**DAISY FLY KILLER**  
Killed anywhere, at any time, in any weather. Kills all house flies, stable flies, and other annoying insects. It is safe for all animals and humans.  
**THE GUTTER LABORATORY, Berkeley, California.**

**BLACK LOSSER SURELY PREVENTED**  
By the use of **BLACK LEG**. The superior quality of this medicine is proven by the fact that it has cured thousands of cases of black lossers in various and remote localities.  
**THE GUTTER LABORATORY, Berkeley, California.**

**Here and Hereafter.**  
The Tattler tells the story of an old Scotchman whose wit was edged with pessimism. One morning he met at her gate a neighbor whose husband was seriously ill.  
"And how's yer husband this mornin'?" Mrs. Tamson?" he asked, solicitously.  
"Oh, he's awful bad! The doctor said his temperature has gone to 150."  
"Nae, nae, you've made a mistake! Sandy's temperature could never be as muckle as 150—at least, not in this world," he added as an afterthought.  
—Youth's Companion.

**Happy.**  
Mrs. Nextdoor—I suppose your daughter is happily married?  
Mrs. Nagby—Indeed, she is. Why, her husband is actually afraid to open his mouth in her presence.—Princeton Tiger.

**Jude Johnson's Surrender.**  
Jude Johnson was overcome by the heat this afternoon while working in his garden, and has turned over all of his garden interests to his wife.—Acheson Globe.

**A Sad Case.**  
"I suppose your baby sister cries now and then?" asked one of the neighbors.  
"Cries!" said Mary. "Why, she just seems to look on the dark side of things all the time!"—Exchange.

**YOUR OWN DRUGGIST WILL TELL YOU**

**Just So.**  
"Why do you call yourself a ton-sorial artist?"  
"It's this way," explained the barber. And then he went on to illustrate with a few cuts.—Pittsburg Post.

**Putnam Fadeless Dyes do not stain the hands.**  
Classified.  
Whenever we see a man who wears a big, flashy diamond ring we expect to hear him say "them kind" and "has went."—Chicago Record-Herald.

**DON'T SUFFER WITH ITCHING**  
My, what relief!—The moment resinol ointment touches any itching skin, the itching stops and healing begins. With the aid of resinol soap, it quickly removes all traces of eczema, rash, tetter, ringworm, pimples or other ugly tormenting eruption, and leaves the skin clear and healthy. It is equally effective for sunburn, insect bites, sores, boils, burns, red, rough hands, dandruff and falling hair.  
You need never hesitate to use resinol. It is a doctor's prescription that has been used by other physicians for the past 19 years in the treatment of most sorts of skin affection. Unlike many other remedies, it contains absolutely nothing that could injure the tenderest skin. Resinol ointment and resinol soap are sold by all druggists. Look out for worthless imitations.—Adv.

**The Retort Courteous.**  
Dr. Oliver W. Holmes was small in stature. Upon one occasion he was present at a meeting which happened to be attended by a number of very large men, thus making his diminutive size rather conspicuous in contrast. One of these men—doubtless wishing to make him feel at ease—came up to him and said:  
"Well, Dr. Holmes, I should think you would feel rather small among all these fellows."  
"I do," replied the doctor. "I feel like a 3-cent piece among a lot of pennies."—New York Globe.

**New Railroad to Coos Bay Now Seems Sure**

Sutherlin—With the filing of articles of incorporation for the Sutherlin, Coos Bay & Eastern railway at Roseburg, and the announcement that contracts for the first actual construction work would be let next week, Sutherlin had the first assurance that a new railroad, west to Coos Bay and east, eventually, to Boise, Idaho, would be built.  
It was made known here that the Musser, Roach & Weyerhaeuser timber interests were behind the proposed road. The capital stock has been set at \$500,000.  
The survey of the first 27 miles has been completed, and taps a 50,000-acre tract of Douglas fir near Sutherlin. The contract for the grading of this section will be let next week.  
Fifteen surveyors are now working running a line through the Cascade range.  
Officers and directors of the company will be elected next month.  
The announcement that the railroad would be readied practically assured Sutherlin of two new sawmills and a box factory, construction of which will start at once.  
The incorporators of the new railroad are George H. Glynn, Charles A. Stark and Charles E. Lemon, all of Sutherlin.

