Don't forget the Red Cross  
stamps.

Shop early and shop at home,  
thus you will better and build up  
home enterprises rather than those  
far away. You cannot have a fat  
Christmas turkey unless you feed  
it—no more can you have a good  
town when you give its merchants  
but the scattering crumbs of your  
trade and buy "unsight and un-  
seen" of a catalogue house or hike  
to a near-by city to do the bulk of  
your shopping. Support your home  
town and it will support you: feed  
your turkey and it will feed you.

As the time approaches for the  
sending of Christmas packages  
through the mails, there are a few  
things which the sender should re-  
member, and in behalf of Postmaster  
Johnson, the Progress will jog your  
memories along this line. Remem-  
ber that all packages must be se-  
curely wrapped with heavy paper  
and tied tightly; that the address  
must be with pen and ink and the  
return card on the left hand corner.  
Don't wait until you hear the mail  
car whistle and then get sore at the  
postmaster if your package does not  
get off on that particular car. Get  
your packages off early. In this  
rush season remember that those  
who handle United States mail, have  
double responsibility and are gen-  
erally overworked. If you neglect  
to wrap your packages properly and  
they are lost or damaged, the re-  
sponsibility falls upon the postmas-  
ter. So try and assist him in hav-  
ing everything in good shape.

## The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suit-  
able for homes, offices, shops and other  
places needing lights. Electricity can be  
used in any quantity, large or small, there-  
by furnishing any required amount of  
light. Furthermore, electric lamps can  
be located in any place, thus affording  
any desired distribution of light.

No other lamps possess those quali-  
fications, therefore it is not surprising that  
electric lamps are rapidly replacing all  
others in modern establishments.
