

Basketball Team Organized

At a meeting of the Springwater Athletic Club, November 18th, the following officers were elected:—Edgar Horner, manager; C. E. Kilgore, captain; Fred Horner, coach & referee; H. C. Inman, Secy. Treas.

The Springwater basket-ball team will hold semi-weekly practices at the Dodge Hall, Monday and Saturday evenings.

A four game series is being scheduled against fast Portland teams, the first of which will occur the evening of December 18th, at the Dodge Hall, against the Waverly Club.

Four game tickets have been issued, each ticket having coupons attached for each game. These tickets sell for 75 cents each, being on sale by H. C. Inman of Springwater and at the Progress office in Estacada.

The hearty support of the entire community should be given this aggregation of crack basket-ballers, for basket-ball; like football, helps to advertise Estacada and surrounding country.

Parent Teachers' Assn.

The next meeting of the Estacada Parent Teachers' Assn. will occur Thursday afternoon, December 9th, at the school house.

The program will be in charge of Miss Beatrice Lilly, who has arranged with Dr. Bertha Stuart, women's physical director of Reed College to act as speaker. With a musical program and other features, the meeting promises to be an entertaining and instructive one.

Cut Out The Coupon

Does it pay to advertise? That is what Walter Givens of Tracy & Givens wishes to determine exactly and especially if it pays to advertise in the home paper and to the home folks, through the columns of the Progress.

The editor knows it pays, although the returns are in exact proportion to the amount of labor expended in the preparation of the advertising copy. The editor knows the Progress is read by the big majority of Eastern Clackamas residents and thoroughly read too, judging from the returns obtained from the small want-ads.

But Walt wont believe everything the editor tells him, for some reason or other, so he has gotten up a novel advertisement in this issue, wherein he offers to give to every person presenting the printed coupon attached, any 10c package of groceries, free. He figures this little experiment may cost him from \$5 to \$10, but the editor kind of hopes it will cost fifty.

Again, it is barely possible Walt figures that by starting this little argument, he may get a little free advertising and if so, he is welcome, but it is hoped that his arm will ache handing out 10c free packages of groceries in the next few days.

You as a reader, can materially help the Progress increase the Givens & Tracy advertising to a full page for the year 1916, if you will insist that you get your free 10c package. If the Progress gets more business, you will get more good reading matter, so let's answer Walt's inquiry for once and all, within the next few days.

Other local advertisers have asked the same question and some of them are now firm believers in the policy of advertising in the home paper, for instance W. D. Henthorn's page advertisement this week.

Will Closner of Park & Closner says that the results of his first week's advertising has already paid for the Aluminum Kitchen Outfit, he is offering as a premium in the voting contest.

For some reason or other, it isn't often that an Estacada merchant will admit to the editor the direct results he is obtaining, but Harley Trowbridge, and the two Berts, (Finch and Chapman) have inadvertently let drop the fact that they get results from their publicity, and along with Ed Allen, Charley Miller and the rest, keep right on advertising and sticking by the home paper and the home town.

Mrs. Ross and two children, of Brooks, Or., are making a visit at the home of her parents, Mr. and Mrs. Thos. Eaden of Viola.
