Change of Location

We beg to announce the removal of our mill and lumber yards from the present location in Springwater, to a new location, one and one-half miles east, near the old Cunningham place.

The removal of the mill is now going on but will be ready for operation by March 1st next.

We will also open a branch yard in Springwater about one-half mile south of the Springwater Store on the Edgar Horner property and hope to soon be able to announce the opening of similar sales yards in Estacada.

Our new location is in the midst of one of the finest stands of timber in the state, with from five to six million feet available.

We shall be able to supply all grades of lumber, including the best of mouldings, finish and dimension stock.

The patronage of our friends, the residents of Clackamas County, is respectfully solicited.
