Eighth Carload Shipped

Buyer Lucke, last Monday noon, shipped the eighth carload of livestock from the Estacada Stock Yards, since the opening of the yards in December. This carload comprised about 70 hogs and 4 head of cattle, and brought the raisers of the stock about \$1,000.

Few people realized at the time the yards were built at Estacada, that there was such a steady supply of livestock to be shipped from this section, as the fall crop of hogs had already been marketed before the yards opened. Indications point to a continued shipping of a carload every other week, as the spring hogs will soon be ready.

At Canby and other points, June and July have been heavy months for the shippers, as the experienced growers realize that hogs can be grown on green feed during those months and fattened or topped off with grain before selling, and the summer months' prices are always high.

Owing to the time necessary for buyer Lucke to look over some of the stock, especially cattle, on the farms before buying, the growers are requested to notify this office as far in advance of shipping date as possible. Several calls which were received here Saturday and Sunday were too late for last Monday's shipment.

Suggestions Wanted

The Progress wants suggestions and criticisms from its readers. Don't be backward about making them, for it is the only way that the paper can be improved and made to fill the needs of this part of the county.

If there is a news item in your locality, which is not chronicled in the Progress, it is because this office did not know about it. If little news from your locality is shown, it is probably due to there being no correspondent there.

Don't hesitate to phone or write in the news of your family or neighbors. Advise this office of parties visiting at your home, of illnesses, deaths, births, social or church doings, improvements or other developments in your neighborhood.

Get in the habit of feeling that the Progress is your neighborhood news medium and through its columns advise the other districts of your weekly doings.

While it is customary for most newspapers to charge for announcements of entertainments, dances, socials and the like, the Progress feels that these announcements are of news value and consequently wishes to print them and free of charge, except

WHY NOT A PLOWING MATCH?

Lane County Planning on Such Contest

One of the granges in Lane county is planning a plowing match, to be held in the near future. These contests have been held in the Middle West, but are more or less new to this part of the country. Valuable prizes are often given by the merchants and implement companies.

Such contests as plowing or other similar work would prove a big attraction as compared with the usual running races and similar sports, held at our local picnics.

Free Movies Again

Beginning Saturday afternoon, March 13th, the Family Theatre in Estacada will be thrown open to the visiting public, as previously. The four weeks' trial demonstrated to the merchants of Estacada that such an innovation was a good paying proposition. 1: to 4:30 p. m.

in some cases of private individuals, who are giving entertainments for personal gain.

In dealing with advertisers, it will be greatly appreciated by both the advertiser and the publisher if you will mention having seen their advertisement in the Progress.
