

THE OLD TAR EXPLAINS TO THE GOOD JUDGE

IT'S just as natural for a man to sing the praises of the *Real Tobacco Chew* as it is to look at a beautiful woman.

"Right-Cut" is made from the finest mellow, rich leaf tobacco—seasoned and sweetened just enough.

New cut, short shred, so that you can get all the good of it.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Many Cows Ill

A serious epidemic of "bloody murrain" as it is technically called, is current among many cows in this part of the county. Already several cows, including two belonging to Geo. Armstrong of Garfield, one to F. J. Harkenrider and one to Mrs. Matt Patterson of Estacada, have died.

This disease is supposed to be caused by a parasite which infests green feed after a prolonged rainy spell and is taken into the stomach of the cow, causing a fatal form of dysentery. The disease is catching and all precautions should be taken to quarantine the sick animal.

Born, June 25th. to Mr. and Mrs. Maurice Laing of Garfield, a son.
