### Mountain Auto Party

A party, of Estacada people, last Friday afternoon, started for Clackamas Lake via Government Camp and enjoyed a very pleasant outing.

So far three of the autos have safely arrived home and the balance of the party, owing to a break-down, are coming down the trail, by foot and horseback.

### Panama Canal's First Year

Starting operation under the handicap of the war, the earnings of the first year were \$224,000 over the expenses, but fall far short of paying interest, which amounts to \$12,000,000.

Doubtless a traffic increase this year will come nearer to reaching or exceeding the amount needed.

### State Road Tax

Of the \$250,000 of state money being expended this year on highways, the farmers pay about \$65,000.

Of the \$4,000,000 of county and district money being expended on roads this year, the farmer pays over \$2,000,000; yet as a class farmers are opposed to state appropriations for road building.

Oregon Voter.

### Supper Picnic

Mr. and Mrs. Walter Givens of Estacada entertained about twenty friends last Thursday evening, at a picnic supper in Estacada Park, in honor of their guests, Mr. and Mrs. G. W. Pogson of Pittsburg, Kansas.

Previous to the supper, some of the athletically inclined guests, during a quoit pitching match disturbed a yellow jackets' nest, which added "pep" to the affair. The evening was spent in the Pavilion, where games were enjoyed.

### Rebekah's Party

About 50 people were entertained at a pleasant party given by a committee composed of Mr. and Mrs. W. F. Cary, Mr. and Mrs. Earl Jones and Mr. and Mrs. Chas. Hicinbothom, at which games and refreshments were indulged in, and in connection, a kitchen shower was given to the newly married couple, Mr. and Mrs. Archie Yocum.

Prizes were given to Mrs. J. W. Reed, tallest; Mrs. Ed. Salting, heaviest; Dave Eschelman, shortest and lightest.

The Currinsville orchestra furnished some very pleasing musical numbers.

### Oregon Industrial Review

A movement is on at Canby to start a cheese factory.

The voters of Oregon are going to be asked to vote \$10,000,000 bonds for good roads. That's some money. Wonder if eastern Clackamas will get their share?

#### Where the Feed Went.

The United States department of agriculture took twenty cows and tried the effect of ticks on their milk yield. They found that cows with a light "dose" of ticks gave about four-fifths as much milk as those with none, and cows heavily infested gave less than half as much. It took just as much work to care for the tick infested cows, and the ticks took over half of their feed.

When the south quits feeding ticks and begins to feed cattle, let the corn belt look out!—Farm and Fireside.

#### Milking the Heifer.

Many a cow has been ruined during her first milking period, says the Kansas Farmer. Great care should be exercised in breaking the heifer, particularly so if she objects to being milked. It pays to be patient with the heifer. If she is unruly during the first milkings don't fight her with the milk stool. So to do would ruin her. She can be coaxed into good habits much more easily than forced into them. Thousands of heifers are now freshening in this state, and this is a good point to remember.

#### A Word For the Ayrshire.

The Ayrshire is one of the most valuable of the many good things that Scotland has given us. As a milk producer it is among the best, and the milk is rich in butter fat. As a producer of beef the Ayrshire ranks among the front of the dairy breeds.—Farm Journal.

\$2. a day. \$10. a week

## Hotel Estacada

Modern Conveniences

One of the most delightful Resorts on the Coast

Local and Tourist Trade Solicited

### Estacada and Portland

#### Daily Auto Service

via Currinsville, Eagle Creek and Barton.
