And now comes the report again that Huerta is to resign since his inability to obtain funds in Europe.
It seems that Copperfield had to be "coppered" before it would be good, and one little timid woman was sent to start the ball rolling.
Suppose everybody in Estacada shed your old grouse—if you have one, and all pull together for Estacada in 1914. A town divided can never stand. Help the Progress in making our little city one of the best in the state, morally, socially and commercially.

It was reported by telephone Monday in Portland, that Mt. Hood was in eruption and there was considerable scrambling by people for high places to get a look at the mountain. Bad storms and various other calamities seem to be visiting the west coast at present. A little thing like the eruption of Mt. Hood should not worry people.

"It pays to advertise in your home paper because that paper is working for you and deserves and needs your support. The better the support the better will be the service given by the paper. It pays to advertise because a home paper is the mirror in whose reflection the world at large sees our city. A new resident coming into a place nine times out of ten patronizes the advertiser, so that you have the opportunity to secure his trade."

The Actress' Retort.
Georgette LeBlanc, the actress, wife of Maurice Maeterlinck, was on tour in a French town, where the local company "supported" her in one of her husband's plays.
But the support was weak and halting. The good's lines were mangled, and several characters seemed unable to understand what they were saying. Mme. LeBlanc sought out her manager and spoke to him.
"A writer like Maeterlinck should be treated with more respect."
"Madame," he answered, "M. Maeterlinck is not the first to suffer. Sophocles, Moliere, Racine, Shakespeare, Goethe and other great dramatists are daily murdered in the same way."
"Possibly, but they are not murdered alive, at any rate."

The Best Light At The Lowest Cost

ELECTRIC LIGHT is the most suitable for homes, offices, shops and other places needing lights. Electricity can be used in any quantity, large or small, thereby furnishing any required amount of light. Furthermore, electric lamps can be located in any place, thus affording any desired distribution of light.

No other lamps possess those qualifications, therefore it is not surprising that electric lamps are rapidly replacing all others in modern establishments.

Oregon Agricultural College FARMERS' WEEK
December 8 to 13, 1913

This will be a notable event in the educational history of Oregon. Farmer's Co-operation will be the leading topic of a stimulating series of lectures. The week will be crowded with discussions, and demonstrations in everything that makes for the welfare of the farmer and home-maker.

WINTER SHORT COURSE
January 5 to 30, 1914

The college has spared no effort to make this the most complete short course in its history. A very wide range of courses will be offered in General Agriculture, Horticulture, Animal Husbandry, Dairying, Poultry Keeping, Mechanic Arts, Domestic Science and Art, Commerce, Forestry, and Music. Numerous lectures and discussions on FARMERS' CO-OPERATION, at home and abroad, will be a leading feature. Make this a pleasant and profitable winter outing. No tuition. Accommodations reasonable. Reduced rates on all railroads. For further information address

His Golden Rules.
A Toronto banker hangs up these golden rules of conduct:
"Have something to say."
"Say it."
"Stop talking."
These are fine rules for special occasions and places, but not for general application. They make no allowance for the necessities of conversation nor for the helpfulness of intercommunication.

They recall with their tactful suggestion the golden rules that hang over the desk of a western mine owner:
"State your business."
"Shut up!"
"Get out!"—Cleveland Plain Dealer.

Notice
