## Extra Piano Votes

In order to reduce our stock of  
**RANGES, OIL STOVES, LAWN MOWERS  
and SCREEN DOORS**  
for the next two weeks we will give EXTRA VOTES on  
the FREE PIANO as follows:  
10,000 votes on every RANGE sold  
5,000 ' ' ' OIL STOVE sold  
3,000 ' ' ' LAWN MOWER sold  
1,000 ' ' ' SCREEN DOOR sold  
\*\*\* \*\*\* \*\*\* \*\*\*  
We are still giving 500 votes for every \$ worth of  
Binding Twine sold during July.

**Bert H. Finch** - - -  
Hardware, Harness and Implements

**IT WILL DO YOU GOOD**  
to see how your horses will go  
into the feed we provide. No  
indifference, no muzzing with  
the feed but just straight eating.  
If your horses are "off their  
feed" give them some of ours.  
You'll see a quick cure and a  
bettered condition that mean  
more work and better. Isn't  
that what you are after?

### News Notes From All Sections

Clark Posson returned this week from Thane, Alaska, where he has been employed in construction work for some time past. He reports the work as having been shut down until about Nov. 1st when he expects to go back to Alaska. His return was a surprise to his family and friends.

Rev. Aue of Springwater returned last week from an eight day attendance at the Interdenominational Conference held at the University of Oregon, at Eugene. This conference confined their discussions to "The Country Church" with a view of furnishing suggestions, as to further cooperation with other churches and with the people in promoting the social as well as the religious work. Mr. Aue promises an article in a short time on this subject.

Geo. Douglass and Emma Dowty of Eagle Creek and Alspaugh were quietly married at Vancouver, July 12th. After spending a few days at Seaside, they left for Eastern Oregon where George will begin threshing soon.

Adolph Wiederhold and daughter Caroline, of Bissell, were Estacada visitors this week, having ridden horseback over the new George road. Miss Caroline, who formerly attended the Estacada High School, called on several friends while here. Estacada merchants are beginning to feel the good results of the opening up of the new George road and they certainly welcome the new visitors.

Prin. B. F. Ford will be in Dover and Sandy Ridge School Districts on Tuesday the 28th, Deep Creek and Barton, 29th; Union, 30th; Tracy and Garfield, the 31st. Mr. Ford's work is confined to getting eighth grade graduates to continue their schooling by attending the Estacada High School.

John Githens of Alspaugh secured 2,000 of the fish that were being distributed in nearby streams and now has the streams on his place well stocked with trout.

Mr. Johnson, a brother-in-law of John Holm of Garfield, recently purchased 20 acres of Mr. Holm's tract and is busily engaged in erecting a house on the land.

The Weekly Industrial Review reports that the Portland meat inspection ordinance has been taken into the courts on the ground that it discriminates against all small packers in favor of the meat trust.

A fire of unknown origin was discovered last Saturday on the vacant Claussen property in George, which necessitated hard work on the part of the neighbors to extinguish. The loss was very slight.

The Upper Garfield resort, "La Barreuve" is attracting many Portland visitors. Mr. Chas. W. King of Olds Wortman & King Co. and family motored out and were agreeably surprised and pleased at the condition of the roads between Portland and Garfield. Mr. Wm. G. Gosselin of Portland also made the auto trip and spent a week end with his two sons who are vacationing at this popular spot.

The Progress is pleased to note that Mr. J. C. Peterson of Springwater, who was operated on last Wednesday at his home by two of our local physicians, is doing nicely and "well on the road to recovery. In this connection, the Progress acknowledges receipt of an anonymous letter from some person whose intent and warm heartedness cannot be overlooked. Inasmuch as the communication was unsigned, it cannot be printed here, and while it paid the highest of compliments to the physicians attending Mr. Peterson, they especially requested that it be omitted from these columns.

W. J. Strey of Springwater is having some trouble in getting a settlement for a carload of potatoes which he shipped to a concern in Portland last April, by the name of The Equity Warehouse Company.

W. Givens, pastor of the Christian Church submitted his resignation after the service last Sunday, to take effect in Sept. A meeting to consider same will be held after the regular service next Sunday.

Miss Geraldine Hall and brother Howard, who have been visiting Mr. and Mrs. Irwin D. Wright, have returned to their home in Portland.

Mrs. Emily Lady and daughter of Estacada, returned from Forest Grove Saturday, accompanied by Mrs. Potwin and daughter Beth.