**Corn Is Best Crop for Silage, Says Professor**

R. R. Graves, professor of Dairying, Oregon Agricultural college, states that corn is the principal silage crop because it will produce more food materials to the acre than other crops; is easier to harvest and put into the silo than such crops as clover, oats and vetch, and oats and peas; it makes a cleaner-flavored, more palatable silage than other crops and it packs well and contains the proper amount of sugar to produce the proper amount of acid for the best preservation and for the best quality of silage.  
Corn should preferably be cut for silage when the kernels are past the milk stage and are glazed and dented and the lower leaves of the plant are turning brown. Besides making a more acid silage, immature corn is not so nutritious as more mature corn.  
The New York experiment station found that corn in the silk stage contained 890 per cent more dry matter than when in the tasseled stage, 30 per cent more in the milk stage than in the silked stage, and 55 per cent more in the glazed stage than in the milk stage. Immature corn is poor food whether fed green or put into silo.

When corn is frosted before it has reached the desirable stage of maturity, it should be put into the silo at once. If left standing in the field for any length of time after frosting, water should be added to replace that lost by evaporation. Very dry corn put into the silo without adding water is likely to mold, or "fire-fang."  
Where possible, it is advisable to crop legumes for hay and grow corn for silage, but it often happens in Western Oregon that the weather conditions are unfavorable for curing hay at the time when the crop is ready to cut. In this case, the crop may be put into the silo and if cut at the right stage and extra care is taken to pack the silage thoroughly, a very palatable feed will be had. Owing to the high protein content of legume silage, it is difficult to keep. This can be overcome largely by adding to the legume crops such as rye, which contains sufficient sugar to afford the production of enough acid to prevent the protein content of the legume from decaying. The rye should be mixed with the legume in the proportion of two-thirds legume and one-third rye.

**Naturalist Says Flies Will Swarm Next Week**

Eugene—On or about August 9, the swallows will leave Oregon. Then look out for flies. This is the prediction of Dr. C. F. Hodge, the naturalist at the university of Oregon, who has spent more than a year in the state studying biological conditions and their effect upon living conditions in Oregon.  
Dr. Hodge's students are conducting a fly census or survey of the city of Eugene, which is the only place in the state in which an anti-fly sanitation campaign has been conducted or for more than one year. In this, the second summer of Dr. Hodge's work, Eugene has been so nearly flyless that the city health officer felt able to state that there was scarcely enough breeding stock left to supply Eugene with flies next year. This Dr. Hodge believes is too strong a statement. He says the preventative work has been good enough to have considerable effect with the help of the swallows, which are the busiest fly catchers, but that when they leave there has got to be a more thorough cleaning up or old fly conditions will be repeated.  
Nineteen other cities started anti-fly work this year but none of them has approached success so closely as Eugene. Dr. Hodge believes, however, that the educational work has been sufficient to furnish a good basis for satisfactory elimination next year.

**Jackson County Fair Set for September 9 to 12**

Medford—Great preparations have been made for the Jackson County Fair, which will take place here September 9 to 12, inclusive.  
Special efforts are being made to obtain a record number of exhibits. Premiums offered for fruit and stock total \$2500. One exhibit, which is to be sent to the Panama-Pacific exposition, will be made up of more than 500 products taken from one farm, that of D. M. Lowe, of Ashland. It will include 50 varieties of corn, 100 varieties of fruit, 30 varieties of grains never before grown in the United States, and many other products.  
Space is to be allotted for exhibits of ungraded fruits. Growers are being urged to bring in fruits of this character and submit them for expert examination. Varieties exhibited will be named by competent fruit men. The exhibition of other varieties of fruit than those listed also is invited, and if funds will allow, premiums will be awarded. A special program will take place September 10, 11 and 12. The purses for the various events total \$2400. In addition to the racing, aeroplane flights and a Wild West show will be attractions.

