Cleans Blood Through Kidneys

A Most Important Function and One to be Carefully Guarded.

The purpose of the kidneys being to filter the blood the question of treating supposed kidney weakness should be considered carefully. Instead of drugs and alleged kidney stimulants the better plan is to purify the blood with an antidotal effect such as you get from B. S. S. It should be remembered that the kidneys are made up of a fine net work of blood vessels, and it is to stimulate the functional activity of kidney tissue through this capillary net work that S. S. S. shows one of its most remarkable effects.

S. S. Shows one of its most remarkable effects.

The medicinal value of the components of S. S. S. are relatively just as vital to healthy kidney action as the nutriment obtained from grain, meat, fats, sugars, or any other part of our daily food is to the natural reconstructive requirements of the tissues. And there is one component of S. S. S. which serves the active purpose of stimulating the cellular tissues. purpose of stimulating the cellular tissues of the kidneys to a healthy and judicious of the kidneys to a healthy and judicious selection of its own essential nutriment. Thus, in cases of rheumatism, cystitis, chronic sore throat, huskiness of voice, bronchitis, asthma, and the myriad of other reflex indications of weak kidney action, first purify your blood with S.
