DAISY FLY KILLER
Kills all flies, house flies, stable flies, etc. in all parts of the house. Sold by dealers, or direct from manufacturer.
KARL D. SOMMER, 150 DELAWARE AVE., BROWNSVILLE, N. C.

Wanted to Help.
One day little Laura came into the kitchen and found her grandmother shelling peas. After watching her a moment, Laura said: "Oh, grandma, please let me help you unbutton the beans."

Daily Thought.
The purest and most lasting human friendships are permeated with an element of reverence.—Austin Phelps.

Pimples Should Be Watched
May be Means of Absorbing Disease Germs in Most Unexpected Manner.

The research laboratory of The Swift Specific Company has collected a vast amount of information regarding the spread of blood diseases. In thousands of instances the most virulent types have been the result of coming in contact with disease germs in public places, and the apparently insignificant pimple has been the cause. It spreads with astonishing rapidity, often infecting the entire system in a few days.

ANNOUNCEMENT
Oregon Normal School

For Teachers—
The Oregon Normal School is Oregon's institution for the preparation of teachers for the public schools. The entire time and attention of the school is devoted to this purpose, and only students intending to be teachers are admitted.
The Faculty—
The faculty, numbering eighteen members, is chosen for the express purpose of training teachers for the public schools, and directs its entire energy upon this one thing.

Departments—
The several departments offer every form of work required in the public schools, including Supervision and School Management, and Domestic Science and Domestic Art. A well-equipped gymnasium and athletic grounds furnish ample opportunity for training in every phase of Physical Culture.
Equipment—
The school has at present commodious buildings in which to do its work. These buildings have every appliance for good work and are kept clean and sanitary, so that the students may have the best conditions for work at all times.

Training School—
The Normal maintains a complete system of training schools from the first to the eighth grade inclusive, and it is in charge of skillful and professionally trained teachers.
Term Begins—
The fall term begins September 15.
For further information with regard to the School, address
J. H. Ackerman, Pres., Monmouth, Or.

Nutritious Wild Rice.
The wild rice which grows in lakes in the northern part of the United States and in the southern part of Canada has a long black grain and is quite different in many respects from the true rice familiar to everybody. Wild rice is best known to many persons as a favorite food of wild ducks and other water fowl, but it sells in some cities at two or three times the price of ordinary rice. It is considered the most nutritious grain grown in North America.

When Your Eyes Need Care
Try Murine Eye Remedy. No Smarting—Feels Fine—Acts Quickly. Try it for Red, Weak, Watery Eyes and Irritated Eyelids. Illustrated Book in each Package. Murine is composed of our exclusive and "Patent Medicine—Lut Mucosin" in success. Price—Five Cents per Bottle. Sold by Dealers, or direct from manufacturer. Murine Eye Remedy Co., Chicago.

Superstitions That Survive.
The death of the Roman Emperor Maximus was presaged by the howling of dogs. It was in the hope of finding the stream of perpetual youth that led Ponce de Leon, the Spanish discoverer, on his trips through Florida, while De Soto was seeking for a city of gold. In Brazil the people believe that Don Sebastian, the royal hero who was slain in Africa about 1580 in a battle, will return to claim the crown. The people go out on windy nights to watch the heavens anticipating his return.

Stringing Pearls.
Only the finest silk is used for stringing the finest pearls. Great beads, round and shiny, unmistakably artificial, and with no more real luster than white marbles, with the exception of what are called Roman pearls, manufactured many years ago, may be allowed to hang together on catgut, but oriants must be threaded, pearl kissing pearl, on silken strands, worthy of their shape and "skin."

Found the Point.
A teacher told one of her boys that the next time he wrote a composition there must be some point to it. The subject of his next disquisition was "Needles."

I. W. W. IS HARD HIT
U. S. Sailors Clean Out Seattle Socialist's Headquarters.

Civilians and Naval Reserve Aid Bluejackets—Literature and Furniture Burned.
Seattle, Wash.—A crowd of sailors from the Pacific Reserve fleet, at anchor in the bay, aided by hundreds of men and boys who came to join the Potlatch celebration, attacked the Socialist and Industrial Workers of the World headquarters Friday night, sacking the buildings and dumping the furniture into the streets. Two distinct parties made attacks.
The first, in the northern part of the business district, wrecked the Socialist headquarters near Fifth avenue and Virginia street. They then nailed U. S. flags across the front of the building. The second, in the southern part of the downtown section, attacked the Industrial Workers of the World headquarters, dumping the furniture into the street and making a bonfire of it.
The police offered not the slightest resistance to the sailors. Some of the officers said that all the force was busy handling the Potlatch crowds, and no reserves were available to cope with the rioters.
The damage is estimated at \$3000 or more.

