CENTRAL Y. M. C. A., PORTLAND, OR.

Colonel McIntyre Has a Red-hot Sunday at Ashbury Park.

Ashbury Park, N. J.-This fashionable summer resort was visited last week-end by Colonel McIntyre and the Central Provincial Quartet. A special feature of the campaign conducted by the Colonel were the open-air gather-ings at the "Gospel Charlot" in the grove, where the crowds listened with rapt attention and appreciation. Des-pite the fact that the heat was intense, with the thermometer registering 98 degrees in the shade, the meetings were successful, and one soul claimed Christ. Captain Cameron and Lieu-tenants Sowton and Jackson are carrying on a good work here.—W. H. B.

His Side Line.

"That poet who wrote an ode to a bunch of daffodils and won the \$10,000 prize offered by the eastern magazine —is that all he does for a living?" "By no means. He is also an authority on onion culture and is a staff contribu-tor for three agricultural journals."

An old citizen in a country village, being asked for a subscription toward

repairing the fence of the graveyard, declined, saying: "I subscribed todeclined, saying: "I subscribed to-ward improving that burying ground nigh on to forty years ago and my family hain't had no benefit from it yet."

The Remarkable Action of a Famous Remedy and Some Facts About It.

The skin is but a net work of fine blood vessels. And it is a perfectly natural consequence that any influence in the blood that is a condition of ill health makes its first appearance in the skin. There are certain medicinal properties is that follow the course of the blood stream and the influence of these properties is that of an antidote. This is why S. S. S., the best known blood purifier, has such a positive action in the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or giandular activity its mulates cellular or grandular activity to select from the blood or from this fine net work of blood vessels in the skin, those elements which it requires for regeneration.

There are certain medicinal properties is that follow the course of the skin. There is one ingredient in S. S. S. which peculiarly stimulates cellular or giandular activity to select from the blood or from this fine net work of blood vessels in the skin, those elements which it requires for regeneration.

The skin is but a net work of fine blood of them, and also the crack United States infantry, thrice winner of the spector Rhodes says he found the potator tuber moths, and that he took 105 infected potators from one sack.

Mr. Rhodes, backed by J. H. Perkins, commissioner of agriculture at Olympia, some time ago sent a circular to California shippers announcing that hereafter all potatoes shipped into the state and found to be infected with potator works and that he took 105 infected potators from one sack.

Mr. Rhodes, backed by J. H. Perkins, commissioner of agriculture at Olympia, some time ago sent a circular to California shippers announcing that hereafter all potatoes shipped into the state and found to be infected with potators from one sack.