**Valley Exhibit at Panama-Pacific Seems Sure**

Salem—That Willamette valley products will be well represented at the Panama-Pacific exposition was assured at a meeting of the Willamette Valley Exposition association. Members reported that much headway had been made in their sections toward obtaining exhibits and that the people were deeply interested in making the best showing possible.  
George M. Hyland, director of exploitation of the state committee, announced that he had made arrangements for the construction of booths so that all parts of the state would have plenty of space.  
Those at the meeting were, A. O. Sarff, McMinnville; N. E. Britt, Newberg; H. Dunsmore, Independence; H. G. Campbell, Dallas; C. A. Murphy, Corvallis; Chris Myhre, Junction City; C. H. Stewart, Albany; E. C. Roberts, Lebanon; L. D. Pettijohn, St. Paul; Fred S. Byson, Salem; and O. E. Freytag, Oregon City.

**Fires Raging Near Baker.**

Baker—Forest fires are reported from the Burnt River section and from the Elkhorn mountains, to the west of Baker. Forest Supervisor Palmer is out with a force of men fighting the flames, which have not gained much headway. In the Elk Horns the fire is eating into valuable green timber, but in the Burnt River section nothing except second-growth and small trees are endangered at present. No reports have been received of any farmhouses being destroyed, although several ranches are in the district.

**Show Samples Gathered.**

Oregon City—The work of preparing the fruits and grains for the San Francisco exposition to represent the Willamette valley is progressing rapidly. O. E. Freytag, publicity director of the Oregon City Commercial club, is in charge. Dozens of jars of fruits and small vegetables are prepared and the grain is being dried out. Wheat, oats, several varieties of hay and many other grains are in the collection. One sample of wheat measures nearly eight feet.

**Roseburg Out for War.**

Roseburg—"Railroad Day" was observed in Roseburg to prevail on voters of the city to sign the initiative petitions authorizing an amendment to the charter of Roseburg and providing for the issuance of railroad bonds in the sum of \$500,000. The election will be held in Roseburg October 5. The bonds are to be sold to a bond house or corporation, but not until the railroad from Roseburg to Marshfield is completed and in operation will the money be turned over to builders of the road.

**Auto Trade Shows Gain.**

Salem—That the automobile business is making large gains in Oregon is reflected by a report issued by Secretary of State Olcott, which shows that \$72,646 has been received as fees for automobiles, motorcycles, chauffeurs and dealers to August 1. The total received last year was \$56,573. In 1912, \$42,994 was received. Up to August 1 last year only \$52,013.50 had been collected. The fees received in July this year aggregated \$3535.50.

**First Seed Wheat Sold.**

Baker—The first wheat of the season was sold by J. H. Myers, when he brought in 300 bushels of the Turkey variety from the machine and disposed of it to a seed company for 70 cents a bushel. The wheat was of the finest quality and brought the top price of the market. Harvest is now on in full blast in Baker county and about 50,000 bushels of early wheat will be on the market in a few weeks.

