Will the owner of a belted, yearling, red bull, please help to round up the critter, from the premises of P. F. Standish in Garfield? The said bull broke down a fence and has been doing the nimbler act, for the past few days, around the neighboring orchards and the adjoining woods. All attempts to drive the animal onto the road have proven fruitless and nothing short of a well mounted cowboy, or a good 30 to rifle will corral the beast.

**"Hawley is a Man of the people"**  
So states—Editor of the Lebanon Courier.

One of the strong reasons why the Democrats are so anxious to defeat Congressman Hawley is that the Oregon Congressman is a thorn in the flesh to the Democratic majority in the lower house of the National Congress, and they would do away with him. He is not amiable to the administration and they want to fill his place with a man that will bond the knee when the finger of the congressional trust beckons. Hawley is a man of the people with the courage of his convictions and they want a man who will follow and ask no questions.

Mr. Dillon of the Franklin High School faculty, was an exceptionally fair referee, and showed no favoritism. Aside from some unnecessary remarks from the rooters, no signs of fault finding was made by either side. The biggest benefit from athletics is the making of "good sports," whether winning or losing.

# Foot Ball

The Estacada High School football team will play a game against the Washougal High School team next Saturday, at 2:30 P. M., on the Estacada athletic field.

A good, big crowd of enthusiasts witnessed last Saturday's game, against Franklin High School and they certainly received a good run for their two bits admission price. The Franklin team won by the score of 20 to 6 and won by playing better football, with less fumbling and more ground gaining.

The Estacada team is made up largely of boys, who, until this season, have never played the game and the team deserves credit for the good showing made.

At the start, the Estacada team was played off its feet and the opponents quickly scored, but after the first score, Estacada got over its slight stage fright and by clean, good foot ball, tied the score. Neither side succeeded in kicking a goal on their first touchdown, although both were easy positions to kick from.

During the remainder of the game, Estacada was largely on the defensive, and were unable to check the ground gaining of Franklin's star half back, who was a speedy and heady player. Aside from this one Franklin star, Estacada showed equally as good training and team work.

Allowances must be made for this early season game and with the present material, there will be few scores made against them in future games, if they stick to good team work and practice.

Estacada's weakest points were in the fumbling of the ball and poor tackling. Owing to the withdrawal of Frazier, from quarter-back, it handicapped Estacada. Barr and Dale, or whoever will play quarter, should get together and put in hours of practice in snapping and holding the ball without fumbling.

Both teams were "butter fingered" when it came to catching punts or holding the ball tight. There was too much time wasted, in the interim between the snap back, until the ball was in the hands of the runner, and the passing from quarter to the runner was too open and easy for the opponents to see. The ball should be slammed or soaked into the arm of the runner in such a way that the runner knows he has it, if only from the dent in his anatomy, and the whole team should be under way during the passing of the ball.

Much ground was lost by Estacada, because of high tackling, which allowed the runner to cover from one to two yards before being downed. Practice and nerve will overcome this fault, but a runner tackled just above the knees, makes no headway, other than his length in sprawling.

The Estacada team makes a fine appearance in their uniform style of jerseys and with steady practice will make equally as good looking scores.

Womer and Gard, playing right-halfback and end, were easily the star ground gainers, but as is usual, the backs have a better chance to star, than the man in the line, but every man in Estacada's line played a good game and more than held his man.

In several cases, opposing line players paid too much attention to their personal rivalry, and in one or two instances, resembled fighting cocks on the field, after the play. "Hold your man," is a good lineman's motto, but don't forget that combined team play is the real success of the game.

The High School was certainly well encouraged by the consistent rooting and yelling from the side lines, with a preponderance of high soprano voices.

The line up for Estacada was:  
F. B.—Reed  
L. H.—Denny  
R. H.—Womer  
Q.—Dale and Frazier  
R. E.—Harkenrider  
L. E.—Gard  
R. T.—Tracy  
L. T.—Wagner  
I. G.—Schmidt  
R. G.—Trollinger  
C.—Barr

Recall Fails

The recall petitions against Uncle Billy Matoon have finally petered out, as the required number of signatures, to insure the recall being brought up at the next election, were not obtained.