### Exhibits Wanted Right Now

Estacada should be well represented in three shows this fall, the first being the Eastern Clackamas Fair to be held in Estacada, Sept. 8th and 9th, then the Clackamas County Fair in Canby, beginning Sept. 16th, and lastly the Land Products Show in Portland, Oct. 26th.

Right now, is the time to begin collecting the exhibits material, especially that part which will have to be preserved.

Through Mr. T. W. Cross, Agricultural Expert of the P. R. L. & P. Co., arrangements are being made for a permanent exhibit for Estacada. If Estacada can get together the material, the Progress, the railway company or the Development League, or all together, will arrange a housing for it.

A small building could be erected near the Estacada depot at small expense, that would show all visitors what the Estacada country can raise and is raising.

It is almost too late now to get good specimens of cherries or berries, but if you have any, bring them to the Progress office and they will be cared for at once. Hereafter, bring to this office your good samples of grains, in sheaf and about a pint of the threshed grain; bring in your fine specimens of vegetables and as fast as your fruit matures, see that it reaches this office.

Mr. Cross has formulas for the preparation and preserving of vegetables and other perishable products in glass jars, and, with the editor, will try to prepare that part of our exhibit.

Everyone in this section has some especially good specimens of their particular products and they should be preserved; every individual grower is asked to please send in their exhibit, right now, especially the perishable products, for they cannot be duplicated out of season and the preparation of them for exhibit purposes takes some time. Get busy right now and do your part. Don't forget to fatten up your livestock and poultry for the Estacada Fair and make it a special point to be an exhibitor.

**Death of Mrs. Palmateer**  
After a lingering illness, Mrs. Wm. F. Palmateer, wife of Wm. F. Palmateer, died at the family residence in Estacada, Sunday morning July 16th., of heart trouble.

Mrs. Palmateer leaves many friends and relatives in this section, having resided in Garfield, previous to her residence in Morgan and Estacada.

Mrs. Palmateer was in her 56th year and was born in the east in 1856. Her maiden name was Phoebe Garrison and as a girl she crossed the plains with her parents and located in Oregon in 1868. She was married to Wm. F. Palmateer in 1876.

She is survived by her husband and five children, being Lilly DeShazer, of Dilley, Or., Minnie Ely, Wm. Palmateer, Albert Palmateer and Mattie Morgan, of Morgan, Oregon.

The funeral took place from the Christian Church in Estacada, Monday afternoon, with interment in Lone Oak Cemetery. A large number of friends and relatives attended the funeral.

The Progress joins with the many friends and relatives in extending their sincere sympathy to the husband and loved ones.

### A Road Note by A. Demoy

G. T. Hunt, road supervisor of district 49, recently sent three of his men over the roads in his district, who in two days picked off all of the loose rocks from the roadways. Total cost less than \$10. The work did more immediate good than other and more expensive jobs Mr. Demoy has to deliver the mail over these roads every day of the year and wishes that similar work could be done in other sections, especially near the McKenzie place in District 10.

Noble MacMillan of the P. R. L. & P. Co.'s, Upper Clackamas Engineering Dept., escorted Messdames Ewing, Givens and Brazzell up to Three Links Camp last week. Mrs. Brazzell left Monday for her home in Kansas.

Mrs. Irwin Wright and Mrs. J. A. Somers gave a delightful reception to a large party of friends last Thursday afternoon in the grove adjoining their homes. Most of the ladies took along their fancy work and babies and with the delightful refreshments, thoroughly enjoyed the afternoon.

The next regular meeting of the George Social and Commercial Club will be held at the home of Henry Schmidt on July 25.

### Broadway's Pavement

All indications point towards a good pavement on Broadway from the depot to Third St. before the year is out. This work has been contemplated for several years past and its need is too apparent to need comment, for with the country districts building miles of rocked roads leading into Estacada, the city should at least be able to show a couple of blocks of decent pavement.

Negotiations are now under way, for the council to avail themselves of the provisions of the Bancroft Bonding Act and get the work started by Sept. 1st.

The Bancroft Bonding Act, allows of any city, properly chartered after certain legal formalities, to issue bonds, as a lien against any stipulated section of the city, adjoining the proposed street improvements. These bonds are easily sold and usually bear 6% interest and sell at a slight premium. These bonds divide the total payment of the road building into ten equal yearly payments, with the interest payable semi-annually. This arrangement does away with the necessity of the assessment at one time and makes the burden light and easy to handle.