**NORTHWEST MARKET REPORTS.**

Portland—The war scare in Europe and the higher prices in the foreign markets was the cause of a considerable flurry in the Northwestern wheat markets. Several buyers jumped into the market and by raising their bids found a good many farmers willing to let go. It is not known how much wheat changed hands, but the quantity was considerable. The buying was on the basis of 75 to 80 cents for club.  
Local butter prices were advanced 2 cents to the 30-cent basis for prints. All the creameries did not join in the advance, but the new price may be general this week. At the same time, some of the city creameries raised their buying price of butter fat to 29 cents. There has been a seasonal decline in cream receipts, and at the same time an increase in the demand for butter is reported.  
Several sales of 1913 hops were reported, the first business of this kind done for some time past. The Stephenson lot of 44 bales, and a 59-bale lot at Hubbard changed hands at 12 cents. There was a rumor that two large blocks of Independence hops, one amounting to 1400 bales and the other 600 bales, were sold. The price was reported at 14 cents, and the deal was said to have been negotiated at London. No business is passing in the 1914 crop.  
There was a heavy supply of nearly all kinds of fruit on the street and business was brisk.  
Oregon peaches sold at a range of 25 to 60 cents, according to quality.  
Wheat—Track prices: Club, 79¢; 80¢ per bushel; forty-fold, 80¢/81¢; bluestem, 83¢; red Russian, 78¢; Turkey red, 81¢; valley, 81¢.  
Milfeed—Bran, \$23.50 per ton; shorts, \$26.25; middlings, \$31.  
Oats—No. 1 white milling, \$22.50 per ton.  
Barley—Feed, \$21 per ton; brewing, \$22; rolled, \$23.50.  
Hay—Old timothy, \$16.17; new crop timothy, 13¢/15¢; grain hay, \$10; alfalfa, \$12.  
Corn—Whole, \$35 per ton; cracked, \$36.  
Cattle—Prime steers, \$7 @ 7.50; choice, 6.75¢/7¢; medium, \$6.25¢/6.50¢; choice cows, \$6.65¢/6.75¢; medium, \$5.50¢/5.75¢; heifers, \$6.25¢/6.50¢; calves, \$6.65¢/6.75¢; stags, \$4.50¢/4.75¢. Hogs—Light, \$8.85¢/9.50¢; heavy, \$7.95¢/8.50¢.  
Sheep—Wethers, \$4.64¢/4.75¢; ewes, \$3.25¢/4.25¢; yearlings, \$4.50¢/5¢; lambs, \$5.50¢/6¢.  
Hops—1913 crop, 12¢/14¢; 1914 contracts, nominal.  
Wool—Valley, 18¢/20¢ per pound; Eastern Oregon, 16¢/20¢; mohair, 1914 clip, 27¢.  
Casaca bark—Old and new, 4¢ per pound.  
Grain Bags—In car lots, 8¢/8.5¢.  
Vegetables—Cucumbers, 75¢ per sack; eggplant, 15¢ per pound; peppers, 10¢/12¢; radishes, 15¢/17¢ per dozen; head lettuce, \$1.75 per crate; artichokes, \$1 per dozen; tomatoes, 60¢/65¢ per crate; spinach, 5¢/7¢ per pound; rhubarb, 20¢/30¢; cabbage, 14¢/20¢; peas, 5¢/6¢; beans, 4¢/6¢; corn, \$1.35¢/1.50 per crate.  
Onions—Walla Walla, \$2.50 sack.  
Green Fruits—Apples, old, \$1.61¢/1.50 box; new, 75¢/81¢/50¢; apricots, 75¢/81¢/50¢; cantaloupes, \$1.75¢/2 per crate; peaches, 25¢/75¢ per box; plums, 75¢/81¢/50¢; watermelons, 1¢/1.5¢ per pound; casabas, \$2.50 per dozen; pears, \$2 per box; blackberries, 75¢/90¢ per crate; grapes, \$2/2.25.  
Potatoes—Oregon, new, 1¢ per pound.  
Eggs—Fresh Oregon ranch, case count, 23¢/23.5¢ per dozen; candied, 26¢/27¢.  
Poultry—Hens, 14¢/15¢ per pound; springs, 16¢/17¢; turkeys, 20¢; dressed, choice, 25¢; ducks, 10¢/11¢; geese, 10¢.  
Butter—Creamery prints, extra, 27¢/30¢ per pound; cubes, 21¢/24¢.  
Veal—Block, 11¢/11.5¢ per pound.  
Lard—Fancy, 13¢/14¢ per pound.

**Triumphs of American Medicine.**

In 1914 medical science will save 570,000 lives in the United States, as a result of the progress that medicine has made in 24 years. Applying to the whole country the death rate that obtained in 1890 this year would witness the death of 1,960,000 people. Applying the death rate of 1912 the total number of deaths will approximate 1,200,000 people. Enough people to populate a city like Baltimore will be saved in a single year by the progress of medical science. The whole world was stirred to the core when the Titanic went down, and yet the toll of 509 Titanics would not be as great as the number of lives saved in a single year by medical science, comparing 1890 with 1912.—Washington Post.