With this failure, Clackamas county should quit the promiscuous agitation of the recall and give a little more encouragement to the county court and a little less knocking.

In the majority of cases, the recall is instigated by some party or parties, who desire to help themselves personally, or to gain revenge, rather than to improve conditions.

Adherence to political parties in the choice of a county court for Clackamas county, should be overlooked. Voters should choose the man for the work and consider his adaptability for the work, his previous experience and upright character.

Eastern Clackamas county knows that there has been more good work done in the matter of road and bridge building under the regime of the present county court, than had been accomplished by a half dozen of their predecessors. The George and Barton bridges speak for themselves and the saving in cost to the county, on the George bridge, as compared with the lower Eagle Creek structure, shows economy in the spending of the tax payers' money.

Talk of a special election at a future date, to recall part of the court, is foolishness. The cost of one special election, would build miles of roads, and we still need a few miles more.

The present county court is doing able work and voters should vote to retain Judge Anderson and Commissioner Smith, and forget the party lines. Their opponents may be able men, but a change is not needed, for these two men were the choice of the people at the former recall and they are making good and will continue to do so.

# A Campaign Suggestion

The editor during his recent exhibit pilgrimages through other parts of Clackamas county and at the State Fair, had the opportunity to gain a slight personal acquaintance with many of the candidates for the various county offices and last but not least, met many of their wives.

As a suggestion, it would be a good policy for some of the candidates to take their wives along with them, on their stumping tours. The average voter does not know many of the candidates personally and depends on hearsay and their judgement of the candidate when seen. Probably the candidate's "better half" could not be induced to make a speech, but a good, intelligent looking wife, is a good index as to the husband and many of the male as well as the female voters would be favorably impressed. If Judge Anderson of the County Court could persuade Mrs. Anderson to accompany him, it would not be necessary for him to make many speeches and the same would apply to other candidates.

Dr. Morse also tests eyes and fits glasses. Office over drug store.

# Our Candidate

It is not often that the local voters, get a chance to vote for a local candidate, as the farmers of eastern Clackamas are not given towards political leanings, but we now have a chance to vote for one of our own men, in the person of Guy T. Hunt of Garfield, republican candidate for the legislature. It should not be necessary to urge his candidacy, for we know him, his record and his work. The Garfield country club and miles of good roads, will speak louder for him, than all of his speeches and he should carry this part of the county unanimously.

# Why Destroy the Industrial Progress of Oregon?

That's what the so-called "Water Front" bills, Numbers 328 and 330 on the ballot, will do if passed at the November election.

Why make it impossible to build sawmills or any other industrial, labor-producing plants on the rivers and bays of Oregon?

That's what the passage of these bills will do.

Why cripple the development of our great timber resources; why cripple all future manufacturing in Oregon?

That's what will take place if the people vote "yes" on numbers 328 and 330.

Why lock up the thousands of acres of over-flow lands bordering upon the navigable waters of the State and its miles of water front for the benefit of "future generations," why not let the present generations have some of the benefit from the use of these lands?

Industries of all kinds will be driven from Oregon and intending investors will turn their backs upon the State if these so called "Water Front" bills become laws. That is why every man, woman and child in Oregon will be adversely affected if these bills are passed by the people in November.

Oregon needs outside capital to develop its great natural resources but we will drive it away if we pass Number 328 and 330 on the ballot at the November election.

If these so-called "Water Front" bills are passed by the people, a vast amount of property will be withdrawn from taxation in this State and this great burden will be thrown upon the rest of the taxable property, resulting in a heavy increase in everybody's taxes.

These bills are vicious; they are destructive of the very best interests of the State; they ought never to become laws.

The way to defeat them is to vote "NO" 329 and 331.
