The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suit-
able for homes, offices, shops and other
places needing lights. Electricity can be
used in any quantity, large or small, there-
by furnishing any required amount of
light. Furthermore, electric lamps can
be located in any place, thus affording
any desired distribution of light.

No other lamps possess those quali-
fications, therefore it is not surprising that
electric lamps are rapidly replacing all
others in modern establishments.