For instance, County Engineer Hobson, states that the two blocks on Broadway can be paved with a hard surfaced pavement, of bituminous macadam, at a cost not to exceed \$3.50 per front foot, including the cement curbing. This figure allows for a 35 foot street with 12 foot side walks, but the proportion would be the same with 10 foot walks and 60 foot roadway. This form of pavement has been used and found to be very satisfactory, at Grants Pass, Medford, Astland, Cottage Grove and other points, in fact Clackamas County has recently let the contract for one mile of this paving on the road from Sellwood to Milwaukie, which road has the heaviest traffic in the county.

This figure would mean about \$87.50 total cost for pavement for each 25 foot lot, payable in ten installments of \$8.75 each. If desired any property owner may pay the entire cost at one time and not avail himself of the installment payments. These low payments would mean about 75c per month and few of the tenants in the buildings on Broadway would refuse to pay that amount extra per month as rental, if it was necessary, to get the street paved.

The building of the concrete sidewalks will be handled separately and should cost not to exceed 10c per square foot.

The majority of the property owners in Estacada have expressed their desire to have the work begun at an early date and the only delay is due to getting advices from outside parties owning lots on the street.

### Hog Raisers--Attention

T. W. Cross, agricultural expert of the P. R. L. & P. Co. was in Estacada last Monday and made a short trip through the Garfield country with Messrs. Sparks and Standish. Mr. Cross and Property Agent, Townsend of the railway company, will make a similar trip through the Springwater section the latter part of this week.

Mr. Cross, states that all farmers wishing advice as to any of their farming problems, can phone or write him at Gresham, Ore. and he will come out to their farm and go into the matters in personal detail.

Mr. Cross has furnished this office with the following valuable information to farmers raising or contemplating the raising of swine. This information will later be printed and distributed to all farmers in this section. From time to time, other valuable information will appear in these columns and will later be printed and distributed generally.

The following table represents years of experimenting by the Dept. of Agriculture, in the states of Oregon and Washington and has been tried and proven by Mr. Cross, personally.

## Estacada State Bank

We have finished repainting our building and have put up newly lettered signs.

So much for the Outside of the Bank—the Inside is what counts and in that we are equipped with every up-to-date facility for banking.

Our policy is to establish a conservative home bank for the home people and we want your account, either checking, time deposit or both.

LEROY D. WALKER, President  
THOMAS YOCUM, Vice President  
IRWIN D. WRIGHT, Cashier

Interest paid on time deposits.

## GO TO THE Estacada Furniture Co.

For all kinds of Furniture and Undertaking Goods  
Call and see our nice line of Rockers, Bed Springs, and Mattress, Linolium, Rugs and Matting. A good line of Queensware always on hand. When you want dishes we have them. We have a couple of White Sewing Machines left which we will sell cheap.

Call and see us before going elsewhere. We will treat you right.  
Yours for business,  
**Estacada Furniture Co.**

### CROPS SUITABLE FOR PASTURE AND HOGGING OFF

The moist, mild climate of this district makes it possible to provide an abundance of cheaply grown forage for hogs throughout the entire year, with a variety of crops that may be used. This table shows suitable pasture crops for Western Oregon, with the dates of planting and use.

Crops	When planted	Approximate dates when used	Pasture No. of hogs per acre
Clover	Previous year	Apr. 1 to Nov. 1	8 to 16
Alfalfa	"	"	"
Rape in rows	Apr. 1, 15, 30	June 1 to Nov. 1	8 to 14
Rape and Oats	Apr. 25 to May 15	June 25 to Nov. 1	6 to 15
Rape and Clover	May 15 to June 1	July 1 to Nov. 1	6 to 15
Rape	July (in corn at last cultivation)	Oct. 1 to Apr. 1	5 to 8
Vetch	"	"	"
Vetch and Wheat	"	"	"
Vetch and Oats	"	"	"
Vetch and Wheat or Vetch and Oats	Sept. or Spring stubble	Nov. 1 to Apr. 1	"
English Rye Grass	Early Fall or early Spring	Nov. 1 to July 1	5 to 14
Winter Wheat	Sept. 1 to Oct. 15	Feb., Mar., Apr. 6 to 12	"
Vetch	"	Mar. to July 1	8 to 16

From a study of the above table, it will be seen that pasture may be provided for swine, in this section, for the entire year. It is not intended that all of these crops be used on any one farm, but the table will assist the farmer in a selection of pasture crops which may meet the needs and condition of his farm.