**Europe Prepared**

**No Hope for Peace Seen in New Diplomatic Negotiations.**  
**Communications Cut Off Between Countries, Trains Halt and Censorships General.**  
London—An extraordinary council of ministers held at Peterhof, according to a St. Petersburg dispatch to the Times, was confronted Saturday night with a modified situation, resulting from assurances by the German ambassador, following messages exchanged between the Russian emperor, the German emperor and King George.  
The impression among the ministers, the dispatch adds, is that Germany is disposed to bring influences to bear upon Austria to resume diplomatic conversations on grounds acceptable to the other European powers, and there seems some hope of a compromise.  
London—There are only two factors giving the faintest hope of averting a general European war.  
First—Russia and Austria are engaged again in direct negotiations.  
Second—Both Great Britain and France are using their utmost endeavors in favor of peace.  
On the other hand, Russia has ordered a general mobilization and Ger-

**THREE "WINNERS"**

**A STRONG STOMACH LIVER ACTIVITY BOWEL REGULARITY**  
It is impossible for you to be strong and robust—to be able "to win," if you do not possess these three essentials; but there is a splendid opportunity, with the assistance of  
**HOSTETTER'S Stomach Bitters**  
to restore these organs to a normal condition and thus promote health and strength—Start today.  
He Would Find Out.  
Henry Irving, in his early days, once played a part which in the first act called for a dark stage. In this darkness he fought with an old earl, threw him heavily and, when he did not rise after the loud thud of his fall, Irving would cry out:  
"Great heavens! What have I done?"  
One night he played the part in a small English town. A stage hand was very much impressed with the play and to him the scenes quickly became real. So that when Irving reached the climax, felled the old earl to the ground and spoke the line, "Great heavens! What have I done!" he was startled to hear the stage hand say a loud voice:  
"Strike a match and we'll have a look."—New York Globe.

**THINK OF THE MILLIONS**

that have been relieved in the past 75 years by Wright's Indian Vegetable Pills and decide whether they are not worth a trial. They regulate the bowels, stimulate the liver and purify the blood. Adv.  
"Bobbie, why did you take your little sister's candy and eat it? Why didn't you ask her if you could have it?"  
"Why, I did, mamma, and she said I couldn't."—Boston Transcript.  
"There was a young woman of Worcester, Who won much fame as a borester. When asked why such praise Always filled all her lays, Said: 'A chicken can crow like a borester!'"  
After 33 years of continuous service as a trustee of Columbia University, Seth Low has resigned. For 10 years of this period, from 1899 to 1909, Mr. Low was president of the university.  
Ants have been found in Dalmatia that actually make bread by chewing sugar into pulp, forming it in loaves, baking them in the sun and then storing them away for future use.  
He's away on his vacation. That most important man, Funny how the shop keeps open, Without his brain to plan!  
Many a man has his hands open to receive the girl of his choice only she objects to going into the hands of a receiver.  
That shooting of police by police in Chicago was uneventful. They didn't hit a single innocent bystander.  
Ice men are threatened with arrest. But the charges will probably melt away before they get into court.  
President Wilson was downed by a dinner. Even old man Huttera bit more than he could swallow.

**KAISER WILLIAM Orders State of War in Germany.**

many has declared a state of siege, which is undoubtedly a prelude, if it does not cover, mobilization.  
France has not yet mobilized, but cabinet councils, which sat until late at night, issued decrees establishing a moratorium and taking other action which could only be determined upon the eve of war. Unofficially the French army is being virtually mobilized.  
A circumstantial, though as yet unconfirmed report, published in Rome, says that Germany is about to demand from both Russia and France the immediate cessation of mobilization. Yet another rumor has it that the German ambassador has notified the French government of his departure.  
Great Britain is practically, though not officially, mobilized, and the smaller European states, as a precaution, have ordered the mobilization of their armies—Belgium, Holland and Switzerland, to protect their territory from being used as a highway for the belligerents; Norway, Sweden and Denmark to guard themselves on general principles.  
**Noted Socialist Leader Is Slain in Restaurant**  
Paris—Jean Leon Jaures, the noted Socialist leader, was assassinated Saturday night when dining in a small restaurant near the bourse. The assassin was arrested, but refused to disclose his identity. Later he was identified as Raoul Villain, 29 years old, and said to be the son of a clerk of the civil court at Rheims.  
The minister of the interior, Louis Malvy, on learning of the crime, left the meeting of the council and ordered precautions to be taken to prevent demonstrations.  
M. Jaures was seated at a table near an open window, facing the Rue Montmartre, chatting with several Socialist deputies and the editors of the "Humanite." As though by prearrangement, the curtain covering the window was lightly brushed aside and a hand, holding a revolver, was thrust through.  
Before M. Jaures could move he received two bullets in the head.

