"	7 Mr. Sarver

Balance of Zobrist Addition is largely vacant and B. F. Ford in charge of school children, is asked to handle this.

CLEAN UP DAY POSTPONED

New Date Wednesday April 14th

C. I. C. Promises Big Dinner

So as not to conflict with the opening of the base ball season in Portland, April 13th, Clean Up Day will occur, the day after.

The following committees were appointed at the meeting held last Friday night: Mrs. A. K. Morton, Ed. Allen and Dr. Adix will secure a convenient dumping place for non-burnable refuse. U. S. Morgan, W. A. Jones and W. B. Simmons are in charge of the obtaining of the wagons and teams and Irwin D. Wright is to locate a spot for the big bonfire, which will end the celebration by destroying all of the burnable refuse. R. M. Standish is in charge of the soliciting of financial aid from non-resident property owners. Reports from these committees will appear in due time.

The ladies of the C. I. C. are distributing the "I Work Clean Up Day" ribbons and everyone is wearing them, and last, but not best of all, the C. I. C. promises to serve a fine hot dinner to all of the workers that day, and there is a strong likelihood of its being a real chicken dinner.

B. R. Kimmel, John Osborn and the editor, as a committee, have divided the city into blocks, for the systematizing of the work and have selected the following captains, who are asked to take charge of their respective districts to organize their neighbors and make a thorough job of the Clean Up. These captains will be furnished with dinner tickets which they will give to all who worked on Clean Up Day.

Clean Up Day can be greatly simplified if every property owner will clean up his or her property, previous to the 14th, then all can give their attention to united cleaning of the streets, alleys and terraces and if everyone has their tin cans and refuse in piles, bags or barrels, the hauling away can be greatly expedited.

There is no doubt but that every man, woman and child in Estacada will do his or her share of the work on that day, but all should wear a "I Work Clean Up Day" ribbon in the mean time, and woe unto anyone found loafing on that day.

The respective block captains are requested to call at the Progress office a day or two before Clean Up Day and get their supply of the Dinner Tickets. The dinner alone will probably be worth a full days work, and may incapacitate the laborers or handicap the afternoon's work, if the job lasts that long.

Each captain should get his forces together in advance to lay out the work. In many blocks there will not be much work to do, and in others, especially in the business district, there will be an extra amount, so when one block is finished, added help should be given to others.
