Out in the Imperial Valley of California, a fleet of 18 Dodge Brothers motor cars are used as stages. They are known as the "Pickwick Stages," because of their starting at the Pickwick Theatre, San Diego.

Their route lies across a portion of the California Desert and each car averages about 1,000 miles per week. Various makes of motor cars were tried out by the Pickwick Stage Company, which operates the line. About six months ago the first Dodge Brothers car was purchased and subjected to many tests on the route. The success was so striking that several more were bought and this number has been added to, until there are now 18 in use, and more to be bought within a short time.

According to Mr. Bayes, one of the proprietors of the company, the upkeep on these cars has been remarkably light, and within a year he expects to operate Dodge Brothers cars only.

**Catarrhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.
