The Adelpic Boys Program which was given last Friday proved to be one of the best of the year. The Adelpic girls are beginning to realize there is a task before them if they expect to compete with the boys. The next program will be by the Websterians November 5th.

Thursday evening the Seniors and a portion of the faculty might have been seen, about 6:30, migrating to the South bank of Lake Estacada where they enjoyed a moonlight picnic. A bounteous supper was served about a big bon-fire and the evening made merry till 10 P. M. when they returned again to the ordinary routine of life.

Ester Meyers, a former student of E. H. S. visited school Monday. We are glad Ester has not forgotten her old schoolmates, but we wish she could be in school with us this year.

Friday evening, Nov. 5th the Sophies will give the annual Reception to the Freshies Green. A good time is being planned. All of the upper classmen wish they could be Freshies and Sophs again, for one night at least.

Because of the number of students in E. H. S., it has been necessary to purchase another Dictionary, so as to enable all students, to have an equal chance in looking up definitions of new words. We are now classed as a "Standard High School".

Mrs. Julius Krieger of Garfield left last week for her former home at Clayton, Ill., where she will make an extended visit among friends and relatives, probably being absent until next February.

Mrs. George Eilers and baby son of Portland are staying at the home of her mother, Mrs. N. Scheel of Bissell, where Mr. Eilers will join them later, to remain for the winter.

County's Rulings Protect Highways

In an effort to preserve Clackamas county roads, the county court has ruled that vehicles with a two-inch tire must not carry over a one-ton load, and that vehicles with a three-inch tire, not over a two ton load. No load, under this ruling, shall be over three tons and the speed of trucks is limited to eight miles an hour. The ruling was made largely in an effort to regulate automobile truck transportation between Portland and Oregon City so as to protect county roads. The regulations will be printed on substantial paper and posted along the roads.
