cloth—treats of Physiology—Hygiene—Anatomy—Medicine and is a complete Home Physician—Send 51c stamps to R.V. Pierce, Buffalo, N.Y.

Use Bellows to Skin Goats. Great quantities of Mocha goatskins are imported from Aden, on the Gulf of Aden, into this country, many skins coming from Africa. The Abyssinians and Somalis are considered the most expert in skinning goats. The former rarely permits his knife to touch the animal after killing and during the skinning process, and by means of bellows removes the skin in an excellent condition. Somali women are also very adept in this art and exercise great care throughout.

You Can Get Allen's Foot-Ease FREE. Write Allen S. Olmsted, Le Roy, N. Y., for a free sample of Allen's Foot-Ease. It cures sweating, hot swollen, aching feet. It makes new or tight shoes easy. A certain cure for corns, ingrowing nails and bunions. All drug stores sell it. 25c. Don't accept any substitute.

Would Not Survive Loss of Love. Wives have been more than once by the loss of a coin, but never under more dramatic conditions than the following: Two Genoa wood carvers, who were rival suitors for the hand of a pretty little milliner, decided to leave their fate to the decision of a coin spun in the air. When the fateful coin fell and Signor Nizza saw he had lost, he produced a revolver and shot himself through the head, falling dead at his successful rival's feet.

Strawberry Wine Praised. Regarded medicinally, strawberry wine is held to be superior to grape wine. Spanish doctors who have investigated the matter report that strawberry wine gives the greater strength to a weakened constitution. The strawberry wine industry is said to be assuming some importance in Spain.

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.

Conscientious at Least. "Why did you say your prayers twice, dear?" asked his mother, kissing Charlie good-nights. "Cause I was too tired to say them last night, and I'm making up for lost time."

SAVED FROM OPERATIONS Two Women Tell How They Escaped the Surgeon's Knife by Taking Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn.—"For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the place. I have been married for 15 years and have four children. I have been a failure in the past, but now I am a success."

Wife Tells How They Escaped the Surgeon's Knife by Taking Lydia E. Pinkham's Vegetable Compound.

Baltimore, Md.—"My troubles began with the loss of a child, and I had hemorrhages for four months. The doctors said an operation was necessary, but I dreaded it and decided to try Lydia E. Pinkham's Vegetable Compound. The medicine has made me a well woman and I feel strong and do my own work."—Mrs. J. R. PICKING, 1259 Sargent St., Baltimore, Md.

Since we guarantee that all testimonials which we publish are genuine, it is not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

"It Can't be Done" It is impossible to maintain health and strength if you allow the stomach to become weak, the liver sluggish and the bowels constipated, but you can guard against such troubles by the daily use of

HOSTETTER'S STOMACH BITTERS

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. The favorite family laxative.
