

NEWS OF THE WEEK

General Resume of Important Events Throughout the World.

Muncie, Ind., has voted "dry" by a majority of 482.

Ex-President Taft is to be appointed a Supreme court justice.

Senator Fall, of New Mexico, makes an earnest plea for armed intervention in Mexico.

Thirty persons were hurt in riots on the first day of the general workmen's strike in Rome.

Structural ironworkers convicted of dynamiting lost their final appeal to the Supreme court.

Premier Asquith presented his Irish Home Rule bill before parliament and received a chilly reception.

Senator Tillman's long-pending resolution forbidding smoking during sessions was adopted by the senate.

Japan has cut \$20,000,000 from her proposed navy budget, after having made a previous cut of \$11,000,000.

London police succeeded in arresting Mrs. Pankhurst for the sixth time, after a lively fight with suffragettes.

A military aviator and his passenger were killed at Vienna when their motor stopped, causing their biplane to fall.

Secretary of War Garrison takes a hand in the inquiries into the death of Clemente Vergara at the hands of Mexican federalists.

A 12-inch gun exploded at Sandy Hook proving grounds while being tested with a new powder. One man was slightly injured.

The postoffice department is having great trouble securing bids for carrying mails on star routes, owing to the increased business brought by Parcel Post, and the fact that there is no equitable method of fixing the compensation.

General Souder, leader of the Souder faction of the famous Souder-Turner feud, in Kentucky, which was supposed to have ended 25 years ago, died of pneumonia at his home. He was 53 years old and is reported to have killed 11 men. He prided himself, however, on the fact that for the last 20 years he had been a law-abiding citizen.

President Wilson requests congress to repeal the canal tolls measure, and the British press expresses great approval.

Slight earthquake shocks were felt in many towns in Tennessee, Georgia, Alabama and the Carolinas.

Senator Jones urges his waterpower bill before congress, on the plea that it will reduce the high cost of living.

The army of unemployed en route from San Francisco to Washington, were driven from Oakland by the police.

A Baltimore woman is down with nervous prostration, after having tried 40 different cooks in succession within a year.

Scientists of Berkeley, Cal., oppose the present teachings of eugenics because they ignore the care and development of the soul.

A plan is under way to provide prizes for achievements in literature, music, arts, science, etc., for women, similar to the Nobel prizes for men.

William E. Kelley, of New York, president of the National Letter Carriers' association, was selected by President Wilson and Postmaster General Burleson to be postmaster at Brooklyn, N. Y.

PORTLAND MARKETS

Wheat—Track prices: Club, 90¢; 91c per bushel; bluestem, 99¢; 100¢; fortyfold, 91¢; red Russian, 89¢; 90c; valley, 91c.

Oats—No. 1 white, milling, 24c.

Corn—Whole, \$3.50@34 per ton; cracked, \$3.50@35.

Barley—Feed, \$22 per ton; brewing, \$23; rolled, \$25.

Hay—No. 1 Eastern Oregon timothy, \$17; mixed timothy, \$14; alfalfa, \$14; clover, \$9@10; valley, grain hay, \$12@13.50.

Millfeed—Bran, \$22.50 per ton; shorts, \$24.50; middlings, \$30@31.

Vegetables—Cauliflower, \$2.50 per crate; cucumbers, \$1.50@1.75 per dozen; eggplant, 10¢@15¢ per pound; peppers, 12¢; radishes, 35¢ per dozen; head lettuce, \$2.25 per crate; garlic, 12¢ per pound; sprouts, 11¢; artichokes, \$1.50 per dozen; squash, 1¢@2¢ per pound; celery, \$4.50 per crate; cabbage, 2¢ per pound.

Green Fruit—Apples—75¢@82.25 per box; cranberries, 11¢@12.50 per barrel; pears, \$1@1.50 per box.

Onions—Old, \$3.25@3.50 per sack; buying price, \$3 per sack at shipping points.

Potatoes—Oregon 80@90¢ per cwt; buying price, 50¢@75¢ at shipping points.

Eggs—Fresh Oregon ranch, 21c per dozen.