FIRE WRECKS OREGON TOWN
Business Section of Sheridan Gone, Also Many Dwellings.
Sheridan, Or.—The business section of Sheridan has been wiped out, and several residences destroyed as a result of a fire which started Friday night at 5:03 o'clock and swept an area covering three blocks on the south side of the Yamhill river. The loss will reach between \$250,000 and \$400,000, with \$100,000 insurance. The fire started from a gasoline stove explosion in a small restaurant.
Of the entire business section there is one blacksmith shop and one garage standing. One bakery and one butcher stop remain to supply the town. About 30 buildings on the south side of the river were destroyed.
The fire raged a little more than three hours. McMinnville, Carlton and Willamina, Or., sent fire hose and crews to fight the flames. McMinnville is about 14 miles away and Carlton about 22 miles. The crew and hose arrived at 7:03 o'clock, and the men swam the river with the hose to attach it to the hydrants there, so fierce was the heat on the south side of the river.
Exploding cartridges, ammunition and dynamite in the various well-stocked hardware stores were a constant menace to the firemen and residents of the city who joined in fighting the flames. Six of the workers were prostrated by heat and smoke, and fell close to the flames, but they were picked up and borne to safety before seriously injured.

Long Airboat Trip Finished.
Detroit, Mich.—Beckwith Havens completed a flying boat trip from Chicago to Detroit shortly before 4 o'clock Saturday afternoon. He followed the route planned for the Chicago-Detroit aviation cruise and covered 900 miles. It is said to have been the most remarkable trip ever undertaken by flying boats.
Although it was announced a few days ago that the cruise, which started from Chicago July 8, had been called off because of the private committee which raised the bonus money was reported to have withdrawn the prizes, E. F. Noel, steward of the Aero Club of America, said here that the cruise itself would stand and that Havens would be the winner of it.

Civil Service Is Applied.
Washington, D. C.—A large number of nominations for consular offices will be sent to the senate in a few days. The list will include many of the names mentioned on the slate which failed confirmation at the close of the Taft administration.
It is said this will be the first demonstration of the purpose of President Wilson to continue the application of civil service principles in the consular service, as many of the officers named for promotion are neither Republicans or of known political affiliations.

Chicago Deeply in Debt.
Chicago—"Cook county (Chicago) is bankrupt. If it were a private corporation it would be in the hands of a receiver."
In making this statement Saturday, President McCormick, of the county board, explained that the county is \$2,317,000 in debt, with no assets in sight to cover the deficit. This condition is due to making appropriations based on estimates of what the tax levy will be, and for several years these estimates have been greater than the money actually collected.

Poisoned Mash Effective.
Dodge City, Kan.—More than half of the grasshoppers in this country were killed by the poisoned mash farmers recently scattered over their fields, according to a report by P. A. Classen, state entomologist. Mr. Classen, after a 40-mile drive through the country, said from 50 to 60 per cent of these pests have been killed and that another spreading of the poisoned mash would exterminate them.

Ex-Senator in Sing Sing.
Ossining, N. Y.—Stephen J. Stillwell, ex-state senator, arrived at Sing Sing prison Thursday afternoon to begin serving the sentence of from four to eight years' imprisonment imposed on him for soliciting a bribe in connection with legislation at Albany.

I. W. W. WARMLY RECEIVED
Threat to "Fly Red Flag of Anarchy" Brings Arrests.

Portland, Or.—"We will fly the red flag of anarchy over the marble palace up there!" (meaning the new court house) shouted Tom Burns, an I. W. W. speaker, harranging from a soap box at Sixth and Washington streets shortly after 9:30 o'clock Wednesday night.
The next minute a deputy sheriff, under orders from Sheriff Toland, stepped forward and pulled Burns from the soap box.
"You are under arrest," said the deputy.
Almost on the instant Sixth street, filled with a crowd of several hundred persons, only a comparatively small percentage of whom were I. W. Ws, became a scene of the wildest disorder. As Burns was pulled down, Rudolph Schwab, another agitator, one of the leaders of the strike now in progress at the Oregon Packing plant in this city, jumped on the box.
At the same time Word and five other of his deputies jumped forward. They were reinforced by a dozen patrolmen, who had been posted on the sidewalks of the crowd under strict orders from Mayor Albee to preserve order at the meeting. The raid that ensued was made as the result of concerted action planned by Sheriff Word and Mayor Albee. Both were present in the crowd.

