

THE CABBY IS GLAD TO GET THE GOOD JUDGE'S TIP.

**IT'S** a glad day for a tobacco chewer when he finds *the Real Tobacco Chew*. And when a man uses it himself, finds how good it is, he takes pleasure in letting his friends hear the good news.

You get the tobacco solace and comfort.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!!  
W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind

“Notice how the salt brings out the rich tobacco taste.”

## Dodge Brothers Motor Car

Full of Snap and Life

It seems so eager for the road that you are unmindful of distances. It gets away instantaneously. It skims the road silently and smoothly, without motor vibration or sidesway at high speed. Its flow of power is so abundant—its steadiness and comfort so pronounced—and its cost of operation is so low, that its use is both a satisfaction and an economy.

Price  
**\$885.**

A demonstration anytime gladly given.

**Clackamas Garage**

Estacada, Oregon  
J. R. Morrow, Prop.

Mr. and Mrs. G. W. Pogson of Pittsburg, Kansas are visiting for a few days at the home of their old friends, Mr. and Mrs. Walter Givens of Estacada. Mr. Pogson, who is the Grand Potentate of the Shriner's at Pittsburg, was a delegate at the recent Seattle convocation.

The condition of some of Estacada's sidewalks is deplorable and it is likely the council will have to pass an ordinance to force some of the property owners to make necessary repairs.

Mrs. Luella B. Kimball of San Diego, Calif. spent last week at the home of her nephew, S. D. Dunlop of Garfield.

The W. F. Cary home on Terrace Addition is fast nearing completion, and when done will greatly add to the appearance of the town, commanding as it does a prominent and slightly location on the brow of the terrace.

R. G. Marchbank of Estacada has been suffering during the present warm spell from chronic asthma, which for a time he had supposed was cured.

A couple of expert underwriters from Portland spent last Tuesday in Estacada, looking over and adjusting the present insurance rates. A number of reductions should be made on local properties, as the present rate is exorbitant in many instances.

P. M. Wagner of Estacada, one of the contenders for weather profit honors, claims that a similar wet season appeared hereabouts twice in the past, once 17 years ago and 21 years before that. At that time the grain was laid flat in the fields and sprouted from the heads to the extent of six inch shoots. Remember Wagner is responsible for the above and as the grain has done no shooting this year, he may escape.

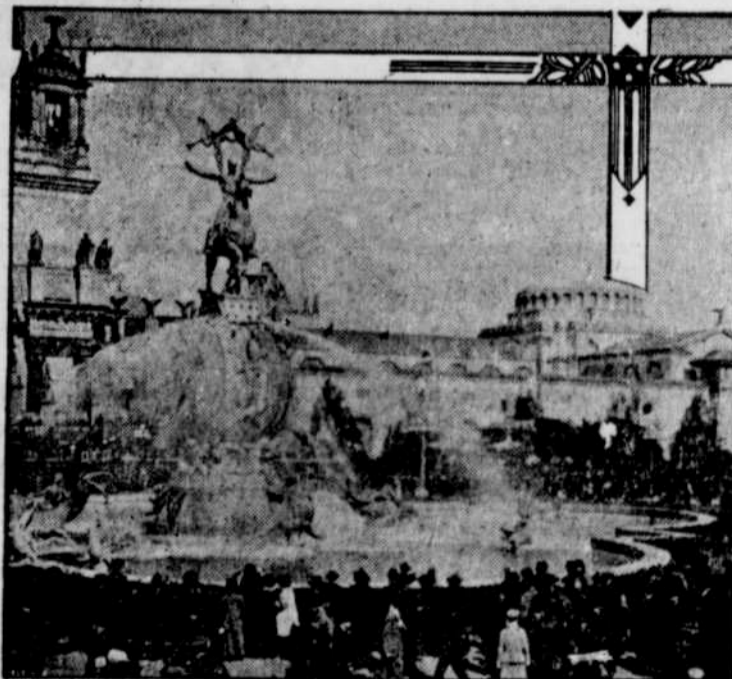

J. W. Reed and Fred Bartholomew of Estacada returned last Saturday from a week's auto trip in Eastern Oregon, having visited Heppner, Lone, Lone Rock, Congdon, The Dalles, Wasco, Hood River and other points, returning via the Columbia Highway to Portland.

Paul Morrow of the Clackamas Garage last week took Luther Henthorn, Ray Havens, Roy and Chas Linn of Estacada to Grass Valley, Or. where they will work in the harvesting.

Dr. H. V. Adix of Estacada having sold his new Dodge car last week, purchased a newer one last Saturday afternoon.

There will be a "Hard Times Social" at the Garfield Grange hall next Saturday evening. A business meeting will occur first, beginning at 7:30 P. M. Every one is invited to be present.

## Fountain of Energy When President Wilson Opened the Panama-Pacific Exposition

**T**HE Fountain of Energy when the water was released by President Wilson pressing a button at Washington on the opening day of the Panama-Pacific International Exposition at San Francisco. This fountain is the work of A. Stirling Calder and is between the Tower of Jewels and the main entrance at Scott street.