**All Dispatches Refused.**

Berlin—All dispatches refused by the authorities as objectionable are now being returned to the senders, and a rigid censorship on telegrams to all parts of the world has been put into operation. Official confirmation of the reported blowing up by Russian troops of the railroad bridge between Galicia, Russian Poland, and Szozakawa and Gallecia, on the railroad from Warsaw to Vienna, was received here. Crown Prince Frederick William of Germany was appointed to the command of the First Division of the Imperial Guards.  
**Japan to Hold Off to Last.**  
San Francisco—"Japan will be the last nation to enter the vortex that is now threatening Europe," said Y. Numano, Japanese consul general at San Francisco, at a luncheon given by officials of the Panama-Pacific exposition in honor of Haruki Yamawaki, Japanese commissioner general. Crown Prince Frederick William of Germany was appointed to the command of the First Division of the Imperial Guards.

**Make Demand Forcible Don't Be Trifled With**

Ask for S. S. S. and Don't Stand for the "Just as Good" Talk.  
Too many people are ruled by the shortest cut to the bargain end of a dollar. For that reason they tempt a clerk to swip them  
Perhaps he thinks he is telling the truth, but he has one eye on the cash register and another on the extra profit. Instead of S. S. S. it is your only safeguard against the cheap mineral stuff that can be put up in any cellar by any chemist.  
There is not a medicine for any purpose more carefully made than S. S. S. It represents the highest type of medicine. Its medical properties are just as essential to well balanced health, if the blood be dry, as are the nourishing elements of meats, grains and sugars of our daily food. S. S. S. is prepared direct from native botanical material. Not a drop of drug is added. Not a drop of mineral is used. This is one of the most important things to know and to remember when your blood needs attention.  
It is the most effective, the purest, the quickest and most reliable medicine known for poisoned blood, rheumatism, external infections, malaria, skin diseases, old sores and all afflictions that show in the blood, skin, joints and muscles.  
An "overload" of blood in the blood is mailed to those who write. Get a bottle of S. S. S. today. It is the world's greatest medicine. Insist upon the dealer handing you S. S. S. and don't let him swindle you about something that can't advertise as free from lard or potato and other destructive impurities.  
If you have trouble getting S. S. S. write to The S. S. S. Co., 1200 East Third St., Astoria, Ore., for list of square deal druggists.

Too many people are ruled by the shortest cut to the bargain end of a dollar. For that reason they tempt a clerk to swip them  
Perhaps he thinks he is telling the truth, but he has one eye on the cash register and another on the extra profit. Instead of S. S. S. it is your only safeguard against the cheap mineral stuff that can be put up in any cellar by any chemist.  
There is not a medicine for any purpose more carefully made than S. S. S. It represents the highest type of medicine. Its medical properties are just as essential to well balanced health, if the blood be dry, as are the nourishing elements of meats, grains and sugars of our daily food. S. S. S. is prepared direct from native botanical material. Not a drop of drug is added. Not a drop of mineral is used. This is one of the most important things to know and to remember when your blood needs attention.  
It is the most effective, the purest, the quickest and most reliable medicine known for poisoned blood, rheumatism, external infections, malaria, skin diseases, old sores and all afflictions that show in the blood, skin, joints and muscles.  
An "overload" of blood in the blood is mailed to those who write. Get a bottle of S. S. S. today. It is the world's greatest medicine. Insist upon the dealer handing you S. S. S. and don't let him swindle you about something that can't advertise as free from lard or potato and other destructive impurities.  
If you have trouble getting S. S. S. write to The S. S. S. Co., 1200 East Third St., Astoria, Ore., for list of square deal druggists.

**Make Demand Forcible Don't Be Trifled With**

Ask for S. S. S. and Don't Stand for the "Just as Good" Talk.