TO BRING COUNTER CHARGE
Complaints Against Men to Be Presented to Arbitrators.
New York—With the passage by congress of the Newlands bill to provide an arbitration medium for settling the wage differences between 45 Eastern railroads and their 80,000 conductors and trainmen, a new phase of the controversy developed through the announcement by the railroads that they would ask the board which arbitrates the demands of the employees to take up also the grievances of the roads against the men.
Chairman Elisha Lee, of the conference committee of managers, said that the railroads would demand arbitration which would take into consideration all questions of difference between the employers and the employees. He alluded to the wording of the letter in which the conference committee agreed to arbitrate under the Newlands legislation. The roads were willing to submit to arbitration by a board, as provided in the Newlands bill, "all questions of rates of pay and working conditions."
"The language of our letter is clear," said Mr. Lee. "We feel that it is right to ask for arbitration which takes into consideration the grievances of the railroads as well as the grievances of the employees."
When Chairman Elisha Lee's statement in behalf of the roads was conveyed to A. B. Garretson and W. G. Lee, heads of the conductors' and trainmen's organizations, respectively, they would not comment on the matter, but said they might make a statement later.

Bombs Thrown in Lisbon.
Lisbon—An organized attempt at bomb-throwing in various parts of the city early Sunday was frustrated by the police, who were warned and were on the lookout. They captured several automobiles in which they found baskets of bombs, and arrested many persons who had gathered in the streets. While the police were engaged in these operations, shots were fired, and several persons were wounded. One bomb, thrown from an automobile, killed a policeman and injured others.

Must Tend Bar to Win Fortune.
Philadelphia—Edward Masse, an American-born German of this city, who is summing as a bartender at a prominent Delaware Water Gap hotel, has just fallen heir to \$250,000 from an eccentric German uncle who imposes on him the most tantalizing conditions.
Masse is now 24 years old and when he is 30 he will come into possession of the principal sum, "providing he stays continuously employed at the position he occupies when he learns that he is heir to my fortune."

Dyke to Be Blown October 10.
Panama—Colonel G. W. Goethals, chief engineer of the Panama canal, announces that steam shovel work in the Culebra cut section hereafter to be conducted on the assumption that Gamba dyke will be dynamited October 10. The Gatun lake will flood the cut, thereby connecting the Atlantic and Pacific, although navigation of the canal probably will not be attempted for some time thereafter.

POST RATE REDUCED
Weight Limit Also Increased in First Two Zones.

Washington, D. C.—Plans for the extension, improvement and reduction in rates of the parcel post are announced by Postmaster General Burleson.
The changes, which are to become effective August 15, include an increase from 11 pounds to 20 pounds in the maximum weight of parcels; a partial reduction in the postage rates in the first and second zones and the abandonment of the parcel post map as a means of computing rates and the substitution for it of a rate chart individualized to every postoffice in the United States.
The plans contemplate the purchase of a large number of automobiles to be used exclusively for the delivery of parcel post matter.
While for the present the maximum weight limit of 20 pounds and the reduction in rates will apply only to the first and second zones, from any given postoffice—a distance of about 150 miles—the changes directed constitute the first long step toward a universal extension of the system and a general reduction in the rates of postage on parcel matter.
"It is my expectation and belief," said Postmaster General Burleson, "that eventually—and it may be 15 or 20 years—the postal service will handle practically all of the small package transportation business in the United States. The maximum weight limit, extended now from 11 to 20 pounds, I expect to see increased to 100 pounds, and experience may demonstrate the practicability of handling the parcel business at even lower rates than we now provide. I appreciate fully the sentiment for an increase in the weight limit and a reduction in rates to all zones, but it is necessary for us in a sense to feel our way. For that reason we have made the changes proposed apply only to the first and second zones."
Mr. Burleson announced the changes as follows:
"The first zone shall include the territory within the local delivery of any office and the first zone rate of postage will apply to all parcel post mail delivered at any office for local delivery or for delivery by city carrier or on rural routes, emanating from that postoffice.
"The second zone shall include the remainder of what is now the first zone together with the present second zone, and shall include all the units of area located in whole or in part within a radius of approximately 150 miles from any given postoffice.
"The rate of postage on parcels weighing in excess of four ounces in the proposed first zone will be reduced from 5 cents for the first pound and 1 cent for each additional pound or fraction thereof, to 5 cents for the first pound and 1 cent for each additional two pounds or fraction thereof; and the rate for the second zone will be reduced from 5 cents for the first pound and 3 cents for each additional pound, to 5 cents for the first pound and 1 cent for each additional pound or fraction thereof.
"The maximum weight of parcel post packages will be increased from 11 pounds to 20 pounds, the increase of weight to apply only to the first and second zones. No change has been made in the size or form of package."