Poultry—Hens, 17¢@18c per pound; springs, 17¢; broilers, 25c; turkeys, live, 18¢@20c; dressed, choice, 25c; ducks, 13¢@17c; geese, 11¢@12c.

Butter—Creamery prints, extra, 29¢@30c per pound; cubes, 26¢@27c.

Pork—Fancy, 11c per pound.

Veal—Fancy, 14¢@15c per pound.

Hops—1913 crop, prime and choice, 16¢@17c; 1914 contracts, 15c.

Wool—Valley, 16¢@17c; Eastern Oregon, 10¢@15c; mohair, 1913 clip, 26¢@27c pound.

Casaca bark—Old and new, 5c.

Grain Bags—in car lots, 5c.

Cattle—Prime steers, \$7.60@7.75; choice, \$7.40@7.60; medium, \$7@7.25; choice cows, \$6.25@6.75; medium, \$6@6.25; heifers, \$6@7.25; light calves, \$8@9; light, heavy, \$6@7.50; bulls, \$4@5.60; stags, \$6@7.

Hogs—Light, \$8@8.65; heavy, \$7@7.65.

Sheep—Wethers, \$5@6.10; ewes, \$3.50@5; lambs, \$5@6.85.

Americans Get Body of Man Slain by Mexicans

Laredo, Tex.—A party of Americans who secretly crossed into Mexico Sunday night brought to the American side the mutilated body of Clemente Vergara, Texas rancher, and established the fact of his execution after he was seized by Mexican federalists.

The invaders were not opposed, accomplishing their search without the slightest violence, taking the body from a grave in Hidalgo cemetery almost within sight of the Texas border. The seizure was divested of possibly grave aspects in international complications by reason of the fact that the party was virtually making use of permission granted officially by Mexican federal authorities several days ago for the recovery of the body. This permission had been given to United States Consul Garrett at Nuevo Laredo, but he did not get the body because of what he reported as dangers attending the search for it in the immediate vicinity of Hidalgo.

Vergara was shot twice through the head and once through the neck, his skull was crushed as by a blow from a rifle butt and the charred fingers of the left hand indicated that he had been tortured before being put to death.

Identification was made by Vergara's son and by numerous friends, many of whom were in the party of nine, which made the grim journey to the Hidalgo cemetery during the early morning hours.

Suffragettes Use Clubs in Battle With Police

London—Military suffragettes again engaged in battle with the police Sunday on their favorite field, Trafalgar Square, and in a pouring rain. The arrest of Sylvia Pankhurst for the sixth time under the "cat and mouse" act precipitated the conflict. In addition to Miss Pankhurst seven women and three men were arrested.

Among those arrested was Miss Zelia Emerson, of Jackson, Mich. Miss Emerson has been arrested several times for participation in suffragette demonstrations and recently there were rumors that steps were being taken by the British government to deport her as an undesirable alien. Repeating February 26 to a question whether this report was true, Reginald McKenna, the home secretary, asserted no such steps were being taken.

"If Miss Emerson again commits an offense, bringing her within the provisions of the alien act, the question of applying to the court for a recommendation for her expulsion will be considered," he added, however.

Says United States Is "International Boob"

Washington, D. C.—Senator Poinsett, in an interview, parted company with President Wilson on the Panama canal tolls issue. Generally he has supported the President on major issues. He said senators and representatives seemed to be "falling over themselves" to keep up with the "acrobatic procession" that is following the President in this matter, "being entirely satisfied if they can yield their own judgment to the wishes of the executive."

Commenting further on this line, he said: "Impartial foreign critics are laughing at us and we are making of ourselves an international 'boob.'" He added: "The canal might have been built by the United States 25 years earlier than it was but for the insidious opposition of transcontinental railroads and the same influence can now be depended on in the same insidious way to minimize its results in every way possible, now that it is constructed."

Broker-Forger Is Killed.

