Evelyn Nesbit Thaw, accompanied by her little baby "Snooky-oolums" will do vaudeville at the Orpheum in Portland this winter. It's a safe bet that the audience won't have to listen to any of this "da-da" stuff.—Ex

Over \$500 in cash prizes were given on hogs at the Clackams county fair held last week at Canby. The display proved conclusively that this county takes the lead in all Oregon counties in the swine industry. If the farmer would turn his attention to raising hogs instead of some other industries, there is no doubt but what he would improve his condition.

The biggest noise the world has ever heard, says an exchange, is expected to be made all along the Pacific Coast from British Columbia to Panama at the time the last rock barrier in the Panama canal is blown out and the waters of the Atlantic and Pacific oceans are united. Oct. 10 the canal will be open to the passage of vessels, although the official opening will not be announced until later.

THE MAN WHO NEVER ADVERTISES
The man who never advertises said to the writer the other day: "The people in this town know my store well enough and they know me. If they want to buy anything I have they will come around and see me."
It may be admitted that the people who have lived here right along know of the existence of the store, but what do they know about it?
The people all know about the cemetery, but they don't go there much except when some friend is buried.
People don't care to bother much nowadays about stores unless they believe the owners thereof are enterprising men.
They want to deal with merchants who seem wide awake enough to get good bargains and to have enough spirit to hustle, and reach out for large trade and thus reduce the cost of rent, clerk hire, taxes and their "overhead" charges. The man who never solicits public patronage impresses the people as too passive to look after their interests attentively.—Ex.

DOWN SOUTH SWEET POTATOES GROWN IN OREGON
I have tested sweet potato growing in Oregon and have proven it a success. This fact can be vouched for by R. S. Coop and Charles Kutching, as they got plants from me last spring.
I received the potatoes from old Virginia hot spring, made an old-fashioned hot-bed and grew my own plants, of which won a result; a fair sample may be seen on exhibition at the Progress office. Those desiring plants next spring, apply to Coyd A. Looney, Estacada, Ore.

Serving Soup.
If anybody were asked to suggest why the soup plate was made broad and shallow the almost certain answer would be that such an arrangement facilitates the cooling of the soup to a temperature comfortable to the mouth. We believe that utilitarianism drink tea out of a saucer for the same reason. While that may be the explanation of the peculiar shape of the soup plate, the advantage indicated is surely insignificant compared with the obvious disadvantages which may probably arise from exposing so large a surface of food to the air. A low broad saucer and the method, which is becoming more usual, is hygienic. Too deep a vessel would be an error on the other side. Its advantages would be cancelled by its great drawback. We should miss some of the delicate flavors of the soup.—London Lanet.

STUDENTS ATTEND FAIR
At seven o'clock Saturday morning there gathered at the Estacada station a sleepy but hilarious group of high school students and their teachers, bound for the Canby fair. A special car was at the disposal of the crowd so they were allowed to yell and enjoy themselves to the fullest extent. The trip was made for the benefit of the stock judging class, who learned many interesting things and incidentally had a good time. Special mention should be made of the canned fruit and vegetables which were there in great quantities. After spending an hour at the county seat they returned home weary but still able to give nine cheers for Canby.
Student.

Mr. and Mrs. T. R. McNulty entertained the duplicate whist club Tuesday evening for dinner, after which they enjoyed a few hours playing cards.

The improvements to the school-house are about completed.

EILERS SCHEEL WEDDING
A very pretty wedding took place at the home of Mr. and Mrs. N. Scheel at Bissell, on Wednesday, Sept. 24, 1913, when their daughter Elizabeth became the bride of George Eilers.
Promptly at four o'clock the bridal party entered the parlor to the strains of the wedding march from "Lohengrin."
The bride and groom were preceded by Miss Helen Klutker, a friend of the bride, as bridesmaid, and Mr. Will Nelson of Portland as best man.
The bride was attired in a handsome gown of white silk, and carried an arm bouquet of white asters. The bridesmaid was gowned in pale blue and carried pink carnations. Edward Scheel, a brother, gave the bride away, and Rev. H. Mau of Beaver Creek officiated. After the congratulations a sumptuous wedding supper was served.
Relatives and friends of the bride and groom witnessed the ceremony. The reception followed at which sixty-eight guests were present and a very enjoyable time was spent.
Mr. and Mrs. Eilers departed on an early train for a short wedding journey.

The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing lights. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place, thus affording any desired distribution of light.
No other lamps possess those qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.
