Multnomah's road bonds carried by a majority of about 3 to 1 and that county is now assured of a net-work of good hard-surfaced roads. It is possible that Clackamas county could pass a similar bond issue, providing the division of the roads to be constructed, was fair and equitable and an educational campaign preceded the election.

According to county assessor, Jack, the Portland Railway, Light & Power Co.'s assessed valuation of \$5,219,616, comprises over one-sixth of the total assessed valuation of the entire county and this corporation will pay \$137,000. in taxes this year. The total taxable property of the county amounts to \$30,375,139.81.

The trading stamp law, which becomes effective May 22nd, is one of the most beneficial merchandizing measures of the past legislature. It provides for an excise tax of 5% of the gross

sales. The merchants will probably appreciate this relief from being more or less forced to fight competition by furnishing trading stamps and the buying public will hope to benefit in a slight lowering of prices, at least sufficient to offset the value of the stamps.

The State Livestock Board has recently placed a quarantine on this county, in its fight to exterminate the spread of rabbies among dogs and cattle. No one would feel that their rights were being imposed upon if the muzzling ordinance is enforced or if the authorities kill unmuzzled or diseased dogs. Why should not the feeling towards the enforcement of the fruit inspection laws be as readily accepted, with one a disease of animal life and the other of vegetable?

Taking upon itself that virtue which comes from having successfully held a Clean Up Day, a suggestion has been made by local citizens that the various road districts could well afford to hold a similar Clean Up along their roads. One day's labor would greatly improve the country roads, where rubbish, branches and remains of blasting operations are an unsightly nuisance. The traveled part of our country roads are fine, but a little work along the sides would greatly improve their appearance.

Mayor Adix has requested the Progress to ask for volunteer labor for one day, to work on the Boring hill. Undoubtedly the people in that vicinity and many others would gladly help repair that stretch of highway, which is proving a hindrance to automobilists and others driving on that side of the river. Advise Dr. Adix if you will help.

Nothing has been heard lately of that Union High School petition down Currinsville way!

**Welcome Announcement**

Elsewhere in this paper will be found the first announcement of the new store which will be in operation in Estacada within the next thirty to forty-five days.

For sometime past, negotiations have been under way to get together a company of local men, whose interests are closely allied to the growth of this part of the county, with a view to organizing such a high class mercantile establishment.

The aims of the new store will be to perfectly fill the needs of this community, to furnish an up to date trading center, not conflicting with present merchants, to effectively counteract the tendency for mail order and foreign buying, and to keep the home money at home, where it will do the most good.

The buying public will welcome this new store and with the Progress wishes it the success and prosperity, which these enterprising citizens deserve.

**Work Begun In Earnest**

Contractor Otto Copenhagen, in charge of the construction work on the South Fork pipe line, reports the establishment this week of five or six camps, with about 70 men now employed. The camps are located as follows: South side of the Clackamas at the Upper Dam site, North Fork, South Fork, and three camps between Estacada and Clear Creek.

Work at present is confined to clearing the right-of-way and preliminary work on the tunnels above North Fork.

F. N. Cadanaugh of South Estacada has contracted to handle the clearing for about 900 feet of the right-of-way in the vicinity of his property and Adlon brothers will handle a similar stretch from the county road south across the flat.

**Cow Owners Notice**

R. M. Townsend, property agent of the P. R. L. & P. Co., wishes to notify all owners of cattle, who have been pasturing same in the Estacada Park, to stop the practise at once, for the property is private and cattle found within the confines of the park hereafter will be dealt with according to law.