Omaha—J. D. Hooper, stock broker, 26 years old, was killed in resisting two detectives who were arresting him on a charge of uttering false checks. Hooper was wanted in many cities on forgery charges. Detectives Fleming and Murphy declared the man shot himself rather than submit to arrest. Hooper was wanted by the police of Los Angeles for a forgery amounting to \$3500 and it was from Chief Sebastian, of that city, Omaha officers received notice that Hooper was in this city.

Police of Rome Vigilant.

Rome—The head of the police department personally supervising measures to prevent or suppress outbreaks during the general strike of workmen, which is expected any day. The garrison in Rome will be kept in readiness for duty. With the troops and police, 15,000 men will be available. While the announced object of the strike is a protest against reforms introduced in Rome hospitals, it is said to be really the outgrowth of a desire to test the strength of the workmen's organization.

Convicts Hear Mrs. Booth.

Folsom, Cal.—Maud Ballington Booth, the "little mother," spoke to 1200 convicts in the open prison yard at Folsom penitentiary Sunday. The prisoners gave her close attention. Mrs. Booth is the only woman ever accorded the privilege of talking to the convicts and one of the few ever permitted within the prison walls.

Explosions Wreck Car.

New York—The bursting of a 48-inch water main and a subsequent series of explosions of gas mains in the heart of the city lifted a trolley car from the tracks, shook the buildings and flooded streets and cellars. Seven persons passengers of the trolley car, were slightly injured.

Cigarette Fatal to Twenty-four.

Ekaterrinoslav, Russia—Twenty-four men were killed in an explosion of gas in a coal mine here. The explosion was caused by a miner's opening his safety lamp in a gas-filled chamber to light a cigarette.

State R. R. Commission Issues Annual Report

Regulation of public utilities, together with steady growth of railroad business, has increased the work of the Railroad Commission of Oregon July 24 per cent in one year, measured by the volume of formal complaints handled. This is one of the features disclosed by the annual report of the Commission for the year ending December 31, 1913, which has just been made public.

Chairman Frank J. Miller and his colleagues, Thomas K. Campbell and Clyde H. Aitchison, in telling the story of the year's work, have naturally covered a much broader field than usual, and the report is especially interesting in its explanation of the progress made in the new duties assigned by the public utilities act and the expansion of the Commission's work.

The net operating revenue of all of the railroads of the state for the year ending June 30, 1913, was \$2,527,742.82, the report shows a gain of \$48,156.25 over the figure for the previous year. Total receipts from all roads on state highways were \$14,963,855.23, of which \$5,169,748.78 came from freight, \$7,772,526.56 from passengers, \$380,626.44 from other passenger train revenue, \$228,275 from other transportation services, and \$311,433 from sources other than transportation.

Oregon's proportion of interstate railroad revenue is almost equal to the state revenue, being \$1,975,156.56, making the total railroad revenue \$4,502,902.02. The operating expenses assigned to Oregon amounts to \$19,251,509.50, leaving a net profit of \$5,712,342.52. The net operating assets of \$10,201,522.15. As the taxes totaled \$1,568,788.37, the clear net return stands at \$4,143,554.15.

The total railroad mileage operated in the state is given as 2,274, of which 426 miles are electric. The increase in mileage in the state in the line owned or operated by the railroads is shown to have been placed in operation. The electric roads show well in revenue. In proportion to the total mileage, 68 miles of electric line having yielded \$1,643,802.27 in net operating return after deducting over half a million dollars in taxes, or about twice the return per mile taken collectively by the other lines.

In reviewing the great amount of work required to properly classify the utilities of the state, 1913 being the first year that electric, gas and telephone and street railway companies have been included, the commission has endeavored to discuss the principles applied to the making of rates, saying:

"By successive steps the Commission is seeking to discharge the obligation imposed by the public utility laws toward the protection of human life and limb, and to place upon the railroads, gas and electric utility companies, a duty to provide a safe and efficient service to the public. The report describes the steps taken in this regard, and the conditions in which the Commission is operating. It also describes the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under which public utilities must measure pressure, and the progress made in the investigation of the work of the courts by handling matters which otherwise would develop into lawsuits, and the steps taken toward the improvement of the public utility regulations of standards under
