First Game Saturday

Under the able drilling and training of coach Irvine, with the assistance of the ex-star, Bob Morton, the E. H. S. foot-ball team is fast being rounded into condition for next Saturday's game against Franklin High School of Portland.

The game begins at 2:30 sharp on the athletic grounds adjoining the school. Every man, woman and child in this vicinity should witness this game, for good rooting and encouragement help to win, and a winning at the first of the season, furnishes the home team that confidence which assures continued successes.

A half dozen or more of last year's warriors are in uniform again and several promising youngsters are in training. Folsom of Springwater, Somers of Estacada and one or two others of the new talent are making a good showing and stand a fair chance of making the varsity team. Denny of 1914 fame has not returned to school yet, but is expected soon, as are also one or two other good men.

The line-up while not definitely decided upon yet, will probably comprise:-

C.	Schmidt
Q.	Frazier
L. H.	Wagner
F. B.	Folsom
R. H.	Dale
Ends	Bartlemay
	Johnson
Tackles	Courtright
	Reed
Guards	Trullinger
	Ewalt

Schimmilk is a byproduct that can be utilized at a profit for hogs, and if fed in the right proportions is worth 20 to 40 per cent as much as the butter fat. That is one reason why Holstein cows are liked by many farmers. The solids and milk sugar run as high in Holstein milk as other dairy breeds. For cheese or infants the milk is superior, owing to the smaller size of the fat globules and the better permeation in the products of the factories. A well bred cow requires better care than a grade. This is only natural. The udder of a good milk cow is not foot-proof. The feed of a good dairy cow must be properly prepared. For these reasons feed and care are more important than breeding. Cut shows Holstein bull.