Friedman Patient Dies.
Boston, Mass.—Alford Warriner Cooley, ex-United States assistant attorney general and an ex-judge of the New Mexico Supreme court, the most prominent patient to receive Dr. Friedman's "cure" for tuberculosis, succumbed to the disease here.
His dramatic 3000-mile dash across the continent from Silver City, N. M., to Providence, R. I., where Dr. Friedman was then holding his only New England clinic, was sensational.
Widespread belief that Dr. Friedman had discovered a cure for consumption renewed Judge Cooley's hope and it was through the offices of Colonel Roosevelt, it is said, that an appointment was made with Dr. Friedman.

Malone, N. Y.—"Lydia E. Pinkham's Vegetable Compound has certainly done me a lot of good. I first heard of it when I was a girl and I always said that if I ever had female trouble I would take it. I suffered from organic inflammation and would have spells when I would be in such pain that I would tear my clothes. One day my husband got my neighbors in to see what the matter was but they could not help me. My first thought was for Lydia E. Pinkham's Vegetable Compound and I sent my husband out for it and took it until I was entirely cured. I am a woman of perfect health and my health and happiness came from Lydia E. Pinkham's medicine. You may rest assured that I do not know to the contrary in the whole world, but have been very happy since. My father-in-law has been all I can to recommend your wonderful medicine to my friends."—Mrs. FRED STONE, Route No. 3, Malone, N. Y.

Don't Look Old Before Your Time
WOMAN'S delicate system requires more than ordinary care and attention—more care and attention than it is given by the average woman. Neglect it and ill soon creep in, and the look of old age, sometimes quickly, sometimes gradually follows.
That backache, so common among women, brings with it the sunken chest, the headache, tired muscles, crows' feet, and soon the youthful body is no more youthful in appearance—and all because of lack of attention.
There is no reason why you should be so unfortunate, when you have at your disposal a remedy such as Dr. Pierce's Favorite Prescription, recommended for over 40 years as a remedy for ailments peculiar to women. We have thousands upon thousands of testimonials on file—the accumulation of 40 years—testifying to its effectiveness. Neither narcotics nor alcohol are to be found in this famous prescription. It regulates irregularities, corrects displacements, overcomes painful periods, tones up nerves, brings about perfect health, sold by dealers in medicine, in liquid or tablet form.
Dr. Pierce's Medical Adviser, newly revised up-to-date edition, answers hosts of delicate questions about which every woman, single or married ought to know.

Dr. Pierce's Favorite Prescription
Egg and Milk Punch.
Break a fresh egg into a shallow dish, add a small pinch of salt and a teaspoon sugar, and beat vigorously about 5 minutes, or until the yolk and white are thoroughly mixed. Then beat in 2 cups of rich, creamy milk, add just a dash of grated nutmeg, and 4 to 6 teaspoons of good medicinal brandy. Pour into a thin glass. This is excellent for convalescents who need nourishment, yet cannot eat much.—Farm and Home.
No thoughtful person uses liquid blue. It's a pinch of blue in a large bottle of water. Ask for Red Cross Ball Blue, the blue that's all blue.

Teach Concentration.
The greatest thing that parents can do for their children is to teach them concentration of the mind, so soon as their intelligence begins to bud—and that is very early. The mind of a child generally takes its bent long before the school days begin. The proper education of children begins from the cradle, and if it were pursued as it ought to be the mental force of mankind might be quadrupled in a single generation.
Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.
Carry Flint.
The Norfolk peasants always regard pointed flints as thunderbolts. So consistent are the simple folks that they will often assure you that they picked them up red hot. They carry flints and stone arrow heads about with them in the belief that this custom will prevent them being struck by lightning.
Liquid blue is a weak solution. Avoid it. Buy Crescent Ball Blue, the blue that's all blue. Ask your grocer.

CRESCENT BAKING POWDER
MIXING BETTER

A Message of Good Cheer
To those who suffer from distress after every meal, such as Flatulency, Heartburn, Nausea, Indigestion, Cramps and Constipation, it is cheering to know that
HOSTETTER'S STOMACH BITTERS
has helped thousands back to good health during the past 60 years. We urge you to try a bottle also.
Age of Pessimism.
"I had a talk with a pessimistic friend the other day. I don't think I ever met any one so completely soured on the world. He told me he doubted human honesty—that he didn't believe in the faith of man, nor the constancy of woman. Life to him was all graft and greed. He was very bitter."
"Your friend must have had a lot of hard experiences. How old is he?"
"Nineteen."
For Aching, Perspiring Feet
Use Tyro's Antiseptic Powder either sprinkled into the shoes or used in solution. Never fails to relieve. 25c at all druggists or sample sent free by J. S. Tyro, Washington, D. C.—Ad.
